EAST LIVERPOOL, O., MONDAY, JAN. 23, 1899.

TWO CENTS

ARMY BILL IN DOUBT.

Reorganization Measure to Be Considered This Week.

STRONG OPPOSITION IN HOUSE.

Democrats and Populists Against Increasing the Regular Force to 100,000 Men—Will Have Some Support From Republicans—Temporary Increase.

WASHINGTON, Jan. 23.—The time of the house this week, excepting today, which was set aside for the consideration of District of Columbia business, will likely be devoted to the army reorganization bill. The consideration of this bill has been delayed by the illness of Chairman Hull of the military affairs committee. He has recovered sufficiently, it is believed, to pilot the measure, however, and the house formally agreed to take up its consideration tomorrow. The general debate, not including three night sessions, is to continue 15 hours. This is as far as the agreement goes. It includes no provision for a final vote.

The debate promises to be both interesting and important, as it will raise all the questions involved in increasing our standing army to 100,000 men, as proposed by the bill, together with our whole future policy relative to the territory acquired in the recent war with Spain. There exists a wide variety of opinion upon the proposition to increase the standing army. It has a strong majority of the Republicans behind it, and it comes into the house with the endorsement of the president's message, practically as an administration measure. The Democrats and Populists are intensely hostile to the whole proposition, and intend to fight it to the last ditch.

They will have some support from the Republican side. The opposition, however, do not desire to embarrass the government, and are willing to provide for a temporary increase in the army of 50,000 men, in accordance with the provisions of the substitute bill offered by the minority of the committee. Or they are willing to authorize the continuance temporarily of the present war strength of the regular army (64,000), anything in fact to prevent the creation of a permanent increase. In this they have the sympathy of many of the Republicans. The fate of the bill is in grave doubt.

SALTPETRE AND SALT.

All the Chemicals Chemist Wilson Could Find in the Samples of Canned Beef.

WASHINGTON, Jan. 23.—Chemist Wiley of the department of agriculture reported to Secretary Wilson that an examination of samples of canned meats secured both in the open market and from the war department to determine the presence of any chemical preservatives failed to disclose any traces of borax, boric acid, sulphites, sulphurous acid, salicylic or benzoic acid.

The presence of saltpetre was confined in all the samples of corned beef and so called luncheon beef, but no trace of it was discovered in the roast beef, though common salt was present to a considerable extent. The test was made under an order of Secretary Wilson, and 13 samples were inspected, 11 purchased in the open market and two obtained from the war department.

Of the former eight, from five different packing houses, were corned beef; two packed by the Armour Canning company of Chicago and the Armour Packing company of Kansas City, were luncheon beef and the other sample roast beef.

DALY'S TEST UPHELD.

Expert Acknowledged Presence of Chemicals in Powder Submitted.

WASHINGTON, Jan. 23.—When Prof. W. F. Clarke took the witness stand before the war investigating commission Saturday, he said the powder submitted by Dr. Daly was of a brownish color, while pure borax is white, but did not explain the difference. Witness said he could say nothing of the origin of the materials tested, nor could he state the probable amount of these chemical agents used that would be exacted in making tea from the beef without more material and longer time. Large quantities of such chemicals for preservatives, however, he said, would be unnecessary and would be an expensive waste.

The boric acid, he said, imparts no odor whatever to meat. The salicylic acid, also, he said, was odorless, and he could not say whether it forms any compounds with the flesh of cattle that would produce odor.

"Would it not be probable," he was asked, "that meat kept for a time varying from 1 to 12 weeks in cold storage, covered with cheese cloth, would be affected by the substances in the cheese cloth?"

"I should think so," was the reply. "Is it possible to get both these agents present?"

"Yes, sir; we found both in the material submitted, purporting to be a meat extract."

"It does not necessarily follow,

then," suggested General Beaver, "that the product you examined came from beef tea?"

Answer: "No, I did not inquire into its origin."

General Beaver read from a report of the beef on the Panama, saying some of it "tasted like decomposed boric acid."

"Now," he asked, "if there is not any perceptible taste in boric acid, would its use in any quantity in meat impart any such taste?"

"I should say not," answered the witness.

"Then we have disposed of that," commented General Beaver.

NATIONAL PRISON REFORM.

General Brinkerhoff Addressed a Meeting and Others Addressed Gatherings in New Orleans.

NEW ORLEANS, Jan. 23.—Delegates to the Prison Reform association convention had a busy day Sunday. Bishop Sessums preached the convention sermon at Christ Church cathedral, dealing with crime and its punishment and prevention and the reformation of criminals. Mrs. Allen Johnson spoke at the Unitarian church upon the means of reforming women criminals, as practiced at the state institution at Sherburn, Mass., of which she is superintendent. There were three meetings at night. General Brinkerhoff occupied the Methodist pulpit and spoke on the general subject of prison reform. At the Unitarian church Mrs. Barrows of Massachusetts, Judge Follitt of Ohio and J. P. Scott of Concord spoke. The main night meeting was at Tulane hall, where the subject of child saving was

GENERAL ROELIFF BRINKERHOFF.

discussed by Rev. Beverly Warner of this city, H. H. Hart of Chicago and Rev. Dr. Buckner of Dallas.

TREATY COMPROMISES.

Two Plans Proposed in the Senate—If Not Arranged, There May Be Delay.

WASHINGTON, Jan. 23.—Several addresses on the general subject of expansion are expected to be made in the senate this week. One of these by Senator White in opposition to the government's policy will likely be made today and Senator Lodge will likely follow tomorrow with a brief talk in support of the policy and in advocacy of the early ratification of the peace treaty.

How much time will be given to the treaty in executive session will depend upon whether the committee on foreign relations considers it in the interest of the treaty to press consideration. There is an effort to arrange a compromise, which would permit speedy action upon the treaty, but if this is not successful the indications are for considerable delay. Two compromises are suggested.

One of these is for a modification of the treaty, or the adoption of a resolution declaratory against the permanent holding of the Philippine archipelago, and the other is for a modification of the army reorganization bill on lines desired by the treaty opponents. It is not yet possible to state whether either course will be pursued.

On Friday the senate will listen to eulogies of the late Representative Cook of Illinois.

POPE REPORTED ILL.

French Bishop Reported to Have Received the Information.

LONDON, Jan. 23.—The Paris correspondent of The Daily Record said that a French bishop received a telegram from Rome saying that the pope was dangerously ill.

A dispatch to The Associated Press from Rome on Saturday said the pope had completely recovered his health, and after a slight attack of influenza, and had received in audience a deputation of the canons of St. Jean de Lateran that day.

IRELAND TO BE ENTERTAINED.

He Will Be Invited to Preside Over Joan D'Arc Fetes.

LONDON, Jan. 23.—The Paris correspondent of The Daily Chronicle says: "Archbishop Ireland, after his visit to Rome, will come here to consult with the French bishops on the subject of Heckerism."

"The bishop of Orleans has invited the distinguished American ecclesiastic to preside over the fetes in honor of Joan D'Arc."

FIRM FRIEND TO QUAY.

A Statement Issued by Governor Stone.

THINKS HE'LL BE RE-ELECTED.

Declared a Majority of the Republicans of Pennsylvania Favor the Senator. Van Valkenburg Declared Quay Had All the Votes He Could Get.

HARRISBURG, Jan. 23.—Governor Stone gave the following signed statement on the senatorial situation:

"My opinion has not changed since I expressed the belief, after the action of the caucus making Colonel Quay the nominee of the Republican party for United States senator, that he would be re-elected. His supporters have not had a break in their lines since that time and they have made gains. Pennsylvania is a Republican state, and unless there are some serious reasons why a regularly nominated candidate of the Republican party in the state should not be elected, it is usually safe to predict that he will win. More than two-thirds of the Republican members of the general assembly are already publicly committed to him. No one can honestly or fairly question the regularity of the nomination of Senator Quay. The caucus was regularly called and properly conducted. Stalwart Republicans generally throughout the commonwealth have accepted him as the candidate of their party and want to see him elected."

"The conspiracy case brought against him in the heat of the campaign has been fully ventilated and the political character of the proceedings is thoroughly understood by the people. The argument of Attorney Watson before the supreme court clearly demonstrated that there was nothing in the bills of indictment against Senator Quay, nor in the testimony, showing him to have violated any law. This has been made plain to all as how the fact that this prosecution was inspired and instituted for the purpose of influencing votes against Senator Quay's senatorial canvass. It is not my purpose or intention to quarrel with any one who is opposed to Senator Quay. That is his right and privilege. But I do say that I believe that way down in the hearts of nearly 500,000 Republicans of Pennsylvania, who voted for me for governor at the last election, there is a feeling of sympathy for Senator Quay in the present contest."

"He has been a brave soldier in the hour of his country's trials, he has been a gallant, able and victorious field marshal of the Republican party, not only in local and state campaigns, but in one of the greatest and most bitterly fought national contests ever waged in American politics. To him, more than any one else, as chairman of the Republican national committee, did we owe the election of General Benjamin Harrison to the presidency. As a member of the United States senate he has watchfully and zealously guarded the great industrial, manufacturing and commercial interests of our commonwealth. His influence was potential, not only in materially aiding in the passage of the McKinley bill, but, with the Democrats in control of congress, through his close relations with his colleagues on both sides of the house and his statesmanlike course on the floor of the senate, he saved Pennsylvania industries from ruin by the amendments he had inserted in the Wilson bill for their especial protection."

"There should be no occasion for concern among the friends of Senator Quay on account of the present deadlock on the senatorship. Public sentiment in his favor is making itself felt among the members of the legislature. If Senator Quay's supporters stand firm, as I am convinced they will, his re-election will certainly follow in due time."

"WILLIAM A. STONE."

E. A. Van Valkenburg, one of the managers of the anti-Quay campaign, issued a statement, in which he said the senatorial situation was no longer complicated or uncertain. Mr. Van Valkenburg claimed Senator Quay's strength was at high tide when he received 113 votes, which is just 14 short of a majority. Against him are 139 votes, 87 being Democrats and 52 anti-Quay Republicans.

"The Quay managers have abandoned all hope of securing a single vote from the anti-Quay ranks," he adds. "But while admitting that no Democrat will vote directly for Quay at any stage of the contest, they assert with an air of mystery rather than of confidence that at the proper time enough Democrats will be found to supply the necessary 14 votes that Senator Quay must have to elect him."

"The Quay machine is bankrupt in the matter of political patronage. All the attempts of the Quay people to create friction between the Democrats and the anti-Quayites have signally failed. Senator Quay amassed all his strength to break the anti-Quayites last Wednesday and failed. He has given orders that every effort must be made to break them next Thursday, but he will again fail. Senator Quay may be able to prolong the deadlock, but re-elect himself United States senator from Pennsylvania, never."

The fourth joint ballot taken at high noon Saturday was a tame and entirely perfunctory affair. There were only six members more than a quorum pres-

ent, and the ballot resulted: Quay, 50; Jenks, 41; anti-Quay, divided among eight candidates, 37. There were 56 pairs and 7 absent without pairs, and Quay was 12 votes short of an election. The absentees were Senator John H. Brown, Westmoreland, Quay; Senator John F. Higgins, Schuylkill county, Democrat; Representative Samuel A. Kendall, Somerset, anti-Quay; Charles R. Knoblett, Philadelphia, Quay; Jeremiah Roth, Lehigh, Democrat; Joseph W. Smith, Clinton, Democrat; and Michael J. Tighe, Luzerne, Democrat.

ONE ROBBER WOUNDED.

Thieves Tied to Rob the Postoffice at Cuyahoga Falls—Shots Were Exchanged.

AKRON, Jan. 23.—At Cuyahoga Falls Night Watchman Evans found three men at work on a safe in the postoffice rooms in the town hall. The recent fire caused the temporary removal of the postoffice.

Evans and the robbers both fired their revolvers and one robber was wounded, so that he had to be carried in a wagon by blood on the snow. The safe belonged to the town and the robbers got but 75 cents. It is thought the burglars are the same gang that robbed the Napoleon postoffice.

To Form White Line Combine.

TOLEDO, Jan. 23.—The leading white line manufacturers of the United States are expected to meet in Toledo to form a combine for the betterment of trade conditions. A meeting was held in Fremont, O., last week, at which a committee was appointed to formulate a plan. This committee will likely report today. It is said the capitalization of the concern will be \$10,000,000. The manufacturers of this city deny that the combine is a trust, but say it is formed simply to raise prices, which have been demoralized for the past two years.

Big Zinc Combine.

TOLEDO, Jan. 23.—The American Zinc company, with a capital of \$5,000,000, was organized, with J. O. Rodgers of this city as the leading spirit. The plan has been under consideration for the past year, and Mr. Rodgers has, it is reported, finally interested ex-Governor Flower, Daniel O'Day and others of the Standard Oil company. All the leading zinc manufacturers are in the deal. The organization will be perfected this week.

Woman Committed Suicide.

TOLEDO, Jan. 23.—Mrs. S. J. McCollough, wife of a well-known man of this city, committed suicide and attempted to kill her family of three children. She was undoubtedly insane. Four of the children were taken violently ill, having eaten diseased meat. One child died and she attempted to give the living children carbolic acid.

An Attempted Lynching.

ZANESVILLE, Jan. 23.—A mob tried to lynch E. S. Wright, charged with assault on a young lady named Taylor at Bridgeville, Muskingum county. Wright was held for court and taken to jail.

BALLOTING TODAY.

West Virginia Legislators Expected to Commence Voting For Senatorial Candidates.

CHARLESTON, W. Va., Jan. 23.—Balloting for United States senator is expected to begin in the legislature today. As the Republicans have a majority of only one on joint ballot, and that one is in dispute, the present struggle has become a state edition of the Hayes-Tilden contest. The factional fighting was ended when John T. McGraw last Wednesday night received the Democratic caucus nomination, and on the following night N. B. Scott was made the Republican nominee. Both parties worked for partisan advantages on the settlement of contested seats.

The Republicans were fighting to hold their own and had a majority of one, since two of the Republicans had been unseated in the house. As the Democratic majority in the house threatened to unseat others, the Republican majority in the senate had pending three resolutions for contests in the upper branch.

A Bishop to Celebrate.

PITTSBURG, Jan. 23.—Bishop Cortlandt Whitehead will celebrate the seventeenth anniversary of his consecration next Wednesday. The observance of the anniversary will form a prominent feature of the assembling of the southern convocation of the diocese of Pittsburgh, which opens tomorrow evening in the Church of the Epiphany, Bellevue, of which Rev. George Gunnell is pastor. The convocation is composed of about 35 ministers of the Episcopal church resident in Pittsburgh and vicinity.

Canal Bill Passed.

WASHINGTON, Jan. 23.—The senate Saturday passed the Nicaragua canal bill, decided to make the anti-scalping bill the unfinished business and continued without the completion of the consideration of the Indian appropriation bill. A number of amendments were adopted to the Nicaragua canal bill. A roll call developed only six votes in opposition, they being those of Bate, Caffery, Cockrell, Mantle, Martin and Smith.

GERMANY FOR PEACE.

Not Likely to Be Belligerent Over Samoa.

EXCESSIVE DEMANDS IMPROBABLE

Company Formed to Build a Cable to the United States—Branch Telegraph Office to Be Established, Probably to Influence Opinion.

LONDON, Jan. 23.—The Berlin correspondent of The Times said:

"There are good reasons for believing that the German government regards the maintenance of cordial relations with Great Britain and the United States as far more important than even German commercial interests in Samoa. The tone of the leading journals, therefore, is, on the whole, free from bitterness or exaggeration."

"In a word there are many indications that Germany will not frustrate a revision of the treaty of Berlin by extravagant demands, such as for the cession of the islands to Germany. The Kolnische Zeitung ridicules the report that Dr. Von Hildebrand, German ambassador at Washington, has complained of Mr. Berry's remarks in the house of representatives, and says that the United States ambassador in Berlin, Mr. White, might as well have complained of Herr Ahlwardt's anti-American ravings in the reichstag."

The Berlin correspondent of The Daily News said:

"A joint stock company has been formed at Cologne with a capital of £500,000 to lay a cable from Germany to the United States. At the same time Wolff's Telegraph agency decided to establish a branch office in New York city. Evidently the 'yellow' press campaign against Germany, which has caused great embitterness on both sides, has induced the German government to favor this project, by which it is hoped to exercise a direct influence upon public opinion in the United States."

AMERICANS WILL PROTEST.

Some in Germany Were Aroused Over Utterances in Congress.

MUNICH, Jan. 23.—The Neueste Nachrichten, which raised a storm of indignation among the ultra-patriotic papers by hinting that German doings in the Philippines were largely responsible for the delicate relations between the United States and Germany, and that as the German foreign office knew nothing of them, it would be advisable to institute an investigation with a view of avoiding a recurrence of such mistakes, made the following comment:

"The Americans here have decided to send to the Washington government a protest against the anti-German expressions used in the house of representatives and a declaration that no animosity against America exists in Germany, where Americans always meet with the most friendly reception."

GREEKS HOMELESS.

Several Towns Destroyed by Earthquake. Houses at Some Other Places Damaged.

ATHENS, Jan. 23.—A strong seismic disturbance was felt throughout the Peloponnese (the southern part of the kingdom of Greece), especially in the southwestern departments of the peninsula. All the houses in the town of Philatra, in the department of Messenia, on the Ionian coast, have been damaged, and the inhabitants are now camping out in the suburbs. Two villages in the vicinity of Philatra were completely destroyed, many people being slightly injured.

The villages Kyparissia and Staso were also practically destroyed, though it is not known as yet whether there were any victims there.

Much damage to property was done at Navarino. The authorities are doing all in their power to furnish tents and supplies.

AN ANTI-EXPANSION MEETING.

Speeches Were Made by Gompers, Cochran and Eastis—Regrets Sent.

NEW YORK, Jan. 23.—A mass meeting was held in the Academy of Music last night, in which resolutions were adopted and speeches made against expansion by Samuel Gompers, Bourke Cochran and ex-Ambassador Eastis.

A list of vice presidents was read, including these names: Wheeler H. Peckham, Abraham S. Hewitt, Henry Loomis Nelson, William H. Hornblower, Roger A. Pryor, Francis Wayland Glen, John C. Sheehan and Frederick R. Coudert.

A number of vice presidents were announced as representing the Central Labor union.

Communications were read from ex-President Cleveland, Colonel William J. Bryan and Bishop Henry C. Potter, regretting their inability to be present.

Another Warship to Samoa.

WELLINGTON, New Zealand, Jan. 23.—The British third-class cruiser Royalist was dispatched to Samoa, following the Tauranga, which left on Friday.

EAST LIVERPOOL, O., MONDAY, JAN. 23, 1899.

TWO CENTS

ARMY BILL IN DOUBT.

Reorganization Measure to Be Considered This Week.

STRONG OPPOSITION IN HOUSE.

Democrats and Populists Against Increasing the Regular Force to 100,000 Men—Will Have Some Support From Republicans—Temporary Increase.

WASHINGTON, Jan. 23.—The time of the house this week, excepting today, which was set aside for the consideration of District of Columbia business, will likely be devoted to the army reorganization bill. The consideration of this bill has been delayed by the illness of Chairman Hull of the military affairs committee. He has recovered sufficiently, it is believed, to pilot the measure, however, and the house formally agreed to take up its consideration tomorrow. The general debate, not including three night sessions, is to continue 15 hours. This is as far as the agreement goes. It includes no provision for a final vote.

The debate promises to be both interesting and important, as it will raise all the questions involved in increasing our standing army to 100,000 men, as proposed by the bill, together with our whole future policy relative to the territory acquired in the recent war with Spain. There exists a wide variety of opinion upon the proposition to increase the standing army. It has a strong majority of the Republicans behind it, and it comes into the house with the endorsement of the president's message, practically as an administration measure. The Democrats and Populists are intensely hostile to the whole proposition, and intend to fight it to the last ditch.

They will have some support from the Republican side. The opposition, however, do not desire to embarrass the government, and are willing to provide for a temporary increase in the army of 50,000 men, in accordance with the provisions of the substitute bill offered by the minority of the committee. Or they are willing to authorize the continuance temporarily of the present war strength of the regular army (64,000), anything in fact to prevent the creation of a permanent increase. In this they have the sympathy of many of the Republicans. The fate of the bill is in grave doubt.

SALTPETRE AND SALT.

All the Chemicals Chemist Wilson Could Find in the Samples of Canned Beef.

WASHINGTON, Jan. 23.—Chemist Wiley of the department of agriculture reported to Secretary Wilson that an examination of samples of canned meats secured both in the open market and from the war department to determine the presence of any chemical preservatives failed to disclose any traces of borax, boric acid, sulphites, sulphurous acid, salicylic or benzoic acid.

The presence of saltpetre was confined in all the samples of corned beef and so called luncheon beef, but no trace of it was discovered in the roast beef, though common salt was present to a considerable extent. The test was made under an order of Secretary Wilson, and 13 samples were inspected, 11 purchased in the open market and two obtained from the war department.

Of the former eight, from five different packing houses, were corned beef; two packed by the Armour Canning company of Chicago and the Armour Packing company of Kansas City, were luncheon beef and the other sample roast beef.

DALY'S TEST UPHELD.

Expert Acknowledged Presence of Chemicals in Powder Submitted.

WASHINGTON, Jan. 23.—When Prof. W. F. Clarke took the witness stand before the war investigating commission Saturday, he said the powder submitted by Dr. Daly was of a brownish color, while pure borax is white, but did not explain the difference. Witness said he could say nothing of the origin of the materials tested, nor could he state the probable amount of these chemical agents used that would be exacted in making tea from the beef without more material and longer time. Large quantities of such chemicals for preservatives, however, he said, would be unnecessary and would be an expensive waste.

The boric acid, he said, imparts no odor whatever to meat. The salicylic acid, also, he said, was odorless, and he could not say whether it forms any compounds with the flesh of cattle that would produce odor.

"Would it not be probable," he was asked, "that meat kept for a time varying from 1 to 12 weeks in cold storage, covered with cheese cloth, would be affected by the substances in the cheese cloth?"

"I should think so," was the reply. "Is it possible to get both these agents present?"

"Yes, sir; we found both in the material submitted, purporting to be a meat extract."

"It does not necessarily follow,

then," suggested General Beaver, "that the product you examined came from beef tea?"

Answer: "No, I did not inquire into its origin."

General Beaver read from a report of the beef on the Panama, saying some of it "tasted like decomposed boric acid."

"Now," he asked, "if there is not any perceptible taste in boric acid, would its use in any quantity in meat impart any such taste?"

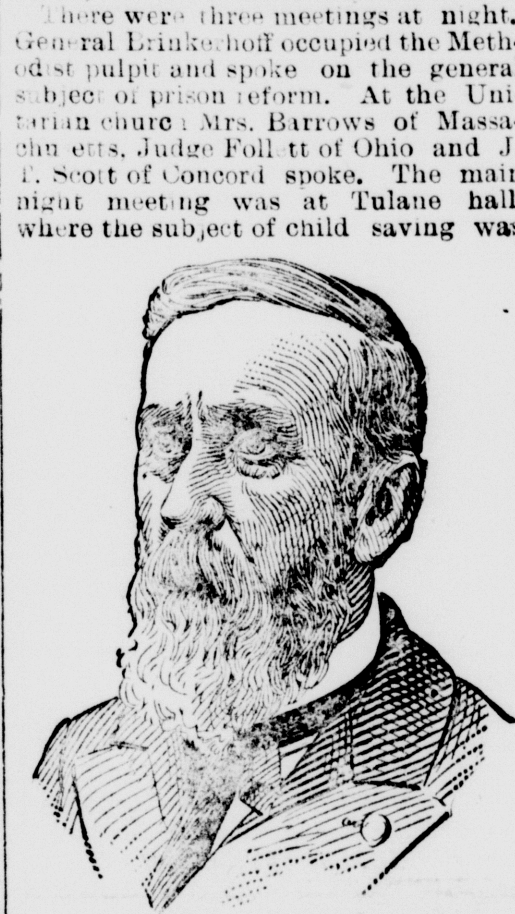

"I should say not," answered the witness.

"Then we have disposed of that," commented General Beaver.

NATIONAL PRISON REFORM.

General Brinkerhoff Addressed a Meeting and Others Addressed Gatherings in New Orleans.

NEW ORLEANS, Jan. 23.—Delegates to the Prison Reform association convention had a busy day Sunday. Bishop Sessums preached the convention sermon at Christ Church cathedral, dealing with crime and its punishment and prevention and the reformation of criminals. He Will Be Invited to Preside Over Joan D'Arc Fetes.

LONDON, Jan. 23.—The Paris correspondent of The Daily Chronicle says: "Archbishop Ireland, after his visit to Rome, will come here to consult with the French bishops on the subject of Heckerism."

The bishop of Orleans has invited the distinguished American ecclesiastic to preside over the fetes in honor of Joan D'Arc."

FIRM FRIEND TO QUAY.

A Statement Issued by Governor Stone.

THINKS HE'LL BE RE-ELECTED.

Declared a Majority of the Republicans of Pennsylvania Favor the Senator. Van Valkenburg Declared Quay Had All the Votes He Could Get.

HARRISBURG, Jan. 23.—Governor Stone gave the following signed statement on the senatorial situation:

"My opinion has not changed since I expressed the belief, after the action of the caucus making Colonel Quay the nominee of the Republican party for United States senator, that he would be re-elected. His supporters have not had a break in their lines since that time and they have made gains. Pennsylvania is a Republican state, and unless there are some serious reasons why a regularly nominated candidate of the Republican party in the state should not be elected, it is usually safe to predict that he will win. More than two-thirds of the Republican members of the general assembly are already publicly committed to him. No one can honestly or fairly question the regularity of the nomination of Senator Quay. The caucus was regularly called and properly conducted. Stalwart Republicans generally throughout the commonwealth have accepted him as the candidate of their party and want to see him elected."

"The conspiracy case brought against him in the heat of the campaign has been fully ventilated and the political character of the proceedings is thoroughly understood by the people. The argument of Attorney Watson before the supreme court clearly demonstrated that there was nothing in the bills of indictment against Senator Quay, nor in the testimony, showing him to have violated any law. This has been made plain to all as how the fact that this prosecution was inspired and instituted for the purpose of influencing votes against Senator Quay's senatorial canvass. It is not my purpose or intention to quarrel with any one who is opposed to Senator Quay. That is his right and privilege. But I do say that I believe that way down in the hearts of nearly 500,000 Republicans of Pennsylvania, who voted for me for governor at the last election, there is a feeling of sympathy for Senator Quay in the present contest."

"He has been a brave soldier in the hour of his country's trials, he has been a gallant, able and victorious field marshal of the Republican party, not only in local and state campaigns, but in one of the greatest and most bitterly fought national contests ever waged in American politics. To him, more than any one else, as chairman of the Republican national committee, did we owe the election of General Benjamin Harrison to the presidency. As a member of the United States senate he has watchfully and zealously guarded the great industrial, manufacturing and commercial interests of our commonwealth. His influence was potential, not only in materially aiding in the passage of the McKinley bill, but with the Democrats in control of congress, through his close relations with his colleagues on both sides of the house and his statesmanlike course on the floor of the senate, he saved Pennsylvania industries from ruin by the amendments he had inserted in the Wilson bill for their especial protection."

"There should be no occasion for concern among the friends of Senator Quay on account of the present deadlock on the senatorship. Public sentiment in his favor is making itself felt among the members of the legislature. If Senator Quay's supporters stand firm, as I am convinced they will, his re-election will certainly follow in due time."

"E. A. Van Valkenburg, one of the managers of the anti-Quay campaign, issued a statement, in which he said the senatorial situation was no longer complicated or uncertain. Mr. Van Valkenburg claimed Senator Quay's strength was at high tide when he received 113 votes, which is just 14 short of a majority. Against him are 139 votes, 87 being Democrats and 52 anti-Quay Republicans."

"The Quay managers have abandoned all hope of securing a single vote from the anti-Quay ranks," he adds. "But while admitting that no Democrat will vote directly for Quay at any stage of the contest, they assert with an air of mystery rather than of confidence that at the proper time enough Democrats will be found to supply the necessary 14 votes that Senator Quay must have to elect him."

"The Quay machine is bankrupt in the matter of political patronage. All the attempts of the Quay people to create friction between the Democrats and the anti-Quayites have signally failed. Senator Quay amassed all his strength to break the anti-Quayites last Wednesday and failed. He has given orders that every effort must be made to break them next Thursday, but he will again fail. Senator Quay may be able to prolong the deadlock, but re-elect himself United States senator from Pennsylvania, never."

The fourth joint ballot taken at high noon Saturday was a tame and entirely perfunctory affair. There were only six members more than a quorum pres-

ent, and the ballot resulted: Quay, 50; Jenks, 41; anti-Quay, divided among eight candidates, 37. There were 56 pairs and 7 absent without pairs, and Quay was 12 votes short of an election. The absentees were Senator John H. Brown, Westmoreland, Quay; Senator John F. Higgins, Schuylkill county, Democrat; Representative Samuel A. Kendall, Somerset, anti-Quay; Charles R. Knobbett, Philadelphia, Quay; Jeremiah Roth, Lehigh, Democrat; Joseph W. Smith, Clinton, Democrat, and Michael J. Tighe, Luzerne, Democrat.

ONE ROBBER WOUNDED.

Thieves Tried to Rob the Postoffice at Cuyahoga Falls—Shots Were Exchanged.

AKRON, Jan. 23.—At Cuyahoga Falls Night Watchman Evans found three men at work on a safe in the postoffice rooms in the town hall. The recent fire caused the temporary removal of the postoffice.

Evans and the robbers both fired their revolvers and one robber was wounded, so that he had to be carried and was traced by blood on the snow. The safe belonged to the town and the robbers got but 75 cents. It is thought the burglars are the same gang that robbed the Napoleon postoffice.

To Form White Lime Combine.

TOLEDO, Jan. 23.—The leading white lime manufacturers of the United States are expected to meet in Toledo to form a combine for the betterment of trade conditions. A meeting was held in Fremont, O., last week, at which a committee was appointed to formulate a plan. This committee will likely report today. It is said the capitalization of the concern will be \$10,000,000. The manufacturers of this city deny that the combine is a trust, but say it is formed simply to raise prices, which have been demoralized for the past two years.

Big Zinc Combine.

TOLEDO, Jan. 23.—The American Zinc company, with a capital of \$5,000,000, was organized, with J. O. Rodgers of this city as the leading spirit. The plan has been under consideration for the past year, and Mr. Rodgers has, it is reported, finally interested ex-Governor Flower, Daniel O'Day and others of the Standard Oil company. All the leading zinc manufacturers are in the deal. The organization will be perfected this week.

Woman Committed Suicide.

TOLEDO, Jan. 23.—Mrs. S. J. McCollough, wife of a well-known man of this city, committed suicide and attempted to kill her family of three children. She was undoubtedly insane. Four of the children were taken violently ill, having eaten diseased meat. One child died and she attempted to give the living children carbolic acid.

An Attempted Lynching.

ZANESVILLE, Jan. 23.—A mob tried to lynch E. S. Wright, charged with assault on a young lady named Taylor at Bridgeville, Muskingum county. Wright was held for court and taken to jail.

BALLOTING TODAY.

West Virginia Legislators Expected to Commence Voting For Senatorial Candidates.

CHARLESTON, W. Va., Jan. 23.—Balloting for United States senator is expected to begin in the legislature today. As the Republicans have a majority of only one on joint ballot, and that one is in dispute, the present struggle has become a state edition of the Hayes-Tilden contest. The factional fighting was ended when John T. McGraw last Wednesday night received the Democratic caucus nomination, and on the following night N. B. Scott was made the Republican nominee. Both parties worked for partisan advantages on the settlement of contested seats.

The Republicans were fighting to hold their own and had a majority of one, since two of the Republicans had been unseated in the house. As the Democratic majority in the house threatened to unseat others, the Republican majority in the senate had pending three resolutions for contests in the upper branch.

A Bishop to Celebrate.

PITTSBURG, Jan. 23.—Bishop Cortlandt Whitehead will celebrate the seventeenth anniversary of his consecration next Wednesday. The observance of the anniversary will form a prominent feature of the assembling of the southern convocation of the diocese of Pittsburg, which opens tomorrow evening in the Church of the Epiphany, Bellevue, of which Rev. George Gunnell is pastor. The convocation is composed of about 35 ministers of the Episcopal church resident in Pittsburg and vicinity.

Canal Bill Passed.

WASHINGTON, Jan. 23.—The senate Saturday passed the Nicaragua canal bill, decided to make the anti-scalping bill the unfinished business and continued without the completion of the consideration of the Indian appropriation bill. A number of amendments were adopted to the Nicaragua canal bill. A roll call developed only six votes in opposition, they being those of Bate, Caffery, Cockrell, Mantle, Martin and Smith.

GERMANY FOR PEACE.

Not Likely to Be Belligerent Over Samoa.

EXCESSIVE DEMANDS IMPROBABLE

Company Formed to Build a Cable to the United States—Branch Telegraph Office to Be Established, Probably to Influence Opinion.

LONDON, Jan. 23.—The Berlin correspondent of The Times said:

"There are good reasons for believing that the German government regards the maintenance of cordial relations with Great Britain and the United States as far more important than even German commercial interests in Samoa. The tone of the leading journals, therefore, is, on the whole, free from bitterness or exaggeration."

"In a word there are many indications that Germany will not frustrate a revision of the treaty of Berlin by extravagant demands, such as for the cession of the islands to Germany. The Kolnische Zeitung ridicules the report that Dr. Von Hillebrand, German ambassador at Washington, has complained of Mr. Berry's remarks in the house of representatives, and says that the United States ambassador in Berlin, Mr. White, might as well have complained of Herr Ahlwardt's anti-American ravings in the reichstag."

The Berlin correspondent of The Daily News said:

"A joint stock company has been formed at Cologne with a capital of £500,000 to lay a cable from Germany to the United States. At the same time Wolff's Telegraph agency decided to establish a branch office in New York city. Evidently the 'yellow' press campaign against Germany, which has caused great bitterness on both sides, has induced the German government to favor this project, by which it is hoped to exercise a direct influence upon public opinion in the United States."

AMERICANS WILL PROTEST.

Some in Germany Were Aroused Over Utterances in Congress.

MUNICH, Jan. 23.—The Neueste Nachrichten, which raised a storm of indignation among the ultra-patriotic papers by hinting that German doings in the Philippines were largely responsible for the delicate relations between the United States and Germany, and that as the German foreign office knew nothing of them, it would be advisable to institute an investigation with a view of avoiding a recurrence of such mistakes, made the following comment:

"The Americans here have decided to send to the Washington government a protest against the anti-German expressions used in the house of representatives and a declaration that no animosity against America exists in Germany, where Americans always meet with the most friendly reception."

GREEKS HOMELESS.

Several Towns Destroyed by Earthquake.

Houses at Some Other Places Damaged.

ATHENS, Jan. 23.—A strong seismic disturbance was felt throughout the Peloponnese (the southern part of the kingdom of Greece), especially in the southwestern departments of the peninsula. All the houses in the town of Philatira, in the department of Messenia, on the Ionian coast, have been damaged, and the inhabitants are now camping out in the suburbs. Two villages in the vicinity of Philatira were completely destroyed, many people being slightly injured.

The villages Kyparissia and Staso were so practically destroyed, though it is not known as yet whether there were any victims there.

Much damage to property was done at Navarino. The authorities are doing all in their power to furnish tents and supplies.

AN ANTI-EXPANSION MEETING.

Speeches Were Made by Gompers, Cochran and Eustis—Regrets Sent.

NEW YORK, Jan. 23.—A mass meeting was held in the Academy of Music last night, in which resolutions were adopted and speeches made against expansion by Samuel Gompers, Bourke Cochran and ex-Ambassador Eustis.

A list of vice presidents was read, including these names: Wheeler H. Peckham, Abraham S. Hewitt, Henry Loomis Nelson, William H. Hornblower, Roger A. Pryor, Francis Wayland Glen, John C. Sheehan and Frederic R. Condit.

A number of vice presidents were announced as representing the Central Labor union.

Communications were read from ex-President Cleveland, Colonel William J. Bryan and Bishop Henry C. Potter, regretting their inability to be present.

Another Warship to Samoa.

WELLINGTON, New Zealand, Jan. 23.—The British third-class cruiser Royalist was dispatched to Samoa, following the Tauranga, which left on Friday.

ARMY BILL IN DOUBT.

Reorganization Measure to Be Considered This Week.

STRONG OPPOSITION IN HOUSE.

Democrats and Populists Against Increasing the Regular Force to 100,000 Men—Will Have Some Support From Republicans—Temporary Increase.

WASHINGTON, Jan. 23.—The time of the house this week, excepting today, which was set aside for the consideration of District of Columbia business, will likely be devoted to the army reorganization bill. The consideration of this bill has been delayed by the illness of Chairman Hull of the military affairs committee. He has recovered sufficiently, it is believed, to pilot the measure, however, and the house formally agreed to take up its consideration tomorrow. The general debate, not including three night sessions, is to continue 15 hours. This is as far as the agreement goes. It includes no provision for a final vote.

The debate promises to be both interesting and important, as it will raise all the questions involved in increasing our standing army to 100,000 men, as proposed by the bill, together with our whole future policy relative to the territory acquired in the recent war with Spain. There exists a wide variety of opinion upon the proposition to increase the standing army. It has a strong majority of the Republicans behind it, and it comes into the house with the endorsement of the president's message, practically as an administration measure. The Democrats and Populists are intensely hostile to the whole proposition, and intend to fight it to the last ditch.

They will have some support from the Republican side. The opposition, however, do not desire to embarrass the government, and are willing to provide for a temporary increase in the army of 50,000 men, in accordance with the provisions of the substitute bill offered by the minority of the committee. Or they are willing to authorize the continuance temporarily of the present war strength of the regular army (64,000), anything in fact to prevent the creation of a permanent increase. In this they have the sympathy of many of the Republicans. The fate of the bill is in grave doubt.

SALTPETRE AND SALT.

All the Chemicals Chemist Wilson Could Find in the Samples of Canned Beef.

WASHINGTON, Jan. 23.—Chemist Wiley of the department of agriculture reported to Secretary Wilson that an examination of samples of canned meats secured both in the open market and from the war department to determine the presence of any chemical preservatives failed to disclose any traces of borax, loric acid, sulphites, sulphurous acid, salicylic or benzoic acid.

The presence of saltpetre was confined in all the samples of corned beef and so called luncheon beef, but no trace of it was discovered in the roast beef, though common salt was present to a considerable extent. The test was made under an order of Secretary Wilson, and 13 samples were inspected, 11 purchased in the open market and two obtained from the war department.

Of the former eight, from five different packing houses, were corned beef; two packed by the Armour Canning company of Chicago and the Armour Packing company of Kansas City, were luncheon beef and the other sample roast beef.

DALY'S TEST UPHELD.

Expert Acknowledged Presence of Chemicals in Powder Submitted.

WASHINGTON, Jan. 23.—When Prof. W. F. Clarke took the witness stand before the war investigating commission Saturday, he said the powder submitted by Dr. Daly was of a brownish color, while pure borax is white, but did not explain the difference. Witness said he could say nothing of the origin of the materials tested, nor could he state the probable amount of these chemical agents used that would be exacted in making tea from the beef without more material and longer time. Large quantities of such chemicals for preservatives, however, he said, would be unnecessary and would be an expensive waste.

The boric acid, he said, imparts no odor whatever to meat. The salicylic acid, also, he said, was odorless, and he could not say whether it forms any compounds with the flesh of cattle that would produce odor.

"Would it not be probable," he was asked, "that meat kept for a time varying from 1 to 12 weeks in cold storage, covered with cheese cloth, would be affected by the substances in the cheese cloth?"

"I should think so," was the reply. "Is it possible to get both these agents present?"

"Yes, sir; we found both in the material submitted, purporting to be a meat extract."

"It does not necessarily follow,

then," suggested General Beaver, "that the product you examined came from beef tea?"

Answer: "No, I did not inquire into its origin."

General Beaver read from a report of the beef on the Panama, saying some of it "tasted like decomposed boric acid."

"Now," he asked, "if there is not any perceptible taste in boric acid, would its use in any quantity in meat impart any such taste?"

"I should say not," answered the witness.

"Then we have disposed of that," commented General Beaver.

NATIONAL PRISON REFORM.

General Brinkerhoff Addressed a Meeting and Others Addressed Gatherings in New Orleans.

NEW ORLEANS, Jan. 23.—Delegates to the Prison Reform association convention had a busy day Sunday. Bishop Sessums preached the convention sermon at Christ Church cathedral, dealing with crime and its punishment and prevention and the reformation of criminals. Mrs. Allen Johnson spoke at the Unitarian church upon the means of reforming women criminals, as practiced at the state institution at Sherburn, Mass., of which she is superintendent.

There were three meetings at night. General Brinkerhoff occupied the Methodist pulpit and spoke on the general subject of prison reform. At the Unitarian church Mrs. Barrows of Massachusetts, Judge Folt of Ohio and J. F. Scott of Concord spoke. The main night meeting was at Tulane hall, where the subject of child saving was

GENERAL ROELIFF BRINKERHOFF.

discussed by Rev. Beverly Warner of this city, H. H. Hart of Chicago and Rev. Dr. Buckner of Dallas.

TREATY COMPROMISES.

Two Plans Proposed in the Senate—If Not Arranged, There May Be Delay.

WASHINGTON, Jan. 23.—Several addresses on the general subject of expansion are expected to be made in the senate this week. One of these by Senator White in opposition to the government's policy will likely be made today and Senator Lodge will likely follow tomorrow with a brief talk in support of the policy and in advocacy of the early ratification of the peace treaty.

How much time will be given to the treaty in executive session will depend upon whether the committee on foreign relations considers it in the interest of the treaty to press consideration. There is an effort to arrange a compromise, which would permit speedy action upon the treaty, but if this is not successful the indications are for considerable delay. Two compromises are suggested.

One of these is for a modification of the treaty, or the adoption of a resolution declaratory against the permanent holding of the Philippine archipelago, and the other is for a modification of the army reorganization bill on lines desired by the treaty opponents. It is not yet possible to state whether either course will be pursued.

On Friday the senate will listen to eulogies of the late Representative Cook of Illinois.

POPE REPORTED ILL.

French Bishop Reported to Have Received the Information.

LONDON, Jan. 23.—The Paris correspondent of The Daily Record said that a French bishop received a telegram from Rome saying that the pope was dangerously ill.

A dispatch to The Associated Press from Rome on Saturday said the pope had completely recovered his health, after a slight attack of influenza, and had received in audience a deputation of the canons of St. Jean de Later on that day.

IRELAND TO BE ENTERTAINED.

He Will Be Invited to Preside Over Joan D'Arc Fetes.

LONDON, Jan. 23.—The Paris correspondent of The Daily Chronicle says: "Archbishop Ireland, after his visit to Rome, will come here to consult with the French bishops on the subject of Heckerism."

"The bishop of Orleans has invited the distinguished American ecclesiastic to preside over the fetes in honor of Joan D'Arc."

FIRM FRIEND TO QUAY.

A Statement Issued by Governor Stone.

THINKS HE'LL BE RE-ELECTED.

Declared a Majority of the Republicans of Pennsylvania Favor the Senator. Van Valkenburg Declared Quay Had All the Votes He Could Get.

HARRISBURG, Jan. 23.—Governor Stone gave the following signed statement on the senatorial situation:

"My opinion has not changed since I expressed the belief, after the action of the caucus making Colonel Quay the nominee of the Republican party for United States senator, that he would be re-elected. His supporters have not had a break in their lines since that time and they have made gains. Pennsylvania is a Republican state, and unless there are some serious reasons why a regularly nominated candidate of the Republican party in the state should not be elected, it is usually safe to predict that he will win. More than two-thirds of the Republican members of the general assembly are already publicly committed to him. No one can honestly or fairly question the regularity of the nomination of Senator Quay. The caucus was regularly called and properly conducted. Stalwart Republicans generally throughout the commonwealth have accepted him as the candidate of their party and want to see him elected.

"The conspiracy case brought against him in the heat of the campaign has been fully ventilated and the political character of the proceedings is thoroughly understood by the people. The argument of Attorney Watson before the supreme court clearly demonstrated that there was nothing in the bills of indictment against Senator Quay, nor in the testimony, showing him to have violated any law. This has been made plain to all as how the fact that this prosecution was inspired and instituted for the purpose of influencing votes against Senator Quay's senatorial canvass. It is not my purpose or intention to quarrel with any one who is opposed to Senator Quay. That is his right and privilege. But I do say that I believe that way down in the hearts of nearly 500,000 Republicans of Pennsylvania, who voted for me for governor at the last election, there is a feeling of sympathy for Senator Quay in the present contest.

"He has been a brave soldier in the hour of his country's trials, he has been a gallant, able and victorious field marshal of the Republican party, not only in local and state campaigns, but in one of the greatest and most bitterly fought national contests ever waged in American politics. To him, more than any one else, as chairman of the Republican national committee, did we owe the election of General Benjamin Harrison to the presidency. As a member of the United States senate he has watchfully and zealously guarded the great industrial, manufacturing and commercial interests of our commonwealth. His influence was potential, not only in materially aiding in the passage of the McKinley bill, but, with the Democrats in control of congress, through his close relations with his colleagues on both sides of the house and his statesmanlike course on the floor of the senate, he saved Pennsylvania industries from ruin by the amendments he had inserted in the Wilson bill for their especial protection.

"There should be no occasion for concern among the friends of Senator Quay on account of the present deadlock on the senatorship. Public sentiment in his favor is making itself felt among the members of the legislature. If Senator Quay's supporters stand firm, as I am convinced they will, his re-election will certainly follow in due time."

"WILLIAM A. STONE."

E. A. Van Valkenburg, one of the managers of the anti-Quay campaign, issued a statement, in which he said the senatorial situation was no longer complicated or uncertain. Mr. Van Valkenburg claimed Senator Quay's strength was at high tide when he received 113 votes, which is just 14 short of a majority. Against him are 139 votes, 87 being Democrats and 52 anti-Quay Republicans.

"The Quay managers have abandoned all hope of securing a single vote from the anti-Quay ranks," he adds. "But while admitting that no Democrat will vote directly for Quay at any stage of the contest, they assert with an air of mystery rather than of confidence that at the proper time enough Democrats will be found to supply the necessary 14 votes that Senator Quay must have to elect him.

"The Quay machine is bankrupt in the matter of political patronage. All the attempts of the Quay people to create friction between the Democrats and the anti-Quayites have signally failed. Senator Quay amassed all his strength to break the anti Quayites last Wednesday and failed. He has given orders that every effort must be made to break them next Thursday, but he will again fail. Senator Quay may be able to prolong the deadlock, but re-elect himself United States senator from Pennsylvania, never."

The fourth joint ballot taken at high noon Saturday was a tame and entirely perfunctory affair. There were only six members more than a quorum pres-

ent, and the ballot resulted: Quay, 50; Jenks, 41; anti-Quay, divided among eight candidates, 37. There were 56 pairs and 7 absent without pairs, and Quay was 12 votes short of an election. The absentees were Senator John H. Brown, Westmoreland, Quay; Senator John F. Higgins, Schuylkill county, Democrat; Representative Samuel A. Kendall, Somerset, anti-Quay; Charles R. Knobbett, Philadelphia, Quay; Jeremiah Toledo, Lehigh, Democrat; Joseph W. Smith, Clinton, Democrat, and Michael J. Tighe, Luzerne, Democrat.

ONE ROBBER WOUNDED.

Thieves Tried to Rob the Postoffice at Cuyahoga Falls—Shots Were Exchanged.

AKRON, Jan. 23.—At Cuyahoga Falls Night Watchman Evans found three men at work on a safe in the postoffice rooms in the town hall. The recent fire caused the temporary removal of the postoffice.

Evans and the robbers both fired their revolvers and one robber was wounded, so that he had to be carried on a sled traced by blood on the snow. The safe belonged to the town and the robbers got but 75 cents. It is thought the burglars are the same gang that robbed the Napoleon postoffice.

To Form White Lime Combine.

TOLEDO, Jan. 23.—The leading white lime manufacturers of the United States are expected to meet in Toledo to form a combine for the betterment of trade conditions. A meeting was held in Fremont, O., last week, at which a committee was appointed to formulate a plan. This committee will likely report today. It is said the capitalization of the concern will be \$10,000,000. The manufacturers of this city deny that the combine is a trust, but say it is formed simply to raise prices, which have been demoralized for the past two years.

Big Zinc Combine.

TOLEDO, Jan. 23.—The American Zinc company, with a capital of \$5,000,000, was organized, with J. O. Rodgers of this city as the leading spirit. The plan has been under consideration for the past year, and Mr. Rodgers has, it is reported, finally interested ex-Governor Flower, Daniel O'Day and others of the Standard Oil company. All the leading zinc manufacturers are in the deal. The organization will be perfected this week.

Woman Committed Suicide.

TOLEDO, Jan. 23.—Mrs. S. J. McCollough, wife of a well-known man of this city, committed suicide and attempted to kill her family of three children. She was undoubtedly insane. Four of the children were taken violently ill, having eaten diseased meat. One child died and she attempted to give the living children carbolic acid.

An Attempted Lynching.

ZANESVILLE, Jan. 23.—A mob tried to lynch E. S. Wright, charged with assault on a young lady named Taylor at Bridgeville, Muskingum county. Wright was held for court and taken to jail.

BALLOTING TODAY.

West Virginia Legislators Expected to Commence Voting For Senatorial Candidates.

CHARLESTON, W. Va., Jan. 23.—Balloting for United States senator is expected to begin in the legislature today. As the Republicans have a majority of only one on joint ballot, and that one is in dispute, the present struggle has become a state edition of the Hayes-Tilden contest. The factional fighting was ended when John T. McGraw last Wednesday night received the Democratic caucus nomination, and on the following night N. B. Scott was made the Republican nominee. Both parties worked for partisan advantages on the settlement of contested seats.

The Republicans were fighting to hold their own and had a majority of one, since two of the Republicans had been unseated in the house. As the Democratic majority in the house threatened to unseat others, the Republican majority in the senate had pending three resolutions for contests in the upper branch.

A Bishop to Celebrate.

PITTSBURG, Jan. 23.—Bishop Cortlandt Whitehead will celebrate the seventeenth anniversary of his consecration next Wednesday. The observance of the anniversary will form a prominent feature of the assembling of the southern convocation of the diocese of Pittsburg, which opens tomorrow evening in the Church of the Epiphany, Bellevue, of which Rev. George Gunnell is pastor. The convocation is composed of about 35 ministers of the Episcopal church resident in Pittsburg and vicinity.

Canal Bill Passed.

WASHINGTON, Jan. 23.—The senate Saturday passed the Nicaragua canal bill, decided to make the anti-scalping bill the unfinished business and continued without the completion of the consideration of the Indian appropriation bill. A number of amendments were adopted to the Nicaragua canal bill. A roll call developed only six votes in opposition, they being those of Bate, Caffery, Cockrell, Mantle, Martin and Smith.

GERMANY FOR PEACE.

Not Likely to Be Belligerent Over Samoa.

EXCESSIVE DEMANDS IMPROBABLE

Company Formed to Build a Cable to the United States—Branch Telegraph Office to Be Established, Probably to Influence Opinion.

LONDON, Jan. 23.—The Berlin correspondent of The Times said:

"There are good reasons for believing that the German government regards the maintenance of cordial relations with Great Britain and the United States as far more important than even German commercial interests in Samoa. The tone of the leading journals, therefore, is, on the whole, free from bitterness or exaggeration.

"In a word there are many indications that Germany will not frustrate a revision of the treaty of Berlin by extravagant demands, such as for the cession of the islands to Germany. The Kolnische Zeitung ridicules the report that Dr. Von Holleben, German ambassador at Washington, has complained of Mr. Berry's remarks in the house of representatives, and says that the United States ambassador in Berlin, Mr. White, might as well have complained of Herr Ahlwardt's anti-American ravings in the reichstag."

The Berlin correspondent of The Daily News said:

"A joint stock company has been formed at Cologne with a capital of £500,000 to lay a cable from Germany to the United States. At the same time Wolff's Telegraph agency decided to establish a branch office in New York city. Evidently the 'yellow' press campaign against Germany, which has caused great embitterness on both sides, has induced the German government to favor this project, by which it is hoped to exercise a direct influence upon public opinion in the United States."

AMERICANS WILL PROTEST.

Some in Germany Were Aroused Over Utterances in Congress.

MUNICH, Jan. 23.—The Neueste Nachrichten, which raised a storm of indignation among the ultra-patriotic papers by hinting that German doings in the Philippines were largely responsible for the delicate relations between the United States and Germany, and that as the German foreign office knew nothing of them, it would be advisable to institute an investigation with a view of avoiding a recurrence of such mistakes, made the following comment:

"The Americans here have decided to send to the Washington government a protest against the anti-German expressions used in the house of representatives and a declaration that no animosity against America exists in Germany, where Americans always meet with the most friendly reception."

GREEKS HOMELESS.

Several Towns Destroyed by Earthquake. Houses at Some Other Places Damaged.

ATHENS, Jan. 23.—A strong seismic disturbance was felt throughout the Peloponnesus (the southern part of the kingdom of Greece), especially in the southwestern departments of the peninsula. All the houses in the town of Philatira, in the department of Messenia, on the Ionian coast, have been damaged, and the inhabitants are now camping out in the suburbs. Two villages in the vicinity of Philatira were completely destroyed, many people being slightly injured.

The villages Kyparissia and Staso were so practically destroyed, though it is not known as yet whether there were any victims there.

Much damage to property was done at Navarino. The authorities are doing all in their power to furnish tents and supplies.

AN ANTI-EXPANSION MEETING.

Speeches Were Made by Gompers, Cochran and Eustis—Regrets Sent.

NEW YORK, Jan. 23.—A mass meeting was held in the Academy of Music last night, in which resolutions were adopted and speeches made against expansion by Samuel Gompers, Bourke Cochran and ex-Embassador Eustis.

A list of vice presidents was read, including these names: Wheeler H. Peckham, Abraham S. Hewitt, Henry Loomis Nelson, William H. Hornblower, Roger A. Pryor, Francis Wayland Glen, John C. Sheehan and Frederic R. Couderc.

A number of vice presidents were announced as representing the Central Labor union.

Communications were read from ex-President Cleveland, Colonel William J. Bryan and Bishop Henry C. Potter, regretting their inability to be present.

Another Warship to Samoan.

WELLINGTON, New Zealand, Jan. 23.—The British third-class cruiser Royalist was dispatched to Samoa, following the Tauranga, which left on Friday.

LIVING ON AN ISLAND

The Lot of a Former Liverpool Boy In the Philippines

WITH THE TENTH PENNSYLVANIA

A Letter From the Far East Brings Information of the Movements of Troops and the Condition of Affairs—A Word About the Insurgents.

The following letter will be read with much interest since the writer, Fred Harsha, is well known to many persons here, having formerly resided in Robinson street:

CAMP JESSE NOSS, CORREGIDOR ISLAND, PHILIPPINES, Dec. 8.—I was a member of the Tenth Pennsylvania for three years, you know, and when the war broke out I enlisted for two years. Our regiment was sent half way around the globe to fight the Spanish. We landed at Manila July 13 and the 30th of the same month we saw our first battle. At that time we lost 14 killed and a great many wounded. August 13 we marched into the city of Manila where we were quartered until Dec. 1 when we were put on the transport Senator and taken to the small island Corregidor of which we now have charge.

It is about five miles long, two miles wide and 500 feet high and has a fine climate. The weather here is like our May days, and the nights are cool. Manila is on the island of Luzon and a miserable place. It is full of Chinamen and natives, the latter being a lazy lot. The Spanish live within the high wall which marks the city proper.

There are muzzle-loading cannons all around it, but they would have done little good against Dewey's fleet. I have been on board the Olympia and indeed she is a fine ship. Her crew think the Tenth is the only regiment here and gave us a splendid reception.

The Philippines is no place for an American, but I suppose a great many will rush here to invest their money. They should wait until the place has become settled. It is far different from any part of the United States.

The island we are on was a naval station, and two companies, A and B, 200 men, are here to guard a hospital, although there is not much sickness. We have a fine camp, and it was named after Jesse Noss, the first Beaver county boy to fall at Marlate July 30. We are very nicely fixed, two being placed in a wall tent 10 feet square and eight feet high. The camp is along the beach in a little valley where we can hear the waves continually lashing against the rocks. Game is abundant, and they say there are very big snakes, some 20 feet long, in the mountains. From this island the Spanish fired the first shot at Dewey, but a shell from the Boston quickly wrecked the three gun battery. It is located just below our camp. Then the garrison escaped to Cavite only to be captured later. The bay presented a peculiar appearance when we entered, almost all the vessels of the Spanish squadron being on the bottom.

If anyone tells you a Spanish soldier won't fight don't believe him for he is badly mistaken. It may be you belong to the Eighth Ohio, and if you do you know they will fight. Captain Harry Palmer, of East Liverpool, was our color sergeant and saw the whole of our fight here. He knows it is true. The insurgents are just a pack of robbers and cannot fight anything. They usually keep out of our way. There are only 30 of them on the island and they have but one gun. It will not shoot, but if we stay here long we will have it.

Amigo,
FRED HARSHA,
Company B, Tenth Pennsylvania Volunteers, Manila, P. I.

IF POSSIBLE
The Salem Pottery Will Stay Out of the Trust.

The Salem Herald of Saturday has the following:

"The Salem China company ordered 1,000,000 brick from a Leetonia firm yesterday and the brick will commence arriving Monday. They will receive about 10 carloads a day. The Lisbon fire brick company will send the first shipment. Wm. Smith, manager of the pottery, stated to a reporter that the company would not go into the trust if they could possibly avoid it."

Look After the Squirrel.
EDITOR NEWS REVIEW—The attention of the humane authorities is directed toward ameliorating the pitiful condition of a squirrel kept in durance truly vile in West Market street.

HUMANE.

Gun Cotton.

We had come into the storeroom for torpedoes at the Brooklyn navy yard and the talk turned to high explosives. "We have to keep a sharp watch on the gun cotton," said one of the gunners who were with me, "to see that it does not get dry and does not get too acid. There is never a day goes by on a battleship but careful inspection is made of the stores of gun cotton. Dip in a piece of litmus paper and see if it comes out blue. If it does, all is well, but beware if it comes out red. That means acid, and acid means danger."

"What do you do when it comes out red?" I asked.

"Neutralize the acid. You see, gun cotton deteriorates a lot in an acid solution."

"Do you always keep the gun cotton wet?"

"Always. That's one of the first principles. When it's wet, it's safe; when it's dry, it isn't. Let it have all the water it will soak up, which is about 30 per cent."

"Suppose you were to touch off some gun cotton here on the ground, what would happen?"

"Nothing at all if it wasn't confined. You might burn a ton of it like cordwood in a bonfire. But pack it in a tin box, even a flimsy one, and you'll have fun. And, of course, the stronger the box the more fun you'll have."—Boston Globe.

Underground Paris.

The Paris of the pavement, gay, bright and exhilarating, is fairly familiar to us all, but underground Paris, dark, solitary and damp, extending for miles, is comparatively unknown. A part of this area is devoted to the catacombs—a valley of dry bones, a garden of the dead; the rest a garden still more vast, provides for the wants, or rather the luxuries, of the living—it is devoted to mushroom culture. These subterranean gardens extend for some 20 miles under the gay capital and are from 20 feet to 160 feet beneath the surface.

It is very difficult to obtain permission to visit them, and even when permission is obtained it requires some courage to avail oneself of it, for the only entrance is a circular opening like the mouth of a well, out of which a long pole stands. Through this pole, fastened at the top only, at fairly long intervals, sticks are thrust. This primitive ladder, the base of which swings like a pendulum in the impenetrable darkness below, is the only means of reaching the caves. "Here," again cried our guide, with a burst of cheerfulness, "see this door! On the other side are the catacombs—as full of bones as this place is of mushrooms." We smiled. We were not afraid of bones with an iron door between them and us.—Strand Magazine.

When Rosette Died.

Horace Walpole is a great lover of dogs too. Patapan, Tonton and Rosette (the last the legacy of Mme. du Defand) are certainly the most spoiled of the species, and run all over Strawberry after their master, to the detriment, one would have thought, of the prim gardens and the vertu.

When Rosette dies presently, Horace sends the most touching epitaph on a dog ever written, perhaps, to my Lord Nuneham. "It has no merit," he says, "for it is an imitation, but it comes from the heart if ever epitaph did, and therefore your dogmanity will not dislike it."

Sweetest of the year
Strew around my Rose's bier.
Calmly may the dust repose
Of my faithful, pretty Rose.

The opening lines at least have the oddest likeness to the popular conception of Horace Walpole, if they have some affinity with the man who is the friend and playfellow of little children and can't find it in his heart to turn off an old servant or to give up an old ally.—Longman's Magazine.

How to Dissect a Mosquito.

A needle held in the left hand is passed through the thorax, the legs and wings are pulled off, and, if necessary, the scales of the body brushed off with a camel's hair brush. The tail is then lowered into a drop of water, salt solution or weak formalin placed on a glass slide, and with another needle held in the right hand the last two segments of the tail are partially separated and held down upon the slide. The left hand is then moved in such a manner as to draw away the insect.—Major Ross, I. M. S., in Indian Medical Gazette.

Greatness Thrust Upon Him.

Teacher—Now, then, boy No. 1, who wrote "Macbeth?"

Boy No. 1 (trembling violently)—Please, sir, I didn't.

Teacher—I know you didn't, but who did?

Boy No. 1 (with a spasm of virtue)—Please, sir, I don't want to be a telltale, but it wuz Bob Buster, over in de corner seat. I seen him a doin of it.—Illustrated Record.

NEW BIG POWER HOUSE.

Vast Plant Designed For a New York Railroad Company.

WILL BE THE LARGEST KNOWN.

Its Engines Will Be the Most Powerful Ever Grouped in a Single Station on Land and Over Twice as Powerful as Those of the Largest Ocean Liner—Some Features of the Plant.

The general designs for the new power house for the Third Avenue Railroad company of New York have recently been made public. The power house will be the largest structure of its kind in the world and within its walls will be generated a greater amount of power than has ever been produced before at any single station. The most enormous engines that man uses for single purposes are those which drive the ocean greyhounds that ply between New York and Europe. Of these the biggest develop about 30,000 horsepower.

Within the walls of the new Third avenue power house there will be massed engines and boilers capable of producing more than three times as much power as this and clustered about them all the needed devices for sending that power out over many miles of tracks to propel street cars. From this one center cars will be propelled from the postoffice to the Harlem on Third avenue, from the East river to the Hudson and over the miles of ramifications of the routes of the Forty-second street, Manhattanville and Amsterdam avenue line, for miles over the tracks of the One Hundred and Twenty-fifth street and Tenth avenue route to Fort George and again above that to the city line at Yonkers over the new routes to be built and finally over the vast Huckleberry line above the Harlem and the many extensions which are likely soon to be made in connection with these various systems now controlled by the company.

The Third avenue plant will have a number of features, involving economy of operation, that are superior to any in the world. The designing of the house has been done by Westinghouse, Church, Kerr & Co., engineers for the Westinghouse Electric and Manufacturing company, which has the contract to supply the whole electric and power plant. The location of the plant and many other important matters were determined by President Elias and Superintendent J. H. Robertson of the Third avenue road, while the designing and construction of the system for distributing the electrical power are intrusted to Dr. Louis Duncan, who has been appointed chief engineer of the road. The power house will stand on the west side of the Harlem river, accessible by water from either way, and it will cover the two blocks between Two Hundred and Sixteenth and Two Hundred and Eighteenth streets. It will be 320 feet long and 250 feet wide. Within it will be divided lengthwise into two portions, each of about the same shape and area, one to be used for boilers and the other for engines and generators, and these two portions will be marked in the outer design of the building.

The half nearer the river, measuring about 320 by 125 feet, will form the boiler house, having above the boilers a great 10,000 ton coal bin. This portion of the building will be about 100 feet tall. At each corner will be a low, square tower, while above the whole will tower four steel stacks, each another hundred feet high. The other half of the building will be about half as tall, with its roof taking the form of its round arched steel girders, while for architectural effect the higher portion, although roofed in the same way structurally, will be built up to a square contour. The site of the structure is of alluvial sand, and over the whole area of nearly two acres a foundation of piles and concrete must be laid. The superstructure will be of steel frame, with walls of stone, brick and terra cotta, and much skill has been employed to design it in such a way that it shall not be a public eyesore.

The economies of design begin at the water side, where wharfage facilities for receiving coal are to be provided. Coal will arrive in barges or schooners, and by means of mechanical hoists and conveyers it is expected to put it into the bin at the boiler house at a cost so small that it will be just about equal to the money saved on demurrage of vessels. Few persons realize the enormous amount of coal which such a plant will consume. Under the best practice, where the loads on engines are constant, it takes 1½ pounds of coal for each horsepower an hour. If the station were run at its full capacity 24 hours a day, the daily consumption would be about 1,800 tons.

It is estimated, however, that the loads will require an average of about 340,000 horsepower, and this at two pounds of coal an hour will require nearly 1,000 tons of coal a day. Once in the bin at the top of the boiler house the coal is never moved again except by gravity. It flows down shoots to pockets at the front of each boiler, and from these pockets it is thrust into the furnaces by strong hands of iron and then moved forward from grate bar to

grate bar of the furnace by mechanical stokers until finally at the end the ashes and clinkers are dropped through a trapdoor and sent through other shoots on their way to waiting boats, which carry them off.

There are 60 boilers, each rated at 520 horsepower, and these are arranged in double rows two tiers high. There are two furnaces to a boiler, and if the boilers were cared for in the old way it would require one man to stoke each boiler. Working 24 hours a day and allowing for a number of boilers being out of use part of the time, about 120 firemen would be required to feed them.

With mechanical stokers 40 men will accomplish the same work and hardly have to soil a hand. There is another big saving possible with the mechanical stokers which, it is probable, will be taken advantage of. This is the use of some of the cheaper and softer coals, which, because of the better combustion produced by evenly handled fires, may be burned without giving off smoke. In contemplation of this perhaps powerful pumps and hose are provided in the plans, arranged for flooding the 10,000 ton coal bin with water in case the coal takes fire. Hard coal is not much subject to such risk.

Down in the generator room, under its arched roof, will stand 16 of the largest electric generators made. Each will be rated at 3,000 kilowatts, or 4,000 horsepower, and each will be capable of carrying a load 50 per cent larger than that. Directly connected with each generator and standing vertically above it will be its steam engine, each engine rated at 6,000 horsepower. In the center of the room, high up, where every machine can be watched, will be the engineer's room, while straddling over the whole room will be a traveling crane, which can pick up any piece of machinery in the place and carry it to any other spot in the whole compartment. Along one side of this room, in a gallery above the machinery, will be the switchboard, where all the power currents from the dynamos will be carried and from there sent forth to the various distributing stations. The currents to be used will be alternating and of high voltage. The details are not made public, but it is said that a current of about 10,000 volts will be used.

At convenient points along the lines substations will be established where the currents will be transformed from high voltage alternating to direct currents of 500 volts to be fed to the lines. The multiplicity of lines and wires, switches and indicating instruments which will run to these stations will be appreciated when it is remembered that a separate feeder wire is to be supplied to every 1,000 feet or so in the parts of the city where the traffic is the heaviest, such as from Sixth street to the post office on the Third avenue line. These details are yet to be worked out.

The new power house will cost about \$500,000, and the machinery which it will contain and the 30 rotary converters at substations will cost \$5,000,000. As the present cable lines of the Third avenue road will be converted to under trolley lines before the big power house is completed, some of the converters, which are in effect dynamos, will be connected with the machinery of the cable power house to run the lines until the main source of supply is ready.—New York Sun.

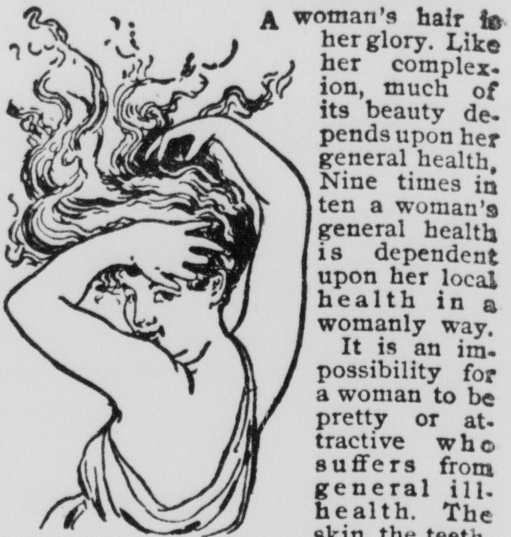

DEATH OF NOTED FOX.

For Years He Had Been a Faithful Stand By of Eager Hunters.

George Washington, the hoary and sporty old fox that has lived in the South Valley hills at Valley Forge, Pa., for so many years and has figured in a score or more hunts, met with a tragic end recently by being torn to pieces by a pack of hounds.

About a dozen members of the Perkiomen, Port Kennedy, Washington and Black Rock hunts, with a pack of 20 hounds, turned out the other morning for a hunt. After beating around the valley hills for an hour the hounds succeeded in "jumping" old George Washington, and a lively chase followed. Foxy did some pretty lively running among the hills for half an hour, and then made a break across the open country toward New Centerville, with the hounds in close pursuit. From Cedar Hollow the fox made a good run through Charlestown township and then headed for Valley Forge, with the hounds very close to his heels. Finding that he was likely to be picked up in the open stretch of country that lay before him he popped into a groundhog hole when about half way back, and none too soon, for the hounds were close on him. The hunters got picks and shovels, and as the hole proved shallow they uncovered him after an hour's digging.

The fox was muzzled, and Earl Davis of the Black Rock hunt seated him on the pommel of his saddle and started off for Valley Forge surrounded by the pack. He had not proceeded far, however, when the old fox made a wild leap and went bounding among the hounds. He had scarcely touched the ground before a dozen of the dogs were on him, and before Mr. Davis could alight from his horse the old fox had been nearly torn to pieces. The hounds were driven away, and when the hunters came up and saw what had happened they almost cried, for they would rather have lost a horse or cow than lost old George. Mr. Davis secured the brush. Old George was a great runner and had figured in many big hunts. He was fre-

the eyes, the hair and the carriage will tell the story when a woman is ailing. It is impossible for a woman to be in good general health when some local trouble is continually nagging at her nerves and disarranging the natural functions of every organ of the body. Dr. Pierce's Favorite Prescription is the best of all medicines for women who suffer from local weakness and disease peculiar to their sex. It acts directly on the delicate and important organs concerned. It makes them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain, tones and builds up the nerves and banishes the usual discomforts of the expectant months. It makes baby's advent easy and almost painless. It enables every organ of the body to perform its natural functions without unnatural interference from a pain-tortured nervous system. It corrects all irregularities. A woman who is made well in this way will recover her natural beauty of form and feature and her natural amiability of character and temper. Thousands of women have testified to its merits. An honest dealer will not urge a substitute for a little extra profit.

Mrs. Rachel Clark, of Houlton, St. Croix Co., Wis., writes: "I am in good health since I have taken Dr. Pierce's Favorite Prescription. I gave birth to a 12½ pound boy last June. He is six months old now and weighs 30 pounds."

How to preserve health and beauty are told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send 21 one-cent stamps, to cover mailing only; cloth binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

READ, MARK, LEARN.

Some Pertinent Questions That Can Be Answered With One Reply.

Why is it that in East Liverpool and its suburbs with a combined population of 1,400 there is only one medical preparation which gives statements from residents to back up its representations?

Why is it that Doan's Kidney Pills do this in East Liverpool as in every other town and city of any importance in the Union?

Why is it that there are advertised in every newspaper a dozen remedies and only one can supply local proof, local endorsement of its claims?

The solution of the problem is simple. Only one remedy has the curing and staying power. Other remedies make all kinds of gigantic yet futile efforts to get local proof but the attempt ends in producing a statement or two from places that as far as East Liverpool is concerned might just as well live in the moon.

Here is East Liverpool proof which backs up the merits.

Mrs. William James who lives at 283 Third street, says: "I was troubled off and on for eight years with a weakness of the back and kidneys, a dull aching pain across my loins, up under my shoulder blades and rheumatic pains in my right shoulder. I was very susceptible to changes in the weather and was so bad at times that I could scarcely stand and support my own weight. The trouble affected my nervous system, causing a frequent fluttering of the heart and shortness of breath. I generally resorted to porous plasters, but the relief was only temporary. I got Doan's Kidney Pills at the W. & W. pharmacy and obtained instant relief. The symptoms all left, and there was nothing wrong with my kidneys after the treatment."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no other.

MADE ME A MAN

ALL NERVOUS DISEASES—curing Memory, Impotency, Sleeplessness, etc., caused by Abuse or other Excesses and Indiscretions. The quick and sure cure restores Lost Vitality in old or young, and fits a man for study, business or marriage. It cures the Present Insanity and Consumption if taken in time. Their use shows immediate improvement and effects a CURE where all other fail. Insist upon having the genuine Ajax Tablets. They have cured thousands and will cure you. We give a positive written guarantee to effect a cure. 50 CENTS per package; or six packages (full treatment) for \$2.50. By Mail, in plain wrapper, upon receipt of price (enclose 10-cent stamp). **AJAX REMEDY CO.,** 70 Dearborn St., Chicago, Ill.

For sale in East Liverpool, Ohio, by John J. Hodson and the W. & W. Pharmacy.

quently captured and kept for big drop hunts, and while he often made narrow escapes he always managed to save himself by some trick or good stroke of luck. All regret that he was fated to meet such an unsportsmanlike end.—Philadelphia Times.

One Among Ten Millions.

An old woman stopped a retired business man of Ebensburg, Ala., a few days ago on the street and handed him \$2.50, which she said she owed him. The man protested he knew nothing about it, but the old woman insisted that it was correct, and he took the money. He afterward hunted up his books and found it was for a pair of shoes sold over 40 years ago, when the woman was a girl living at Ebensburg.—Selma (Ala.) Times.

A Delicate Distinction.

"How much does your position pay?" asked the rural relative. "I don't know as I could figure it up offhand," answered Senator Sorghum. "You surely know your own salary?" "Yes, but that isn't what you asked me."—Washington Star

LIVING ON AN ISLAND

The Lot of a Former Liverpool Boy In the Philippines

WITH THE TENTH PENNSYLVANIA

A Letter From the Far East Brings Information of the Movements of Troops and the Condition of Affairs—A Word About the Insurgents.

The following letter will be read with much interest since the writer, Fred Harsha, is well known to many persons here, having formerly resided in Robinson street:

CAMP JESSE NOSS, CORREGIDOR ISLAND, PHILIPPINES, Dec. 8.—I was a member of the Tenth Pennsylvania for three years, you know, and when the war broke out I enlisted for two years. Our regiment was sent half way around the globe to fight the Spanish. We landed at Manila July 13 and the 30th of the same month we saw our first battle. At that time we lost 14 killed and a great many wounded. August 13 we marched into the city of Manila where we were quartered until Dec. 1 when we were put on the transport Senator and taken to the small island Corregidor of which we now have charge.

It is about five miles long, two miles wide and 500 feet high and has a fine climate. The weather here is like our May days, and the nights are cool. Manila is on the island of Luzon and a miserable place. It is full of Chinamen and natives, the latter being a lazy lot. The Spanish live within the high wall which marks the city proper.

There are muzzle-loading cannons all around it, but they would have done little good against Dewey's fleet. I have been on board the Olympia and indeed she is a fine ship. Her crew think the Tenth is the only regiment here and gave us a splendid reception.

The Philippines is no place for an American, but I suppose a great many will rush here to invest their money. They should wait until the place has become settled. It is far different from any part of the United States.

The island we are on was a naval station, and two companies, A and B, 200 men, are here to guard a hospital, although there is not much sickness. We have a fine camp, and it was named after Jesse Noss, the first Beaver county boy to fall at Marlate July 30. We are very nicely fixed, two being placed in a wall tent 10 feet square and eight feet high. The camp is along the beach in a little valley where we can hear the waves continually lashing against the rocks. Game is abundant, and they say there are very big snakes, some 20 feet long, in the mountains. From this island the Spanish fired the first shot at Dewey, but a shell from the Boston quickly wrecked the three gun battery. It is located just below our camp. Then the garrison escaped to Cavite only to be captured later. The bay presented a peculiar appearance when we entered, almost all the vessels of the Spanish squadron being on the bottom.

If anyone tells you a Spanish soldier won't fight don't believe him for he is badly mistaken. It may be you belong to the Eighth Ohio, and if you do you know they will fight. Captain Harry Palmer, of East Liverpool, was our color sergeant and saw the whole of our fight here. He knows it is true. The insurgents are just a pack of robbers and cannot fight anything. They usually keep out of our way. There are only 30 of them on the island and they have but one gun. It will not shoot, but if we stay here long we will have it.

Amigo,
FRED HARSHA,
Company B, Tenth Pennsylvania Volunteers, Manila, P. I.

IF POSSIBLE

The Salem Pottery Will Stay Out of the Trust.

The Salem Herald of Saturday has the following:

"The Salem China company ordered 1,000,000 brick from a Leetonia firm yesterday and the brick will commence arriving Monday. They will receive about 10 carloads a day. The Lisbon fire brick company will send the first shipment. Wm. Smith, manager of the pottery, stated to a reporter that the company would not go into the trust if they could possibly avoid it."

Look After the Squirrel.

EDITOR NEWS REVIEW.—The attention of the humane authorities is directed toward ameliorating the pitiful condition of a squirrel kept in durance truly vile in West Market street.

HUMANE.

Gun Cotton.

We had come into the storeroom for torpedoes at the Brooklyn navy yard and the talk turned to high explosives.

"We have to keep a sharp watch on the gun cotton," said one of the gunners who were with me, "to see that it does not get dry and does not get too acid. There is never a day goes by on a battleship but careful inspection is made of the stores of gun cotton. Dip in a piece of litmus paper and see if it comes out blue. If it does, all is well, but beware if it comes out red. That means acid, and acid means danger."

"What do you do when it comes out red?" I asked.

"Neutralize the acid. You see, gun cotton deteriorates a lot in an acid solution."

"Do you always keep the gun cotton wet?"

"Always. That's one of the first principles. When it's wet, it's safe; when it's dry, it isn't. Let it have all the water it will soak up, which is about 30 per cent."

"Suppose you were to touch off some gun cotton here on the ground, what would happen?"

"Nothing at all if it wasn't confined. You might burn a ton of it like cordwood in a bonfire. But pack it in a tin box, even a flimsy one, and you'll have fun. And, of course, the stronger the box the more fun you'll have."—Boston Globe.

Underground Paris.

The Paris of the pavement, gay, bright and exhilarating, is fairly familiar to us all, but underground Paris, dark, solitary and damp, extending for miles, is comparatively unknown. A part of this area is devoted to the catacombs—a valley of dry bones, a garden of the dead; the rest a garden still more vast, provides for the wants, or rather the luxuries, of the living—it is devoted to mushroom culture. These subterranean gardens extend for some 20 miles under the gay capital and are from 20 feet to 160 feet beneath the surface.

It is very difficult to obtain permission to visit them, and even when permission is obtained it requires some courage to avail oneself of it, for the only entrance is a circular opening like the mouth of a well, out of which a long pole stands. Through this pole, fastened at the top only, at fairly long intervals, sticks are thrust. This primitive ladder, the base of which swings like a pendulum in the impenetrable darkness below, is the only means of reaching the caves. "Here," again cried our guide, with a burst of cheerfulness, "see this door! On the other side are the catacombs—as full of bones as this place is of mushrooms." We smiled. We were not afraid of bones with an iron door between them and us.—Strand Magazine.

NEW BIG POWER HOUSE.

Vast Plant Designed For a New York Railroad Company.

WILL BE THE LARGEST KNOWN.

Its Engines Will Be the Most Powerful Ever Grouped in a Single Station on Land and Over Twice as Powerful as Those of the Largest Ocean Liner—Some Features of the Plant.

The general designs for the new power house for the Third Avenue Railroad company of New York have recently been made public. The power house will be the largest structure of its kind in the world and within its walls will be generated a greater amount of power than has ever been produced before at any single station. The most enormous engines that man uses for single purposes are those which drive the ocean greyhounds that ply between New York and Europe. Of these the biggest develop about 30,000 horsepower.

Within the walls of the new Third avenue power house there will be massed engines and boilers capable of producing more than three times as much power as this and clustered about them all the needed devices for sending that power out over many miles of tracks to propel street cars. From this one center cars will be propelled from the postoffice to the Harlem on Third avenue, from the East river to the Hudson and over the miles of ramifications of the routes of the Forty-second street, Manhattanville and Amsterdam avenue line, for miles over the tracks of the One Hundred and Twenty-fifth street and Tenth avenue route to Fort George and again above that to the city line at Yonkers over the new routes to be built and finally over the vast Huckleberry line above the Harlem and the many extensions which are likely soon to be made in connection with these various systems now controlled by the company.

The Third avenue plant will have a number of features, involving economy of operation, that are superior to any in the world. The designing of the house has been done by Westinghouse, Church, Kerr & Co., engineers for the Westinghouse Electric and Manufacturing company, which has the contract to supply the whole electric and power plant. The location of the plant and many other important matters were determined by President Elias and Superintendent J. H. Robertson of the Third avenue road, while the designing and construction of the system for distributing the electrical power are intrusted to Dr. Louis Duncan, who has been appointed chief engineer of the road. The power house will stand on the west side of the Harlem river, accessible by water from either way, and it will cover the two blocks between Two Hundred and Sixteenth and Two Hundred and Eighteenth streets. It will be 320 feet long and 250 feet wide. Within it will be divided lengthwise into two portions, each of about the same shape and area, one to be used for boilers and the other for engines and generators, and these two portions will be marked in the outer design of the building.

The half nearer the river, measuring about 320 by 125 feet, will form the boiler house, having above the boilers a great 10,000 ton coal bin. This portion of the building will be about 100 feet tall. At each corner will be a low, square tower, while above the whole will tower four steel stacks, each another hundred feet high. The other half of the building will be about half as tall, with its roof taking the form of its round arched steel girders, while for architectural effect the higher portion, although roofed in the same way structurally, will be built up to a square contour. The site of the structure is of alluvial sand, and over the whole area of nearly two acres a foundation of piles and concrete must be laid. The superstructure will be of steel frame, with walls of stone, brick and terra cotta, and much skill has been employed to design it in such a way that it shall not be a public eyesore.

The economies of design begin at the water side, where wharfage facilities for receiving coal are to be provided. Coal will arrive in barges or schooners, and by means of mechanical hoists and conveyers it is expected to put it into the bin at the boiler house at a cost so small that it will be just about equal to the money saved on demurrage of vessels. Few persons realize the enormous amount of coal which such a plant will consume. Under the best practice, where the loads on engines are constant, it takes 1½ pounds of coal for each horsepower an hour. If the station were run at its full capacity 24 hours a day, the daily consumption would be about 1,800 tons.

It is estimated, however, that the loads will require an average of about 340,000 horsepower, and this at two pounds of coal an hour will require nearly 1,000 tons of coal a day. Once in the bin at the top of the boiler house the coal is never moved again except by gravity. It flows down shoots to pockets at the front of each boiler, and from these pockets it is thrust into the furnaces by strong hands of iron and then moved forward from grate bar to

grate bar of the furnace by mechanical stokers until finally at the end the ashes and clinkers are dropped through a trapdoor and sent through other shoots on their way to waiting boats, which carry them off.

There are 60 boilers, each rated at 520 horsepower, and these are arranged in double rows two tiers high. There are two furnaces to a boiler, and if the boilers were cared for in the old way it would require one man to stoke each boiler. Working 24 hours a day and allowing for a number of boilers being out of use part of the time, about 120 firemen would be required to feed them. With mechanical stokers 40 men will accomplish the same work and hardly have to soil a hand. There is another big saving possible with the mechanical stokers which, it is probable, will be taken advantage of. This is the use of some of the cheaper and softer coals, which, because of the better combustion produced by evenly handled fires, may be burned without giving off smoke. In contemplation of this perhaps powerful pumps and hose are provided in the plans, arranged for flooding the 10,000 ton coal bin with water in case the coal takes fire. Hard coal is not much subject to such risk.

Down in the generator room, under its arched roof, will stand 16 of the largest electric generators made. Each will be rated at 3,000 kilowatts, or 4,000 horsepower, and each will be capable of carrying a load 50 per cent larger than that. Directly connected with each generator and standing vertically above it will be its steam engine, each engine rated at 6,000 horsepower. In the center of the room, high up, where every machine can be watched, will be the engineer's room, while straddling over the whole room will be a traveling crane, which can pick up any piece of machinery in the place and carry it to any other spot in the whole compartment. Along one side of this room, in a gallery above the machinery, will be the switchboard, where all the power currents from the dynamos will be carried and from there sent forth to the various distributing stations. The currents to be used will be alternating and of high voltage. The details are not made public, but it is said that a current of about 10,000 volts will be used.

At convenient points along the lines substations will be established where the currents will be transformed from high voltage alternating to direct currents of 500 volts to be fed to the lines. The multiplicity of lines and wires, switches and indicating instruments which will run to these stations will be appreciated when it is remembered that a separate feeder wire is to be supplied to every 1,000 feet or so in the parts of the city where the traffic is the heaviest, such as from Sixth street to the post-office on the Third avenue line. These details are yet to be worked out.

The new power house will cost about \$500,000, and the machinery which it will contain and the 30 rotary converters at substations will cost \$5,000,000. As the present cable lines of the Third avenue road will be converted to under trolley lines before the big power house is completed, some of the converters, which are in effect dynamos, will be connected with the machinery of the cable power house to run the lines until the main source of supply is ready.—New York Sun.

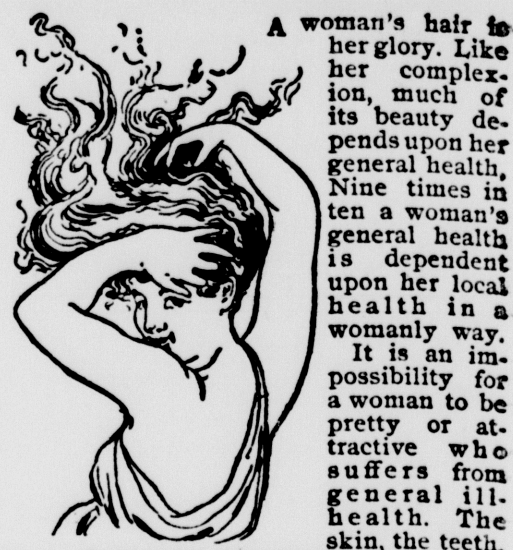

DEATH OF NOTED FOX.

For Years He Had Been a Faithful Stand By of Eager Hunters.

George Washington, the hoary and sporty old fox that has lived in the South Valley hills at Valley Forge, Pa., for so many years and has figured in a score or more hunts, met with a tragic end recently by being torn to pieces by a pack of hounds.

About a dozen members of the Perkiomen, Port Kennedy, Washington and Black Rock hunts, with a pack of 20 hounds, turned out the other morning for a hunt. After beating around the valley hills for an hour the hounds succeeded in "jumping" old George Washington, and a lively chase followed. Foxy did some pretty lively running among the hills for half an hour, and then made a break across the open country toward New Centerville, with the hounds in close pursuit. From Cedar Hollow the fox made a good run through Charlestown township and then headed for Valley Forge, with the hounds very close to his heels. Finding that he was likely to be picked up in the open stretch of country that lay before him, he popped into a groundhog hole when about half way back, and none too soon, for the hounds were close on him. The hunters got picks and shovels, and as the hole proved shallow they uncovered him after an hour's digging.

The fox was muzzled, and Earl Davis of the Black Rock hunt seated him on the pommel of his saddle and started off for Valley Forge surrounded by the pack. He had not proceeded far, however, when the old fox made a wild leap and went bounding among the hounds. He had scarcely touched the ground before a dozen of the dogs were on him, and before Mr. Davis could alight from his horse the old fox had been nearly torn to pieces. The hounds were driven away, and when the hunters came up and saw what had happened they almost cried, for they would rather have lost a horse or cow than lost old George. Mr. Davis secured the brush. Old George was a great runner and had figured in many big hunts. He was fre-

A woman's hair to her glory. Like her complexion, much of its beauty depends upon her general health. Nine times in ten a woman's general health is dependent upon her local health in a womanly way. It is an impossibility for a woman to be pretty or attractive who suffers from general ill-health. The skin, the teeth, the eyes, the hair and the carriage will tell the story when a woman is ailing. It is impossible for a woman to be in good general health when some local trouble is continually nagging at her nerves and disarranging the natural functions of every organ of the body. Dr. Pierce's Favorite Prescription is the best of all medicines for women who suffer from local weakness and disease peculiar to their sex. It acts directly on the delicate and important organs concerned. It makes them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain, tones and builds up the nerves and banishes the usual discomforts of the expectant months. It makes baby's advent easy and almost painless. It enables every organ of the body to perform its natural functions without unnatural interference from a pain-tortured nervous system. It corrects all irregularities. A woman who is made well in this way will recover her natural beauty of form and feature and her natural amiability of character and temper. Thousands of women have testified to its merits. An honest dealer will not urge a substitute for a little extra profit.

Mrs. Rachel Clark, of Houlton, St. Croix Co., Wis., writes: "I am in good health since I have taken Dr. Pierce's Favorite Prescription. I gave birth to a 12½ pound boy last June. He is six months old now and weighs 30 pounds."

How to preserve health and beauty are told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send 21 one-cent stamps, to cover mailing only; cloth binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Some Pertinent Questions That Can Be Answered With One Reply.

Why is it that in East Liverpool and its suburbs with a combined population of 1,400 there is only one medical preparation which gives statements from residents to back up its representations? Why is it that Doan's Kidney Pills do this in East Liverpool as in every other town and city of any importance in the Union?

Why is it that there are advertised in every newspaper a dozen remedies and only one can supply local proof, local endorsement of its claims?

The solution of the problem is simple. Only one remedy has the curing and staying power. Other remedies make all kinds of gigantic yet futile efforts to get local proof but the attempt ends in producing a statement or two from places that as far as East Liverpool is concerned might just as well live in the moon.

Here is East Liverpool proof which backs up the merits.

Mrs. William James who lives at 283 Third street, says: "I was troubled off and on for eight years with a weakness of the back and kidneys, a dull aching pain across my loins, up under my shoulder blades and rheumatic pains in my right shoulder. I was very susceptible to changes in the weather and was so bad at times that I could scarcely stand and support my own weight. The trouble affected my nervous system, causing a frequent fluttering of the heart and shortness of breath. I generally resorted to porous plasters, but the relief was only temporary. I got Doan's Kidney Pills at the W. & W. pharmacy and obtained instant relief. The symptoms all left, and there was nothing wrong with my kidneys after the treatment."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no other.

quently captured and kept for big drop hunts, and while he often made narrow escapes he always managed to save himself by some trick or good stroke of luck. All regret that he was fated to meet such an unsportsmanlike end.—Philadelphia Times.

One Among Ten Millions.

An old woman stopped a retired business man of Ebensburg, Ala., a few days ago on the street and handed him \$2.50, which she said she owed him. The man protested he knew nothing about it, but the old woman insisted that it was correct, and he took the money. He afterward hunted up his books and found it was for a pair of shoes sold over 40 years ago, when the woman was a girl living at Ebensburg.—Selma (Ala.) Times.

A Delicate Distinction.

"How much does your position pay?" asked the rural relative.

"I don't know as I could figure it up offhand," answered Senator Sorghum.

"You surely know your own salary?"

"Yes, but that isn't what you asked me."—Washington Star

LIVING ON AN ISLAND

The Lot of a Former Liverpool Boy In the Philippines

WITH THE TENTH PENNSYLVANIA

A Letter From the Far East Brings Information of the Movements of Troops and the Condition of Affairs—A Word About the Insurgents.

The following letter will be read with much interest since the writer, Fred Harsha, is well known to many persons here, having formerly resided in Robinson street:

CAMP JESSE NOSS, CORREGIDOR ISLAND, PHILIPPINES, Dec. 8.—I was a member of the Tenth Pennsylvania for three years, you know, and when the war broke out I enlisted for two years. Our regiment was sent half way around the globe to fight the Spanish. We landed at Manila July 13 and the 30th of the same month we saw our first battle. At that time we lost 14 killed and a great many wounded. August 13 we marched into the city of Manila where we were quartered until Dec. 1 when we were put on the transport Senator and taken to the small island Corregidor of which we now have charge.

It is about five miles long, two miles wide and 500 feet high and has a fine climate. The weather here is like our May days, and the nights are cool. Manila is on the island of Luzon and a miserable place. It is full of Chinamen and natives, the latter being a lazy lot. The Spanish live within the high wall which marks the city proper.

There are muzzle-loading cannons all around it, but they would have done little good against Dewey's fleet. I have been on board the Olympia and indeed she is a fine ship. Her crew think the Tenth is the only regiment here and gave us a splendid reception.

The Philippines is no place for an American, but I suppose a great many will rush here to invest their money. They should wait until the place has become settled. It is far different from any part of the United States.

The island we are on was a naval station, and two companies, A and B, 200 men, are here to guard a hospital, although there is not much sickness. We have a fine camp, and it was named after Jesse Noss, the first Beaver county boy to fall at Marlate July 30. We are very nicely fixed, two being placed in a wall tent 10 feet square and eight feet high. The camp is along the beach in a little valley where we can hear the waves continually lashing against the rocks. Game is abundant, and they say there are very big snakes, some 20 feet long, in the mountains. From this island the Spanish fired the first shot at Dewey, but a shell from the Boston quickly wrecked the three gun battery. It is located just below our camp. Then the garrison escaped to Cavite only to be captured later. The bay presented a peculiar appearance when we entered, almost all the vessels of the Spanish squadron being on the bottom.

If anyone tells you a Spanish soldier won't fight don't believe him for he is badly mistaken. It may be you belong to the Eighth Ohio, and if you do you know they will fight. Captain Harry Palmer, of East Liverpool, was our color sergeant and saw the whole of our fight here. He knows it is true. The insurgents are just a pack of robbers and cannot fight anything. They usually keep out of our way. There are only 30 of them on the island and they have but one gun. It will not shoot, but if we stay here long we will have it.

Amigo,

FRED HARSHA.

Company B, Tenth Pennsylvania Volunteers, Manila, P. I.

IF POSSIBLE

The Salem Pottery Will Stay Out of the Trust.

The Salem Herald of Saturday has the following:

"The Salem China company ordered 1,000,000 brick from a Leetonia firm yesterday and the brick will commence arriving Monday. They will receive about 10 carloads a day. The Lisbon fire brick company will send the first shipment. Wm. Smith, manager of the pottery, stated to a reporter that the company would not go into the trust if they could possibly avoid it."

Look After the Squirrel.

EDITOR NEWS REVIEW—The attention of the humane authorities is directed toward ameliorating the pitiful condition of a squirrel kept in durance truly vile in West Market street.

HUMANE.

Gun Cotton.

We had come into the storeroom for torpedoes at the Brooklyn navy yard and the talk turned to high explosives.

"We have to keep a sharp watch on the gun cotton," said one of the gunners who were with me, "to see that it does not get dry and does not get too acid. There is never a day goes by on a battleship but careful inspection is made of the stores of gun cotton. Dip in a piece of litmus paper and see if it comes out blue. If it does, all is well, but beware if it comes out red. That means acid, and acid means danger."

"What do you do when it comes out red?" I asked.

"Neutralize the acid. You see, gun cotton deteriorates a lot in an acid solution."

"Do you always keep the gun cotton wet?"

"Always. That's one of the first principles. When it's wet, it's safe; when it's dry, it isn't. Let it have all the water it will soak up, which is about 30 per cent."

"Suppose you were to touch off some gun cotton here on the ground, what would happen?"

"Nothing at all if it wasn't confined. You might burn a ton of it like cordwood in a bonfire. But pack it in a tin box, even a flimsy one, and you'll have fun. And, of course, the stronger the box the more fun you'll have."—Boston Globe.

Underground Paris.

The Paris of the pavement, gay, bright and exhilarating, is fairly familiar to us all, but underground Paris, dark, solitary and damp, extending for miles, is comparatively unknown. A part of this area is devoted to the catacombs—a valley of dry bones, a garden of the dead; the rest a garden still more vast, provides for the wants, or rather the luxuries, of the living—it is devoted to mushroom culture. These subterranean gardens extend for some 20 miles under the gay capital and are from 20 feet to 160 feet beneath the surface.

It is very difficult to obtain permission to visit them, and even when permission is obtained it requires some courage to avail oneself of it, for the only entrance is a circular opening like the mouth of a well, out of which a long pole stands. Through this pole, fastened at the top only, at fairly long intervals, sticks are thrust. This primitive ladder, the base of which swings like a pendulum in the impenetrable darkness below, is the only means of reaching the caves. "Here," again cried our guide, with a burst of cheerfulness, "see this door! On the other side are the catacombs—as full of bones as this place is of mushrooms." We smiled. We were not afraid of bones with an iron door between them and us.—Strand Magazine.

When Rosette Died.

Horace Walpole is a great lover of dogs too. Patapan, Tonton and Rosette (the last the legacy of Mme. du Deffand) are certainly the most spoiled of the species, and run all over Strawberry after their master, to the detriment, one would have thought, of the prim gardens and the vertu.

When Rosette dies presently, Horace sends the most touching epitaph on a dog ever written, perhaps, to my Lord Nuneham. "It has no merit," he says, "for it is an imitation, but it comes from the heart if ever epitaph did, and therefore your dogmanity will not dislike it."

Sweetest of the year
Strew around my Rose's bier.
Calmly may the dust repose
Of my faithful, pretty Rose.

The opening lines at least have the oddest unlikeness to the popular conception of Horace Walpole, if they have some affinity with the man who is the friend and playfellow of little children and can't find it in his heart to turn off an old servant or to give up an old ally.—Longman's Magazine.

How to Dissect a Mosquito.

A needle held in the left hand is passed through the thorax, the legs and wings are pulled off, and, if necessary, the scales of the body brushed off with a camel's hair brush. The tail is then lowered into a drop of water, salt solution or weak formalin placed on a glass slide, and with another needle held in the right hand the last two segments of the tail are partially separated and held down upon the slide. The left hand is then moved in such a manner as to draw away the insect.—Major Ross, I. M. S., in Indian Medical Gazette.

Greatness Thrust Upon Him.

Teacher—Now, then, boy No. 1, who wrote "Macbeth?"

Boy No. 1 (trembling violently)—Please, sir, I didn't.

Teacher—I know you didn't, but who did?

Boy No. 1 (with a spasm of virtue)—Please, sir, I don't want to be a tattletale, but it wuz Bob Buster, over in de corner seat. I seen him doin' of it.—Illustrated Record.

A Regular Business Man.

In a rural Virginia village two negroes were in partnership running a blacksmith shop. They were named Jim and Henry. Upon dissolution of the firm Jim wrote out and posted this notice: "The firm of Jim & Henry is this day dissolved. All persons owing the firm will settle with Jim. Those having bills against the firm will present them to Henry."—Atlanta Constitution.

NEW BIG POWER HOUSE.

Vast Plant Designed For a New York Railroad Company.

WILL BE THE LARGEST KNOWN.

Its Engines Will Be the Most Powerful Ever Grouped in a Single Station on Land and Over Twice as Powerful as Those of the Largest Ocean Liner—Some Features of the Plant.

The general designs for the new power house for the Third Avenue Railroad company of New York have recently been made public. The power house will be the largest structure of its kind in the world and within its walls will be generated a greater amount of power than has ever been produced before at any single station. The most enormous engines that man uses for single purposes are those which drive the ocean greyhounds that ply between New York and Europe. Of these the biggest develop about 30,000 horsepower.

Within the walls of the new Third avenue power house there will be massed engines and boilers capable of producing more than three times as much power as this and clustered about them all the needed devices for sending that power out over many miles of tracks to propel street cars. From this one center cars will be propelled from the postoffice to the Harlem on Third avenue, from the East river to the Hudson and over the miles of ramifications of the routes of the Forty-second street, Manhattanville and Amsterdam avenue line, for miles over the tracks of the One Hundred and Twenty-fifth street and Tenth avenue route to Fort George and again above that to the city line at Yonkers over the new routes to be built and finally over the vast Huckleberry line above the Harlem and the many extensions which are likely soon to be made in connection with these various systems now controlled by the company.

The Third avenue plant will have a number of features, involving economy of operation, that are superior to any in the world. The designing of the house has been done by Westinghouse, Church, Kerr & Co., engineers for the Westinghouse Electric and Manufacturing company, which has the contract to supply the whole electric and power plant. The location of the plant and many other important matters were determined by President Elias and Superintendent J. H. Robertson of the Third avenue road, while the designing and construction of the system for distributing the electrical power are intrusted to Dr. Louis Duncan, who has been appointed chief engineer of the road. The power house will stand on the west side of the Harlem river, accessible by water from either way, and it will cover the two blocks between Two Hundred and Sixteenth and Two Hundred and Eighteenth streets. It will be 320 feet long and 250 feet wide. Within it will be divided lengthwise into two portions, each of about the same shape and area, one to be used for boilers and the other for engines and generators, and these two portions will be marked in the outer design of the building.

The half nearer the river, measuring about 320 by 125 feet, will form the boiler house, having above the boilers a great 10,000 ton coal bin. This portion of the building will be about 100 feet tall. At each corner will be a low, square tower, while above the whole will tower four steel stacks, each another hundred feet high. The other half of the building will be about half as tall, with its roof taking the form of its round arched steel girders, while for architectural effect the higher portion, although roofed in the same way structurally, will be built up to a square contour. The site of the structure is of alluvial sand, and over the whole area of nearly two acres a foundation of piles and concrete must be laid. The superstructure will be of steel frame, with walls of stone, brick and terra cotta, and much skill has been employed to design it in such a way that it shall not be a public eyesore.

The economies of design begin at the water side, where wharfage facilities for receiving coal are to be provided. Coal will arrive in barges or schooners, and by means of mechanical hoists and conveyers it is expected to put it into the bin at the boiler house at a cost so small that it will be just about equal to the money saved on demurrage of vessels. Few persons realize the enormous amount of coal which such a plant will consume. Under the best practice, where the loads on engines are constant, it takes 1½ pounds of coal for each horsepower an hour. If the station were run at its full capacity 24 hours a day, the daily consumption would be about 1,800 tons.

It is estimated, however, that the loads will require an average of about 340,000 horsepower, and this at two pounds of coal an hour will require nearly 1,000 tons of coal a day. Once in the bin at the top of the boiler house the coal is never moved again except by gravity. It flows down shoots to pockets at the front of each boiler, and from these pockets it is thrust into the furnaces by strong hands of iron and then moved forward from grate bar to

grate bar of the furnace by mechanical stokers until finally at the end the ashes and clinkers are dropped through a trapdoor and sent through other shoots on their way to waiting boats, which carry them off.

There are 60 boilers, each rated at 520 horsepower, and these are arranged in double rows two tiers high. There are two furnaces to a boiler, and if the boilers were cared for in the old way it would require one man to stoke each boiler. Working 24 hours a day and allowing for a number of boilers being out of use part of the time, about 120 firemen would be required to feed them.

With mechanical stokers 40 men will accomplish the same work and hardly have to soil a hand. There is another big saving possible with the mechanical stokers which, it is probable, will be taken advantage of. This is the use of some of the cheaper and softer coals, which, because of the better combustion produced by evenly handled fires, may be burned without giving off smoke. In contemplation of this perhaps powerful pumps and hose are provided in the plans, arranged for flooding the 10,000 ton coal bin with water in case the coal takes fire. Hard coal is not much subject to such risk.

Down in the generator room, under its arched roof, will stand 16 of the largest electric generators made. Each will be rated at 3,000 kilowatts, or 4,000 horsepower, and each will be capable of carrying a load 50 per cent larger than that. Directly connected with each generator and standing vertically above it will be its steam engine, each engine rated at 6,000 horsepower. In the center of the room, high up, where every machine can be watched, will be the engineer's room, while straddling over the whole room will be a traveling crane, which can pick up any piece of machinery in the place and carry it to any other spot in the whole compartment. Along one side of this room, in a gallery above the machinery, will be the switchboard, where all the power currents from the dynamos will be carried and from there sent forth to the various distributing stations. The currents to be used will be alternating and of high voltage. The details are not made public, but it is said that a current of about 10,000 volts will be used.

At convenient points along the lines substations will be established where the currents will be transformed from high voltage alternating to direct currents of 500 volts to be fed to the lines. The multiplicity of lines and wires, switches and indicating instruments which will run to these stations will be appreciated when it is remembered that a separate feeder wire is to be supplied to every 1,000 feet or so in the parts of the city where the traffic is the heaviest, such as from Sixth street to the post-office on the Third avenue line. These details are yet to be worked out.

The new power house will cost about \$500,000, and the machinery which it will contain and the 30 rotary converters at substations will cost \$500,000. As the present cable lines of the Third avenue road will be converted to under trolley lines before the big power house is completed, some of the converters, which are in effect dynamos, will be connected with the machinery of the cable power house to run the lines until the main source of supply is ready.—New York Sun.

DEATH OF NOTED FOX.

For Years He Had Been a Faithful Stand By of Eager Hunters.

George Washington, the hoary and sporty old fox that has lived in the South Valley hills at Valley Forge, Pa., for so many years and has figured in a score or more hunts, met with a tragic end recently by being torn to pieces by a pack of hounds.

About a dozen members of the Perkiomen, Port Kennedy, Washington and Black Rock hunts, with a pack of 20 hounds, turned out the other morning for a hunt. After beating around the valley hills for an hour the hounds succeeded in "jumping" old George Washington, and a lively chase followed. Foxy did some pretty lively running among the hills for half an hour, and then made a break across the open country toward New Centerville, with the hounds in close pursuit. WENT OVER THE DOOR

Young Thieves Entered a Business House Sunday.

HELPED THEMSELVES TO CANDY

They Also Investigated the Stock of Jewelry and Handkerchiefs and Carried Away What Was Wanted—Robbery at the Gardendale School.

One of the most daring robberies ever committed in the city occurred early yesterday morning.

Chal G. Peterson and Enoch Elden did not leave their place of business until almost 1 o'clock Saturday night, but when Mr. Peterson entered the store yesterday morning he had no trouble in discovering that some person had been there before him.

The money drawer in his side of the store had been pulled out and all the cash taken, while the thieves had emptied a few boxes of candy. They then went to the side of Enoch Elden and going to the window took out a few shirts and what other articles they wanted. They removed several shirt studs and jewelry from the show cases, but did not take the cards with them as they evidently desired to cover up all chances of a clue to their identity. Two valises were taken and it is probable the plunder was packed in them.

The thieves gained entrance to the store by climbing over the transom on the Market street side and there was evidently three or four of them, one man doing the work on the inside while the others watched.

The Gardendale school was entered yesterday morning by two boys who ransacked every room and took every thing of value.

The matter was reported to the police together with the names of the boys, but at a late hour this afternoon they had not been apprehended.

The boys gained entrance to the building yesterday about noon by climbing through a window. As yet a list of the articles which were stolen has not been prepared but no doubt it will be by this evening.

FINANCIAL STATEMENT

Of the St. Aloysius Church Given to the Congregation.

After the service in St. Aloysius church yesterday morning, Rev. Father Smythe read the financial statement of the church for the past year.

The report showed the total receipts to be \$9,339.17, expenditures \$7,952.89, salary of priest \$700, balance in treasury of church \$1,386.28. The entire debt of the church was cleaned during the year and at the present time no bills are payable. After the report had been read the congregation elected John M. Ryan and Daniel T. McCorran as counsellors of the church to rule for one year.

A COMPLAINT

Entered Against the Water at Fairmount Home.

At a meeting of the state board of health at Columbus in advance of the joint meeting of the state, city and local boards, a complaint was lodged with the board that the water supply at the children's home at Alliance had been polluted and should be investigated. The board appointed Dr. Hartzell, who lives in that vicinity, to investigate.

The extremely low death rate at the home and the few children who have been ill for a year indicate that even if the complaint be true it is having little effect on the inmates.

CASE OF CRUELTY

Called to the Attention of Agent Lloyd.

Humane Agent Lloyd today investigated an extreme case that was brought to his notice.

The party was notified that her actions must cease and she promised to do better. Owing to the prominence of the parties concerned the names are withheld from the public.

Increased the Force.

Hiram Lemoyne, of the freight depot, who has been off duty on account of illness for several days, resumed his work this morning. Andrew Cockburn, who was put on in his place, is allowed to continue work on account of the increase in the business at the depot.

Two rollers and one checkman are now on the outbound platform.

Trying a Case.

The case of Harrison Rinehart against the Ohio Valley Gas company for \$38 is being heard this afternoon by Squire Hill. There were 16 witnesses subpoenaed.

STAR BARGAIN STORE,

WRAPS AT HALF PRICE.

Every ladies', misses' and child's jacket, also children's long coats, from 1 to 6 years old, will go at Half Price. All this season's style. Here is your chance to buy a coat. Capes at 33 1/2c on the dollar. Every cloth cape in the house will go at 1/3 their marked price.

DRESS GOODS.

We made still greater cuts on many lines of dress goods. On many lots we cut the price in half and some even more. It will pay you to get a dress now at our store even for later use.

1/4 OFF.

Commencing tomorrow morning, and until further notice, we will give you a straight 75 per cent off on our entire line of muslin underwear, trimmings, embroidery, laces, and on a great many other things. All marked in plain figures.

OUR GREAT UNLOADING SALE.

Our great unloading sale is still going on in every department, which is the greatest in the town. Many things are going at 1-4, 1-3, and even 1-2 off. If you need any dry goods, dress goods or furnishings, come to our store now while the lines are still complete and save your good dollars.

STAR BARGAIN STORE

138 140 FIFTH STREET.

Our Young Veterans.

When Sammy came back from the fighting. My word, but we called him heroic—A fever despising young stoic Whose very old clothes were exciting!

Today he's a soldier no longer. But just a young man without labor—A seemingly idle young neighbor Whom work would make better and stronger.

And thus are our heroes degraded To everyday persons. It's trying To take up mere selling and buying Or bookkeeping after what they did.

But give them a chance, and they'll do it. I'll warrant, or work at the benches As well as they fought in the trenches And be better patriots through it.

They're soldiers, but citizens after—The blood and backbone of our nation—The best timbered men in creation On the farm, in the shop or with Shafter!

WENT OVER THE DOOR

Young Thieves Entered a Business House Sunday.

HELPED THEMSELVES TO CANDY

They Also Investigated the Stock of Jewelry and Handkerchiefs and Carried Away What Was Wanted—Robbery at the Gardendale School.

One of the most daring robberies ever committed in the city occurred early yesterday morning.

Chal G. Peterson and Enoch Elden did not leave their place of business until almost 1 o'clock Saturday night, but when Mr. Peterson entered the store yesterday morning he had no trouble in discovering that some person had been there before him.

The money drawer in his side of the store had been pulled out and all the cash taken, while the thieves had emptied a few boxes of candy. They then went to the side of Enoch Elden and going to the window took out a few shirts and what other articles they wanted. They removed several shirt studs and jewelry from the show cases, but did not take the cards with them as they evidently desired to cover up all chances of a clue to their identity. Two valises were taken and it is probable the plunder was packed in them.

The thieves gained entrance to the store by climbing over the transom on the Market street side and there was evidently three or four of them, one man doing the work on the inside while the others watched.

The Gardendale school was entered yesterday morning by two boys who ransacked every room and took every thing of value.

The matter was reported to the police together with the names of the boys, but at a late hour this afternoon they had not been apprehended.

The boys gained entrance to the building yesterday about noon by climbing through a window. As yet a list of the articles which were stolen has not been prepared but no doubt it will be by this evening.

EAST LIVERPOOL, O., MONDAY, JAN. 23.

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns

THE people expect the senate to ratify the treaty with Spain, with the least possible delay. There are none who can see advantage to any one in rejecting the document.

SOME Cubans who have been supplied with food by this government now think they are in every way wards of Uncle Sam and should do no work. There is no time like the present for replacing that idea with the knowledge that in this country he who eats must work. Emergencies always have an end.

THE army bill is scheduled for consideration in congress tomorrow and it is probable it will excite a vast amount of oratory. If the expressed views of those who are interested will bring about necessary changes, the government will have no cause for complaint, but if they but delay the passage of the measure the country will object. There is no denying the necessity of an increase in the army, and the sooner it is brought about the better it will be for the nation.

It is nothing if not strange to see Grover Cleveland and Colonel Bryan standing on the same platform. The worthy pair could not agree on the financial question, but find common cause for complaint against the demand for expansion. Until recently Bryan was generally observed as the champion calamity crier of the country, but after Cleveland's letter to the Continental league it is doubtful if he can retain the position long. He has been on top of the ladder, but now he must drop down a rung.

THE RIGHT MEN.

Within a short time a number of East Liverpool citizens will possess in the aggregate several millions of dollars, the result of the sale of their pottery interests to the American Potteries company. It is but reasonable to suppose that a portion of this money will be invested in this community, and before another year has passed that diversification of industry, so often urged as an argument for continued prosperity, will have commenced to make its presence felt. These new factories, controlled by new combinations of capital, will of necessity seek some aid from the city. It may not be in the way of bonuses, for East Liverpool does not take kindly to that sort of thing, but there are many channels through which the city can retard or aid in the founding and development of new industries. That is why the conservative and thoughtful yet enterprising citizen should scan carefully the candidates for council before he casts his ballot. The right men are needed to occupy seats in that body, and only the right men. Every councilman should have the welfare of the city at heart, remembering that what he does may not only have a bearing upon the present, but that it will probably be of interest in the future. Many costly mistakes have been made. There should be no more if the voter casts his ballot only for men such as he would choose were he selecting a guardian for his private business.

25 per cent. reduction on all goods at the Bon Ton.

SECRET OF HAPPY LIFE

Evangelist Nash Gave It Out Last Night.

PRESBYTERIAN CHURCH PACKED

To Hear the Man Who Has Come to Aid the Spiritual Work of the Young Men's Christian Association—An Excellent Sermon.

Evangelist Nash last evening occupied the pulpit of the First Presbyterian church and delivered an interesting address to an unusually large audience.

Secretary Platts led in prayer, and Evangelist Nash opened his address by stating that there were three things the congregation should remember about the text; namely: Where it was found, what it said and what the subject of it was. The congregation was asked to repeat the three things in concert and after it had been done the speaker took for his text Psalms 32, 1 and 2 verses: "Blessed is he whose transgression is forgiven, whose sin is covered."

"Blessed is the man unto whom the Lord imputeth not iniquity and in whose spirit there is no guile."

Mr. Nash then stated that he believed the congregation would agree with him that the subject of the verses was the secret of a happy life from the standpoint of the word of God and accordingly he had made that the subject of his address. He said there were three things to be considered in the text, and the first was that the occasion of all unhappiness in life was sin. He then told the story of a soldier in an Ohio regiment who had been a Christian before going to war, but after getting away from home influences and into the camp he had rapidly gone to the bad. He said the young man seemed to be living a life of pleasure while he was sinning, but by his own confession he was as miserable as he could possibly be.

The second essential in the secret of a happy life was in the fact that not withstanding the fact that we had sinned we could still be happy. The speaker said he had heard people say they would give anything to live their life over again, but it could not be done. In his opinion it was not necessary, as a person could be happy anywhere as the Bible teaches: "Blessed is he whose transgressions are forgiven."

The third essential in the secret of a happy life is not in what we have, but in what we are. Money will not make all happy and wealthy people are not always the happiest. An anecdote was told to illustrate his point, and the speaker said that while these three lessons appeared on the surface of his text, there were four lessons under the surface, the first being: "Blessed is he whose sin is forgiven." The speaker stated that the foundation stone of any happy life was the forgiveness of sins and no person could be happy until they knew their sins were forgiven.

The second foundation was "Blessed is he whose sin is covered." The speaker said the persons on this earth were willing to forgive sins yet they told them to friends, but that God not only forgives sins but also covers them.

The third and fourth foundations were "Blessed is the man unto whom God imputeth not iniquity" and "Blessed is the man in whose spirit there is no guile."

Mr. Nash in closing said: "While we are able to forgive, yet the grace of God goes one step farther and puts in us a new spirit. There is no strength of power of human resistance to take away the habits we have formed, but God is

THE TONSILINE CO. CANTON, O.

able to do it. There is one thing we will have to do in the sight of our own heart in order to attain a happy life and that is to accept God as our Savior."

The speaker closed his address with an earnest prayer that many might be brought into the kingdom. He also delivered a short address at the after meeting.

CHURCH SERVICES.

Revival Meetings Have Been Very Successful.

Communion services were held at the First Presbyterian church yesterday morning, and 11 persons were added to the church roll.

The revival services at the First M. E. church have been very successful, and to the present 51 persons have confessed conversion. Of this number 40 have become members of the church. The meetings this evening and tomorrow will be in charge of local preachers and Wednesday Doctor Jackson will be here.

The congregation of the Christian church held services in Ferguson hall yesterday, and the attendance was very large. At the morning service Professor Reed announced his resignation. He delivered a powerful sermon. The official board of the church will hold a meeting tomorrow evening. A number of applications have already been received for the position vacated by Professor Reed.

Rev. Swift in his Sunday morning discourse, took the barren fig tree as his theme, and delivered an intensely practical sermon. The reverend gentleman don't take much stock in faith without works. He evidently believes that promises are all right, as far as they go; but they don't go far enough. He is an ardent advocate of the fulfillment of promises. He believes that the American saloon would soon be a thing of the past, if the promises of professing Christians were but backed up by fulfillment. The revival meetings have resulted in the addition of 10 persons to the church. They will be discontinued during the week while Reverend Swift and his congregation aid the association meetings, but will be continued next week under the leadership of Rev. Mr. Gladden, of New Brighton. A woman's prayer meeting will be held tomorrow evening.

STILT WORKS

May Shut Down When the American Company Is In Operation.

It is very probable the Burgess stilt works will not be operated after the American Potteries company assume control. A gentleman who has had much to do with the affairs of the new company in speaking of the matter this morning said:

"When the West End pottery was absorbed by the company it was compelled to take the stilt works. The larger works of this character in the city are perfectly able to take care of all the trade of the potteries in the country if such be necessary."

Those Who Are Ill.

Harry Vincent, one of the messengers at the telegraph office, who has been ill at the home of his mother on Third street suffering with the fever, is improving. He will be able to be out next week.

Squire and Mrs. Manley are confined to their home on East Market street suffering from the grip.

The condition of C. R. Simms, of Second street, who has been ill for some time, is unchanged. He is 86 years old and from the character of his illness it feared by his friends that he cannot recover.

Mrs. D. A. Campbell, of Broadway, is confined to her home by illness.

William Kent, Jr., is ill at his home in Fifth street with the grip.

Mrs. Lou Steinfeld, who has been seriously ill for the past two weeks, is slowly improving.

Major Newman, of Washington street, is confined to his home by an attack of malarial. His condition is not thought to be serious.

Mail Carrier Joseph Williams is still confined to his home in Walnut street. Physicians are of the opinion that he is threatened with fever, and will be unable to resume his duties at the station for several weeks.

Vanity Fair.

With everything new save its name, "Vanity Fair" comes to the Grand Wednesday evening promising a program of varied excellence and comprising many novelties of a surprising character. Pretty girls bedecked in beautiful costumes and many comedians of excellent wit, all surrounded and enhanced by brilliant scenic effects, will make "Vanity Fair" the leading extravaganza organization on the road.

Treatment of Inebriates in Germany.

The sixth paragraph of the new code, which will come into operation in Germany in 1900, enacts compulsory treatment of habitual drunkards, involving their being placed under a curator, who will be empowered to put the individual anywhere for treatment until discharged from curatorship by the court. The exact description is, "He who in consequence of inebriety cannot provide for his affairs or brings himself or his family into the danger of need or endangers the safety of others." This measure was first advocated in 1863 at a meeting at Hanover.—British Medical Journal.

Kipling to Julia Marlowe.

Rudyard Kipling sent as a Christmas present to Julia Marlowe a copy of his latest book, "The Day's Work," with this verse in autograph on the fly leaf: When skies are gray instead of blue, With clouds that come to dishearten: When things go wrong, as they sometimes do In life's little kindergarten, I beg you, my child, don't weep and wail, And don't, don't take to tipping. But cheer your soul with a little tale By Neighbor Rudyard Kipling.

That is why the conservative and thoughtful yet enterprising citizen should scan carefully the candidates for council before he casts his ballot. The right men are needed to occupy seats in that body, and only the right men. Every councilman should have the welfare of the city at heart, remembering that what he does may not only have a bearing upon the present, but that it will probably be of interest in the future. Many costly mistakes have been made. There should be no more if the voter casts his ballot only for men such as he would choose were he selecting a guardian for his private business.

25 per cent. reduction on all goods at the Bon Ton.

SECRET OF HAPPY LIFE

Evangelist Nash Gave It Out Last Night.

PRESBYTERIAN CHURCH PACKED

To Hear the Man Who Has Come to Aid the Spiritual Work of the Young Men's Christian Association—An Excellent Sermon.

Evangelist Nash last evening occupied the pulpit of the First Presbyterian church and delivered an interesting address to an unusually large audience.

Secretary Platts led in prayer, and Evangelist Nash opened his address by stating that there were three things the congregation should remember about the text; namely: Where it was found, what it said and what the subject of it was. The congregation was asked to repeat the three things in concert and after it had been done the speaker took for his text Psalms 32, 1 and 2 verses: "Blessed is he whose transgression is forgiven, whose sin is covered."

"Blessed is the man unto whom the Lord imputeth not iniquity and in whose spirit there is no guile."

Mr. Nash then stated that he believed the congregation would agree with him that the subject of the verses was the secret of a happy life from the standpoint of the word of God and accordingly he had made that the subject of his address. He said there were three things to be considered in the text, and the first was that the occasion of all unhappiness in life was sin. He then told the story of a soldier in an Ohio regiment who had been a Christian before going to war, but after getting away from home influences and into the camp he had rapidly gone to the bad. He said the young man seemed to be living a life of pleasure while he was sinning, but by his own confession he was as miserable as he could possibly be.

The second essential in the secret of a happy life was in the fact that not withstanding the fact that we had sinned we could still be happy. The speaker said he had heard people say they would give anything to live their life over again, but it could not be done. In his opinion it was not necessary, as a person could be happy anywhere as the Bible teaches: "Blessed is he whose transgressions are forgiven."

The third essential in the secret of a happy life is not in what we have, but in what we are. Money will not make all happy and wealthy people are not always the happiest. An anecdote was told to illustrate his point, and the speaker said that while these three lessons appeared on the surface of his text, there were four lessons under the surface, the first being: "Blessed is he whose sin is forgiven." The speaker stated that the foundation stone of any happy life was the forgiveness of sins and no person could be happy until they knew their sins were forgiven.

The second foundation was "Blessed is he whose sin is covered." The speaker said the persons on this earth were willing to forgive sins yet they told them to friends, but that God not only forgives sins but also covers them.

The third and fourth foundations were "Blessed is the man unto whom God imputeth not iniquity" and "Blessed is the man in whose spirit there is no guile."

Mr. Nash in closing said: "While we are able to forgive, yet the grace of God goes one step farther and puts in us a new spirit. There is no strength of power of human resistance to take away the habits we have formed, but God is

able to do it. There is one thing we will have to do in the sight of our own heart in order to attain a happy life and that is to accept God as our Savior."

The speaker closed his address with an earnest prayer that many might be brought into the kingdom. He also delivered a short address at the after meeting.

CHURCH SERVICES.

Revival Meetings Have Been Very Successful.

Communion services were held at the First Presbyterian church yesterday morning, and 11 persons were added to the church roll.

The revival services at the First M. E. church have been very successful, and to the present 51 persons have confessed conversion. Of this number 40 have become members of the church. The meetings this evening and tomorrow will be in charge of local preachers and Wednesday Doctor Jackson will be here.

The congregation of the Christian church held services in Ferguson hall yesterday, and the attendance was very large. At the morning service Professor Reed announced his resignation. He delivered a powerful sermon. The official board of the church will hold a meeting tomorrow evening. A number of applications have already been received for the position vacated by Professor Reed.

Rev. Swift in his Sunday morning discourse, took the barren fig tree as his theme, and delivered an intensely practical sermon. The reverend gentleman don't take much stock in faith without works. He evidently believes that promises are all right, as far as they go; but they don't go far enough. He is an ardent advocate of the fulfillment of promises. He believes that the American saloon would soon be a thing of the past, if the promises of professing Christians were but backed up by fulfillment. The revival meetings have resulted in the addition of 10 persons to the church. They will be discontinued during the week while Reverend Swift and his congregation aid the association meetings, but will be continued next week under the leadership of Rev. Mr. Gladden, of New Brighton. A woman's prayer meeting will be held tomorrow evening.

STILT WORKS

May Shut Down When the American Company Is In Operation.

It is very probable the Burgess stilt works will not be operated after the American Potteries company assume control. A gentleman who has had much to do with the affairs of the new company in speaking of the matter this morning said:

"When the West End pottery was absorbed by the company it was compelled to take the stilt works. The larger works of this character in the city are perfectly able to take care of all the trade of the potteries in the country if such be necessary."

Those Who Are Ill.

Harry Vincent, one of the messengers at the telegraph office, who has been ill at the home of his mother on Third street suffering with the fever, is improving. He will be able to be out next week.

Squire and Mrs. Manley are confined to their home on East Market street suffering from the grip.

The condition of C. R. Simms, of Second street, who has been ill for some time, is unchanged. He is 86 years old and from the character of his illness it feared by his friends that he cannot recover.

Mrs. D. A. Campbell, of Broadway, is confined to her home by illness.

William Kent, Jr., is ill at his home in Fifth street with the grip.

Mrs. Lon Steinfeld, who has been seriously ill for the past two weeks, is slowly improving.

Major Newman, of Washington street, is confined to his home by an attack of malarial. His condition is not thought to be serious.

Mail Carrier Joseph Williams is still confined to his home in Walnut street. Physicians are of the opinion that he is threatened with fever, and will be unable to resume his duties at the station for several weeks.

Vanity Fair.

With everything new save its name, "Vanity Fair" comes to the Grand Wednesday evening promising a program of varied excellence and comprising many novelties of a surprising character. Pretty girls bedecked in beautiful costumes and many comedians of excellent wit, all surrounded and enhanced by brilliant scenic effects, will make "Vanity Fair" the leading extravaganza organization on the road.

Treatment of Inebriates in Germany.

The sixth paragraph of the new code, which will come into operation in Germany in 1900, enacts compulsory treatment of habitual drunkards, involving their being placed under a curator, who will be empowered to put the individual anywhere for treatment until discharged from curatorship by the court. The exact description is, "He who in consequence of inebriety cannot provide for his affairs or brings himself or his family into the danger of need or endangers the safety of others." This measure was first advocated in 1863 at a meeting at Hanover.—British Medical Journal.

Kipling to Julia Marlowe.

Rudyard Kipling sent as Christmas present to Julia Marlowe a copy of his latest book, "The Day's Work," with this verse in autograph on the fly leaf: When skies are gray instead of blue, With clouds that come to dishearten; When things go wrong, as they sometimes do, In life's little kindergarten, I bid you, my child, don't weep and wail, And don't, don't take to tippling, But cheer your soul with a little tale By Neighbor Rudyard Kipling.

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns

THE people expect the senate to ratify the treaty with Spain, with the least possible delay. There are none who can see advantage to any one in rejecting the document.

SOME Cubans who have been supplied with food by this government now think they are in every way wards of Uncle Sam and should do no work. There is no time like the present for replacing that idea with the knowledge that in this country he who eats must work. Emergencies always have an end.

THE army bill is scheduled for consideration in congress tomorrow and it is probable it will excite a vast amount of oratory. If the expressed views of those who are interested will bring about necessary changes, the government will have no cause for complaint, but if they but delay the passage of the measure the country will object. There is no denying the necessity of an increase in the army, and the sooner it is brought about the better it will be for the nation.

It is nothing if not strange to see Grover Cleveland and Colonel Bryan standing on the same platform. The worthy pair could not agree on the financial question, but find common cause for complaint against the demand for expansion. Until recently Bryan was generally observed as the champion calamity erier of the country, but after Cleveland's letter to the Continental league it is doubtful if he can retain the position long. He has been on top of the ladder, but now he must drop down a rung.

THE RIGHT MEN.

Within a short time a number of East Liverpool citizens will possess in the aggregate several millions of dollars, the result of the sale of their pottery interests to the American Potteries company. It is but reasonable to suppose that a portion of this money will be invested in this community, and before another year has passed that diversification of industry, so often urged as an argument for continued prosperity, will have commenced to make its presence felt. These new factories, controlled by new combinations of capital, will of necessity seek some aid from the city. It may not be in the way of bonuses, for East Liverpool does not take kindly to that sort of thing, but there are many channels through which the city can retard or aid in the founding and development of new industries. That is why the conservative and thoughtful yet enterprising citizen should scan carefully the candidates for council before he casts his ballot. The right men are needed to occupy seats in that body, and only the right men. Every councilman should have the welfare of the city at heart, remembering that what he does may not only have a bearing upon the present, but that it will probably be of interest in the future. Many costly mistakes have been made. There should be no more if the voter casts his ballot only for men such as he would choose were he selecting a guardian for his private business.

WELLSVILLE.

THIRTY PERSONS THERE

In Answer to Evangelist Cornell's Sermon.

BIG CROWD AT M. E. CHURCH

Unfortunates In Jail Charged With Drunkenness—Receiving Congratulations of Their Friends—All the News of Wellsville.

The special meetings being conducted at the Methodist Episcopal church by Evangelist Cornell are attracting much attention in town, and the building is crowded. The church last night could not hold the great number of people who sought admission. More than 30 persons were at the altar last night, the evangelist having preached an especially good sermon. The subject, "Thy Heart is Not Right," gave him a theme for a powerful discourse.

In Jail.

William O'Hara and David Van Fossen were in jail on charges of drunkenness this morning. O'Hara was arrested by Officer Duncan on Saturday night, and Van Fossen Sunday afternoon.

Attended a Concert.

Mrs. J. L. Crumrine, Mrs. J. F. Hamilton, Henry Goetz, Miss Pearl Swan and John Perkins were in Pittsburg on Saturday attending the Rosenthal concert at Carnegie hall.

Receiving Congratulations.

It is just 20 years today since C. R. Arnold and Miss Helen Wells were united in marriage. This worthy couple have been residents of Wellsville all of that time, and while they are not celebrating the anniversary in any public way, they are receiving congratulations and best wishes from scores of their friends who remember the day.

News of Wellsville.

Miss Sadie Weaver left for Coshocton where she will make her home for the future.

Mrs. Junk, who has been visiting her daughter Mrs. C. L. V. McKee, has returned to Washington, Pa.

Next Saturday Prof. J. L. McDonald will attend a teachers' institute of the Middleton township teachers.

John Saltzman, of Nicholson's addition, who has been in a very critical condition with complications arising from grip, is reported somewhat improved.

Miss Daisy Martin is visiting relatives in Holiday's Cove, W. Va.

W. W. Hole, of Salem, was here getting acquainted with some of our local politicians the last of the week.

E. S. Kelley was out today for the first time after an illness of three weeks. He had the grip.

Dr. D. C. Stewart preached in the morning and evening to the United Presbyterians and this morning he left for Chicago, Ill.

Rev. H. N. Miller filled his pulpit yesterday, and this morning he returned to Bethany college.

Communion services were held at the First Presbyterian church yesterday morning. Reverend Lafferty preached an interesting sermon. About 25 additions were made to the church roll as a result of the three weeks services.

The funeral of George Bird took place from the house today at 2 o'clock. Reverend Holtz officiated. The pall bearers were from among the Grand Army members.

THE CONGREGATION

Will Consider the Offer For First U. P. Property.

At a congregational meeting of the First U. P. church to be held Wednesday evening after prayermeeting, J. D. West, chairman of the board of trustees, will make a statement in regard to an offer which has been made for the property at Fifth and Market streets.

The matter is being kept very quiet and what action will be taken by the congregation is not known.

A member stated today that about sufficient money had been raised to purchase the old church with a view to organizing a Third church.

They Come Often.

The crockery buyers from Cleveland, Sandusky, Toledo and Jackson, Mich., who have been in the city several days, left Saturday night for the east. This trip is the second within as many months.

A discount of 25 per cent. allowed on all purchases this week at the Bon Ton.

ROYAL BAKING POWDER

ABSOLUTELY PURE

Makes the food more delicious and wholesome

ROYAL BAKING POWDER CO., NEW YORK.

SEE THE NOVELTY.

The Only One of the Class Ever Turned Out.

The writer had the pleasure this morning of witnessing some wonderful balancing on a ladder. The performer is an automaton, the invention of a German genius, who is very proud of his production and who values it very highly. The invention will be placed on exhibition tomorrow afternoon, Tuesday, Jan. 24, in the show window of the Lewis Bros., furniture dealers, "Exchange" block, new Thompson building, Fifth street. We will not attempt a full description of this novelty; suffice it to say that it must be seen in order to be fully appreciated. The performer is a charming little German damsel, appropriately and fittingly costumed, and she goes through her performance with an ease and grace which cannot fail in pleasing all onlookers. The Lewis Bros. extend to you a cordial invitation to witness the performance tomorrow afternoon, and every afternoon during the coming week. The performer will announce, through the medium of an appropriate card, that the opening of the superb furniture establishment of the Lewis Bros. will take place on THURSDAY, FEB. 2. To this opening you have a special invitation. It will certainly pay you, if you are thinking of purchasing anything in the line of furniture, carpets or house furnishings, to examine the elegant stock of goods and ascertain the very reasonable prices at which they are being disposed of.

DEATHS.

Two Well Known West Virginia People and a Child.

J. O. Martin, aged 34 years, died at his home opposite the Golding flint mill at 2 o'clock yesterday morning. Death was caused by typhoid pneumonia with which deceased had been suffering for several weeks. The funeral will be held tomorrow, services being conducted by Rev. C. F. Swift. Interment will probably be made in Wellsville cemetery.

Mr. Martin was one of the best known men in this section. Mrs. Martin died last September. Four small children survive Mr. Martin.

Mrs. M. Cowan, sister of J. C. Allison, died at her home in Fairview yesterday. Deceased was aged 83 years, and was well known in this city. Death was caused by pneumonia.

The infant child of Mr. and Mrs. Isaac Arb died last evening at their home in Jethro street. The funeral will be held tomorrow afternoon. Interment at Spring Grove.

WAITING FOR HOUSES.

They Are the Scarcest Thing In Town Just Now.

Houses are exceedingly scarce in the city, and many persons have their goods stored in vacant rooms until a house can be rented.

Recently a house in a prominent locality became vacant, and the agent has been besieged with people who want to rent it, while there is a continued run of people viewing the premises.

Travelers Going Out.

W. H. Deidrick, of the McNicol Pottery company, left for the west in the interest of his company this morning. He will be gone several weeks.

A. D. Wilson went east this morning, taking with him samples from the Union pottery. He will be out about two months.

William Beal left this morning for a western trip in the interest of the West End pottery.

Attending a Funeral.

Mr. and Mrs. Henry Falls, of this city, left this morning for New Castle, where they will attend the funeral of Miss Waddingly, a sister of Mrs. Falls. They will return to the city tomorrow.

Buried Saturday Evening.

The funeral of the little child of Mr. and Mrs. Martin took place Saturday evening, Reverend Greene officiating. The remains were interred yesterday in Riverview cemetery.

ROUGH RIDER'S MEMORIAL.

Theodore Miller's Classmates Will Build an Archway at Yale.

The classmates of Theodore Westwood Miller, Yale '97, who enlisted in Roosevelt's rough riders and was killed at the battle of San Juan hill, are preparing a memorial of him in the form of a gift to Yale. It is proposed to raise by subscription among Mr. Miller's classmates about \$1,000 with which to erect an archway between Battell chapel and Durfee hall.

The structure is in line with the now almost finished plan of the quadrangle. It is proposed to have all the spaces between the college buildings closed by gates and archways. The most ornate of these is Phelps hall, and about three years ago Mrs. Winchester furnished the funds for the gateway between Vanderbilt and the Chittenden library on High street. The space to be occupied by the Miller archway has long been known among Yale men as the Pass Thermopylae. It derives this name from the practice, on Omega Lambda Chi night, of rushing the freshmen through the narrow defile to the accompaniment of the cuffs and kicks of the upper class men. The completion of the archway will make a continuous line of masonry from Osborn hall on College street to Alumni hall on Elm. When the whole quadrangle is inclosed in this way, it is the purpose of the faculty to shut all the gates at an appointed hour, after the fashion of the English universities, and to impose a penalty upon the students who fail to get in.

Mr. Miller was a graduate of Yale in the class of '97. During his college days he was prominent in an athletic and social way. After graduation he entered the New York Law school and left his studies to enlist in the rough riders. He was one of the first to fall at San Juan. —New York Sun.

The Sea Gull and the Fisherman.

In the fishing village of Auchmithie (the Musselraig of Scott's "Antiquary") you may frequently witness sea gulls flying into the houses of the fishermen and partaking of food from their hands. One of these sea birds was in the habit of staying in a fisherman's house all the year round except at the breeding season, when it left. Quite recently, while the gull was away, the fisherman removed his home from Auchmithie to Arbroath (the Fairport of Scott's "Antiquary"), distant some 3½ miles from the former place, taking up his residence in South street of Arbroath. The fisherman never expected to see his old friend the gull again. It was therefore much to his astonishment that he beheld a fortnight later the sea bird come walking into his new residence with stately steps to resume his old familiarities and household ways with his housekeeper. —London Lady.

The News in Lisbon.

LISBON, Jan. 23.—[Special]—A commission has been issued to F. L. Wells to take the testimony of A. B. Holland, a subscribing witness to the will of Samuel Dawson, late of Wellsville, Holland being infirm and unable to attend court.

Joseph Wherry has sold to Thomas B. Wilson, lots 28 and 30, Negley, \$350. Ida M. Stanley to Jefferson Tace, lot 1914, Liverpool, \$800. C. P. Ambler to John R. Vernon, land in Salem, \$1,000. John Hancock to David Bowers, lot 978, Liverpool, \$900.

A marriage license was granted Robert B. Russell and Mary Gaisuch, of Wellsville.

Small Fire.

Fire, Friday morning, broke out in the sagger shop of the Sebring pottery in East End. The flames were extinguished before any damage resulted.

Moved to Irondale.

The household effects of C. H. Bennett were this morning shipped to Irondale. Mr. Bennett has taken a position in the tin mill.

PERSONAL MENTION.

—John Earle was in Salineville today visiting friends.

—Miss Janette Imbrie, of Beaver, is the guest of Mrs. Jessie Potts.

—George Mayhew, of Fourth street, was in Toronto today visiting friends.

—M. B. Simms, of Steubenville, who was in the city yesterday visiting his father who is ill at his home in Second street, returned to his home this morning.

—Mr. and Mrs. George Anderson, of Cleveland, are spending a two weeks vacation with their parents in the city. Mr. and Mrs. T. Anderson, Walnut street, and Mr. and Mrs. J. C. Nicholls, Thompson avenue.

WELLSVILLE. THIRTY PERSONS THERE

In Answer to Evangelist Cornell's Sermon.

BIG CROWD AT M. E. CHURCH

Unfortunates In Jail Charged With Drunkenness—Receiving Congratulations of Their Friends—All the News of Wellsville.

The special meetings being conducted at the Methodist Episcopal church by Evangelist Cornell are attracting much attention in town, and the building is crowded. The church last night could not hold the great number of people who sought admission. More than 30 persons were at the altar last night, the evangelist having preached an especially good sermon. The subject, "Thy Heart is Not Right," gave him a theme for a powerful discourse.

In Jail.

William O'Hara and David Van Fossen were in jail on charges of drunkenness this morning. O'Hara was arrested by Officer Duncan on Saturday night, and Van Fossen Sunday afternoon.

Attended a Concert.

Mrs. J. L. Crumrine, Mrs. J. F. Hamilton, Henry Goetz, Miss Pearl Swan and John Perkins were in Pittsburg on Saturday attending the Rosenthal concert at Carnegie hall.

Receiving Congratulations.

It is just 20 years today since C. R. Arnold and Miss Helen Wells were united in marriage. This worthy couple have been residents of Wellsville all of that time, and while they are not celebrating the anniversary in any public way, they are receiving congratulations and best wishes from scores of their friends who remember the day.

News of Wellsville.

Miss Sadie Weaver left for Coshocton where she will make her home for the future.

Mrs. Junk, who has been visiting her daughter Mrs. C. L. V. McKee, has returned to Washington, Pa.

Next Saturday Prof. J. L. McDonald will attend a teachers' institute of the Middleton township teachers.

John Saltzman, of Nicholson's addition, who has been in a very critical condition with complications arising from grip, is reported somewhat improved.

Miss Daisy Martin is visiting relatives in Holiday's Cove, W. Va.

W. W. Hole, of Salem, was here getting acquainted with some of our local politicians the last of the week.

E. S. Kelley was out today for the first time after an illness of three weeks. He had the grip.

Dr. D. C. Stewart preached in the morning and evening to the United Presbyterians and this morning he left for Chicago, Ill.

Rev. H. N. Miller filled his pulpit yesterday, and this morning he returned to Bethany college.

Communion services were held at the First Presbyterian church yesterday morning. Reverend Lafferty preached an interesting sermon. About 25 additions were made to the church roll as a result of the three weeks services.

The funeral of George Bird took place from the house today at 2 o'clock. Reverend Holtz officiated. The pall bearers were from among the Grand Army members.

THE CONGREGATION

Will Consider the Offer For First U. P. Property.

At a congregational meeting of the First U. P. church to be held Wednesday evening after prayermeeting, J. D. West, chairman of the board of trustees, will make a statement in regard to an offer which has been made for the property at Fifth and Market streets.

The matter is being kept very quiet and what action will be taken by the congregation is not known.

A member stated today that about sufficient money had been raised to purchase the old church with a view to organizing a Third church.

They Come Often.

The crockery buyers from Cleveland, Sandusky, Toledo and Jackson, Mich., who have been in the city several days, left Saturday night for the east. This trip is the second within as many months.

A discount of 25 per cent. allowed on all purchases this week at the Bon Ton.

ROYAL BAKING POWDER

ABSOLUTELY PURE

Makes the food more delicious and wholesome

ROYAL BAKING POWDER CO., NEW YORK.

SEE THE NOVELTY.

The Only One of the Class Ever Turned Out.

The writer had the pleasure this morning of witnessing some wonderful balancing on a ladder. The performer is an automaton, the invention of a German genius, who is very proud of his production and who values it very highly. The invention will be placed on exhibition tomorrow afternoon, Tuesday, Jan. 24, in the show window of the Lewis Bros., furniture dealers, "Exchange" block, new Thompson building, Fifth street. We will not attempt a full description of this novelty; suffice it to say that it must be seen in order to be fully appreciated. The performer is a charming little German damsel, appropriately and fittingly costumed, and she goes through her performance with an ease and grace which cannot fail in pleasing all onlookers. The LEWIS BROS. extend to you a cordial invitation to witness the performance tomorrow afternoon, and every afternoon during the coming week. The performer will announce, through the medium of an appropriate card, that the opening of the superb furniture establishment of the LEWIS BROS. will take place on THURSDAY, FEB. 2. To this opening you have a special invitation. It will certainly pay you, if you are thinking of purchasing anything in the line of furniture, carpets or house furnishings, to examine the elegant stock of goods and ascertain the very reasonable prices at which they are being disposed of.

DEATHS.

Two Well Known West Virginia People and a Child.

J. O. Martin, aged 84 years, died at his home opposite the Golding flint mill at 2 o'clock yesterday morning. Death was caused by typhoid pneumonia with which deceased had been suffering for several weeks. The funeral will be held tomorrow, services being conducted by Rev. C. F. Swift. Interment will probably be made in Wellsville cemetery.

Mr. Martin was one of the best known men in this section. Mrs. Martin died last September. Four small children survive Mr. Martin.

Mrs. M. Cowan, sister of J. C. Allison, died at her home in Fairview yesterday. Deceased was aged 83 years, and was well known in this city. Death was caused by pneumonia.

The infant child of Mr. and Mrs. Isaac Arb died last evening at their home in Jethro street. The funeral will be held tomorrow afternoon. Interment at Spring Grove.

WAITING FOR HOUSES.

They Are the Scarcest Thing In Town Just Now.

Houses are exceedingly scarce in the city, and many persons have their goods stored in vacant rooms until a house can be rented.

Recently a house in a prominent locality became vacant, and the agent has been besieged with people who want to rent it, while there is a continued run of people viewing the premises.

Travelers Going Out.

W. H. Deidrick, of the McNicol Pottery company, left for the west in the interest of his company this morning. He will be gone several weeks.

A. D. Wilson went east this morning, taking with him samples from the Union pottery. He will be out about two months.

William Beal left this morning for a western trip in the interest of the West End pottery.

Attending a Funeral.

Mr. and Mrs. Henry Falls, of this city, left this morning for New Castle, where they will attend the funeral of Miss Waddingly, a sister of Mrs. Falls. They will return to the city tomorrow.

Buried Saturday Evening.

The funeral of the little child of Mr. and Mrs. Martin took place Saturday evening, Reverend Greene officiating. The remains were interred yesterday in Riverview cemetery.

ROUGH RIDER'S MEMORIAL.

Theodore Miller's Classmates Will Build an Archway at Yale.

The classmates of Theodore Westwood Miller, Yale '97, who enlisted in Roosevelt's rough riders and was killed at the battle of San Juan hill, are preparing a memorial of him in the form of a gift to Yale. It is proposed to raise by subscription among Mr. Miller's classmates about \$1,000 with which to erect an archway between Battell chapel and Durfee hall.

The structure is in line with the now almost finished plan of the quadrangle. It is proposed to have all the spaces between the college buildings closed by gates and archways. The most ornate of these is Phelps hall, and about three years ago Mrs. Winchester furnished the funds for the gateway between Vanderbilt and the Chittenden library on High street. The space to be occupied by the Miller archway has long been known among Yale men as the Pass Thermopylae. It derives this name from the practice, on Omega Lambda Chi night, of rushing the freshmen through the narrow defile to the accompaniment of the cuffs and kicks of the upper class men. The completion of the archway will make a continuous line of masonry from Osborn hall on College street to Alumni hall on Elm. When the whole quadrangle is inclosed in this way, it is the purpose of the faculty to shut all the gates at an appointed hour, after the fashion of the English universities, and to impose a penalty upon the students who fail to get in.

Mr. Miller was a graduate of Yale in the class of '97. During his college days he was prominent in an athletic and social way. After graduation he entered the New York Law school and left his studies to enlist in the rough riders. He was one of the first to fall at San Juan.—New York Sun.

WANDERED FROM HOME

Robert Crofts Had Been Ill With Fever.

SLEPT IN A KILN ONE NIGHT

His Father and Some Friends Came Here Yesterday in Search of Him, but He Could Not Be Found—Returned Last Evening.

Robert Crofts, eldest son of John B. Crofts, living near Madison church, on the Lisbon road, wandered from his home on Saturday morning, and although a careful search was made for him Saturday and yesterday, he was not located until late last evening.

During last summer Crofts went to the home of his sister in Iowa, and during his stay there became ill with typhoid fever. His condition was very low, and when he recovered his mind had been effected. He was brought to this city during December by his father, and his condition was much improved. Saturday morning he left his home and walked to Wellsville. At that place several relatives requested him to go to their homes but he declined. Saturday night he slept in a kiln at the Lyth works and where he obtained food cannot be learned as he had no money. His father and several neighbors were in the city searching for him yesterday, but failed to find him. This morning Mayor Bough received word that the young man returned to his home late last evening, and his return was caused by the intense hunger which he endured.

NOT A PRISONER.

Police Business Is Slow With Promise of an Increase.

Business in Mayor Bough's court this morning was very slow and not one arrest was made Saturday yesterday or this morning. There were very few drunks on the streets Saturday evening and they did not make enough trouble to cause their arrest. The jail is empty.

The trial of William Morrow, charged with permitting gambling on his premises, will be heard before Mayor Bough Wednesday at 2 o'clock. A number of witnesses have been summoned in the case.

The trial of Samuel Conkle charged with being a common gambler will be heard tomorrow afternoon at 2 o'clock. It is thought a settlement will be effected and if not the matter will be carried to court immediately.

NOTHING NEW

Has Come From the East Regarding the Potteries.

A leading manufacturer stated this morning that nothing new had come from the east, but matters would go on as had been planned. In his belief the settlement would be reached before Saturday, as the work of checking the inventories is being rapidly closed up.

A number of potteries were this morning added to the list of those already in operation, and it is believed shipments will steadily increase. The stock is large at some plants, and as soon as it is reduced the clay hands will be put at work. Orders are by no means scarce, and the number of travelers who have already taken to the road will materially increase the number.

POSTAL TELEGRAPH

May Establish an Office in This Place Soon.

It is probable the Postal Telegraph company will establish an office in this city within the next two months.

The company has had several officers in the city within the past few weeks surveying the territory who have reported favorable to the company. The nearest office of the company to this city is in East Palestine and should the office be opened the line will be from this place to Palestine. The cost of the improvement will be in the neighborhood of \$2,000.

REFUSED AN OFFER.

Robert Hall Also Denied the Story of a New Hotel.

A rumor was afloat in the city today to the effect that Pittsburg capitalists had obtained an option upon the property of Robert Hall at the corner of Broadway and Kossuth streets, and would erect a handsome hotel. The option was supposed to be \$30,000.

Mr. Hall was seen this morning and stated that there was no truth in the report, but that he had received an offer from local capitalists which he refused.

DR. G. B. SMITH

Has returned to the city, and can be consulted at his office in the Porter building.

Lifeboats of the World.

The lifeboat service is one of the very noblest of philanthropic institutions, and many civilized nations pay special attention to these means for the rescue of perishing mariners. England's lifeboat service is a voluntary one. The Royal National Lifeboat Institution, which controls the bulk of British lifeboats, was founded in 1824. It now has over 300 lifeboats on the shores of the kingdom, and has been instrumental in saving nearly 30,000 lives. The French lifeboat service was established in 1865, and has 83 stations, while it has been the means of saving over 900 vessels and 7,500 lives.

The French service has one great advantage over ours. It is that the public board of works always builds the first lifeboat house at each station as it is established, consequently relieving the service of a great outlay. The German service was established in 1865, and has 104 lifeboat stations. The United States has 233 lifeboat stations. The cost of the United States service is about \$290,000 a year.—London Tit-Bits.

Conan Doyle on Golf.

"My dear sir," writes Conan Doyle to an English friend, "pray present my compliments to the Ormeau Golf club and wish them from me a very happy evening. I am myself an intermittent golfer, getting very violent attacks at regular intervals. It usually takes me about two months to convince myself that I shall never be any good, and then I give it up until a fresh burst of energy sets me trying once more. I played in Egypt until they told me that excavators had to pay a special tax. I inaugurated a private course in Vermont also, and the Yankee farmers asked us what we were boring for. If ever the Ormeau club should wish any part of their links returned, I could undertake in a few games to clear away any sod now existing."

Took Her In.

"Yes," said the business man, "I have given up trying to collect that little bill from Bilkins. You see, he is a pretty big, husky fellow, and he used to throw my collectors out."

"Then why didn't you employ a woman collector? He couldn't do that to a woman."

"That's what I thought. So I got one and sent her around, but she never came back."

"Why not?"

"He married her."—Chicago Post.

New Way to Catch Rabbits.

Not in ten years have white and gray rabbits been so common in Allegany county, N. Y., and hunters are having great sport. One Bolivar man has already shot 12, and others have killed 100. Both dogs and ferrets are used. The small boys have invented a new way of catching rabbits. They track a rabbit to its hole, put a piece of half inch hose, 4 feet in length, into the mouth of the hole and yell through it. The noise in the hole almost scares the life out of the rabbit, and it comes bounding out and jumps into a bag held over the mouth of the hole. Hundreds of rabbits have been trapped this way within the past month.—Exchange.

How to Dissect a Mosquito.

A needle held in the left hand is passed through the thorax, the legs and wings are pulled off, and if necessary the scales of the body brushed off with a camel's hair brush. The tail is then lowered into a drop of water, salt solution or weak formalin, placed on a glass slide, and with another needle held in the right hand the last two segments of the tail are partially separated and held down upon the slide. The left hand is then moved in such a manner as to draw away the insect.—Major Ross, I. M. S., in Indian Medical Gazette.

Dinkelspiel to Dewey.

Vell, Chorge, how vas you gedding on, Avay so many miles? Und how vas eferdydings abould Dem Phillypeanuts Isles? Dot fellow Nagginaldo, he Vas preddy fresh, I guess! I dink in yust abould a veek Dare'll be vun dago less If he keeps fooling mit you, Chorge, Und dare vill be also Gold collars mit no neck to fit Down ad Hellohello!

Vell, Chorge, half Hopson got dare yet? If not, he vill some day, Prodding dot too many girls Don d stob him on der way, Und ven he does ged out dare py Dem Phillypeanuts Isles I vish dot all dem natif girls Vould dress up in dare smiles Und meed him down dare py der shore Und show him de doand d know Vot kissing is undil he got Ouid py Hellohello!

Vell, Chorge, und dit you heard der news? Vas id py cable sent Dey was going to make you run To be der president? Dey half id all fixed up, und on Der tigget dare mit you Dey put a friend of yours—his name Is Gif Dem Fitz Lee Hugh! Und if you are nod busy, Chorge, Yust come right home und go Und run for president und shook Dot tam Hellohello!

GERONIMO GROWING INSANE

His Long Confinement Is Slowly Undermining His Mind.

Geronimo, the old Indian fighter, is slowly losing his mind. He occasionally takes a ride out over the reservation, but is never allowed to go unaccompanied by a guard. The eternal vigilance is wearing away his mind. He does not rave, but has begun to have spells of moroseness, during which he will talk to no one, but acts strangely, as only one mentally unbalanced does.

In his time Geronimo caused the western settlers and the government more trouble than any other Indian. He became tractable since his capture and confinement, some ten years ago, and evinces no desire again to go upon the warpath. His was a generalship which, with any reasonable chance, was more than a match for many an army officer, but his active mind is giving way as much from inaction as from any other cause. He no longer plans imaginative campaigns, as he did for a long time while in confinement in Alabama. Even yet he is never freed from the constant eye of a guard, and this is said to be the greatest punishment for great men who have suffered exile. Napoleon often spoke of it, and now all France is fighting pro and con concerning a man on Devil's island who is suffering in the same way.

Geronimo tries to make himself as agreeable as he knows how to those about him. A soldier does not pace to and fro before a cell where he is confined, but he remains within his tepee with his family; yet the eye of a guard is never removed from the spot. All during the Santiago campaign a troop of cavalry was stationed at Fort Sill, and now a troop from the Tenth cavalry (negro) is on duty there, having been sent there from Fort Reno. An Indian hates a "buffalo soger," yet Geronimo has made no complaint.—Special Cor. New York Press.

TRIED TO GIVE HIM LEPROSY.

Philippinos Inject a Leper's Blood Into an American Soldier's Veins.

William Lapeer recently returned to Richland, S. D., to die of leprosy, which, it is feared, he contracted while serving with his regiment in the Philippines.

Lapeer is the 22-year-old son of a Union county farmer. He went to Manila last spring with Colonel Frost's South Dakota regiment. While seeing the sights soon after his arrival there he gave offense to a native aristocrat whom he met in a low drinking resort. The latter's friends succeeded in separating Lapeer from his companions, plied him with drugged liquor and carried his unconscious form to a house in the native quarter, where blood from a leper was injected into a vein in one of his arms.

When he realized what had been done to him, Lapeer was so horrified that he nearly died from pure nervous shock. He fell into a violent fever and was finally sent home. He will probably be discharged. Local physicians do not pretend to say what will be the result of the treatment to which he was subjected, as they do not know whether leprosy can be so transmitted. They are fearful of the effects of the experiment, but say it may be several months before the disease will manifest itself. The patient would be sent to New York for examination by experts, but is suffering from nervous prostration and too ill to be moved.—Special New York World.

ODD WAY TO BREAK A BONE.

Ward Wemple Breaks His Arm Putting on His Sister's Overshoes.

A few days ago Ward Wemple, the 12-year-old son of Charles Wemple of New Brighton, N. Y., fractured his arm in a peculiar manner, and Dr. William C. Walser, his attending physician, says that there is only one case of a similar character on record. The boy was putting on his sister's overshoes and, in giving one of the rubbers a sudden jerk, hurt his left arm near the shoulder. He persisted that his arm was broken, although the members of his family would not believe it at first.

Dr. Walser was called in and found the member fractured near the shoulder. The bone was broken by the spasmodic contraction of the large muscle on the shoulder. In order to show the case to the medical staff of the Smith infirmary Dr. Walser summoned the doctors together the other day at the hospital and subjected the break to the X rays. Dr. Walser says the only similar case he is able to find is that of a child who was taking a picture from a wall and a fracture of the same nature resulted from a sudden twist of the arm.—Exchange.

Refuses Trepha Prison Fare.

Joseph Cohen, a Russian Hebrew of Hamilton, O., indicted by the last grand jury for the alleged theft of \$15 from Michael Shelly of Middletown, O., is puzzling his jailers as to how he subsists on his slender diet. He refuses to eat anything but bread and onions, disdaining the usual prison fare. He says that his religion will not allow him to eat anything not cooked according to its custom, and that rather than sacrifice his religion he will continue on with the bread and onions.

A Newcastle (England) man wrote this to the editor on a postal card: "What ho, Mr. Editor, what price this? If the mouth is the window of the intellect, toothache must be a sort of window pain."

THE NEWS REVIEW

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others? The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card for it when making your purchases.

ONE-THIRD ACTUAL SIZE
COLOR IS CHANGED EACH QUARTER

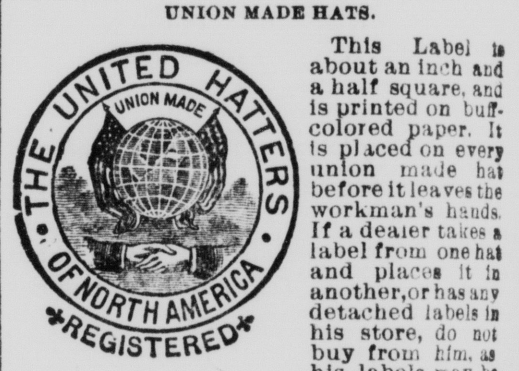

Good only, using months named in lower left hand corner, and properly signed, and STAMPED with the number of the label.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

The Journeymen Tailors' Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

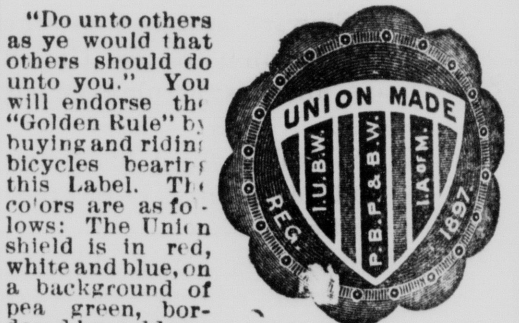

counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

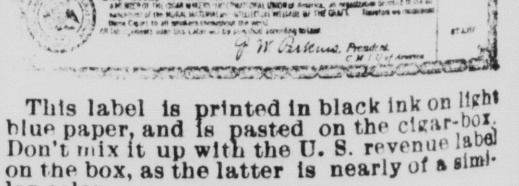

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold.

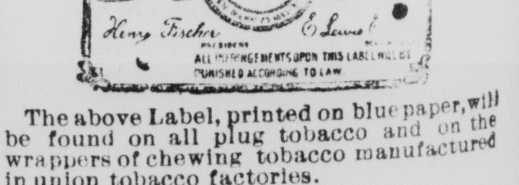

The Label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

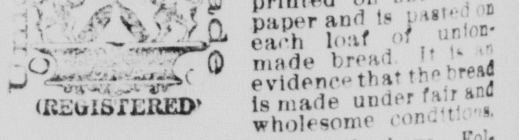

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

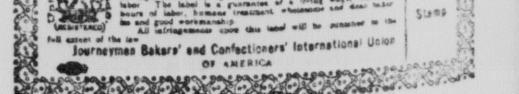

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is evidence under fair and wholesome conditions.

and in clean and healthy bakeries. Following is the confectioners' and cracker Label:

WANDERED FROM HOME

Robert Crofts Had Been Ill With Fever.

SLEPT IN A KILN ONE NIGHT

His Father and Some Friends Came Here Yesterday in Search of Him, but He Could Not Be Found—Returned Last Evening.

Robert Crofts, eldest son of John B. Crofts, living near Madison church, on the Lisbon road, wandered from his home on Saturday morning, and although a careful search was made for him Saturday and yesterday, he was not located until late last evening.

During last summer Crofts went to the home of his sister in Iowa, and during his stay there became ill with typhoid fever. His condition was very low, and when he recovered his mind had been effected. He was brought to this city during December by his father, and his condition was much improved. Saturday morning he left his home and walked to Wellsville. At that place several relatives requested him to go to their homes but he declined. Saturday night he slept in a kiln at the Lyth works and where he obtained food cannot be learned as he had no money. His father and several neighbors were in the city searching for him yesterday, but failed to find him. This morning Mayor Bough received word that the young man returned to his home late last evening, and his return was caused by the intense hunger which he endured.

NOT A PRISONER.

Police Business Is Slow With Promise of an Increase.

Business in Mayor Bough's court this morning was very slow and not one arrest was made Saturday yesterday or this morning. There were very few drunks on the streets Saturday evening and they did not make enough trouble to cause their arrest. The jail is empty.

The trial of William Morrow, charged with permitting gambling on his premises, will be heard before Mayor Bough Wednesday at 2 o'clock. A number of witnesses have been summoned in the case.

The trial of Samuel Conkle charged with being a common gambler will be heard tomorrow afternoon at 2 o'clock. It is thought a settlement will be effected and if not the matter will be carried to court immediately.

NOTHING NEW

Has Come From the East Regarding the Potteries.

A leading manufacturer stated this morning that nothing new had come from the east, but matters would go on as had been planned. In his belief the settlement would be reached before Saturday, as the work of checking the inventories is being rapidly closed up.

A number of potteries were this morning added to the list of those already in operation, and it is believed shipments will steadily increase. The stock is large at some plants, and as soon as it is reduced the clay hands will be put at work. Orders are by no means scarce, and the number of travelers who have already taken to the road will materially increase the number.

POSTAL TELEGRAPH

May Establish an Office in This Place Soon.

It is probable the Postal Telegraph company will establish an office in this city within the next two months.

The company has had several officers in the city within the past few weeks surveying the territory who have reported favorable to the company. The nearest office of the company to this city is in East Palestine and should the office be opened the line will be from this place to Palestine. The cost of the improvement will be in the neighborhood of \$2,000.

REFUSED AN OFFER.

Robert Hall Also Denied the Story of a New Hotel.

A rumor was afloat in the city today to the effect that Pittsburg capitalists had obtained an option upon the property of Robert Hall at the corner of Broadway and Kossuth streets, and would erect a handsome hotel. The option was supposed to be \$30,000.

Mr. Hall was seen this morning and stated that there was no truth in the report, but that he had received an offer from local capitalists which he refused.

DR. G. B. SMITH

Has returned to the city, and can be consulted at his office in the Porter building.

Lifeboats of the World.

The lifeboat service is one of the very noblest of philanthropic institutions, and many civilized nations pay special attention to these means for the rescue of perishing mariners. England's lifeboat service is a voluntary one. The Royal National Lifeboat Institution, which controls the bulk of British lifeboats, was founded in 1824. It now has over 300 lifeboats on the shores of the kingdom, and has been instrumental in saving nearly 30,000 lives. The French lifeboat service was established in 1865, and has 83 stations, while it has been the means of saving over 900 vessels and 7,500 lives.

The French service has one great advantage over ours. It is that the public board of works always builds the first lifeboat house at each station as it is established, consequently relieving the service of a great outlay. The German service was established in 1865, and has 104 lifeboat stations. The United States has 233 lifeboat stations. The cost of the United States service is about \$290,000 a year.—London Tit-Bits.

Conan Doyle on Golf.

"My dear sir," writes Conan Doyle to an English friend, "pray present my compliments to the Ormeau Golf club and wish them from me a very happy evening. I am myself an intermittent golfer, getting very violent attacks at regular intervals. It usually takes me about two months to convince myself that I shall never be any good, and then I give it up until a fresh burst of energy sets me trying once more. I played in Egypt until they told me that excavators had to pay a special tax. I inaugurated a private course in Vermont also, and the Yankee farmers asked us what we were boring for. If ever the Ormeau club should wish any part of their links returned, I could undertake in a few games to clear away any sod now existing."

Took Her In.

"Yes," said the business man, "I have given up trying to collect that little bill from Bilkins. You see, he is a pretty big, husky fellow, and he used to throw my collectors out."

"Then why didn't you employ a woman collector? He couldn't do that to a woman."

"That's what I thought. So I got one and sent her around, but she never came back."

"Why not?"

"He married her."—Chicago Post.

New Way to Catch Rabbits.

Not in ten years have white and gray rabbits been so common in Allegany county, N. Y., and hunters are having great sport. One Bolivar man has already shot 12, and others have killed 100. Both dogs and ferrets are used. The small boys have invented a new way of catching rabbits. They track a rabbit to its hole, put a piece of half inch hose, 4 feet in length, into the mouth of the hole and yell through it. The noise in the hole almost scares the life out of the rabbit, and it comes bounding out and jumps into a bag held over the mouth of the hole. Hundreds of rabbits have been trapped this way within the past month.—Exchange.

How to Dissect a Mosquito.

A needle held in the left hand is passed through the thorax, the legs and wings are pulled off, and if necessary the scales of the body brushed off with a camel's hair brush. The tail is then lowered into a drop of water, salt solution or weak formalin, placed on a glass slide, and with another needle held in the right hand the last two segments of the tail are partially separated and held down upon the slide. The left hand is then moved in such a manner as to draw away the insect.—Major Ross, I. M. S., in Indian Medical Gazette.

Dinkelspiel to Dewey.

His Long Confinement Is Slowly Undermining His Mind.

Geronimo, the old Indian fighter, is slowly losing his mind. He occasionally takes a ride out over the reservation, but is never allowed to go unaccompanied by a guard. The eternal vigilance is wearing away his mind. He does not rave, but has begun to have spells of moroseness, during which he will talk to no one, but acts strangely, as only one mentally unbalanced does.

In his time Geronimo caused the western settlers and the government more trouble than any other Indian. He became tractable since his capture and confinement, some ten years ago, and evinces no desire again to go upon the warpath. His was a generalship which, with any reasonable chance, was more than a match for many an army officer, but his active mind is giving way as much from inaction as from any other cause. He no longer plans imaginative campaigns, as he did for a long time while in confinement in Alabama. Even yet he is never freed from the constant eye of a guard, and this is said to be the greatest punishment for great men who have suffered exile. Napoleon often spoke of it, and now all France is fighting pro and con concerning a man on Devil's island who is suffering in the same way.

Geronimo tries to make himself as agreeable as he knows how to those about him. A soldier does not pace to and fro before a cell where he is confined, but he remains within his tepee with his family; yet the eye of a guard is never removed from the spot. All during the Santiago campaign a troop of cavalry was stationed at Fort Sill, and now a troop from the Tenth cavalry (negro) is on duty there, having been sent there from Fort Reno. An Indian hates a "buffalo soger," yet Geronimo has made no complaint.—Special Cor. New York Press.

TRIED TO GIVE HIM LEPROSY.

Philippine Inject a Leper's Blood Into an American Soldier's Veins.

William Lapeer recently returned to Richmond, S. D., to die of leprosy, which, it is feared, he contracted while serving with his regiment in the Philippines.

Lapeer is the 22-year-old son of a Union county farmer. He went to Manila last spring with Colonel Frost's South Dakota regiment. While seeing the sights soon after his arrival there he gave offense to a native aristocrat whom he met in a low drinking resort. The latter's friends succeeded in separating Lapeer from his companions, plied him with drugged liquor and carried his unconscious form to a house in the native quarter, where blood from a leper was injected into a vein in one of his arms.

When he realized what had been done to him, Lapeer was so horrified that he nearly died from pure nervous shock. He fell into a violent fever and was finally sent home. He will probably be discharged. Local physicians do not pretend to say what will be the result of the treatment to which he was subjected, as they do not know whether leprosy can be so transmitted. They are fearful of the effects of the experiment, but say it may be several months before the disease will manifest itself. The patient would be sent to New York for examination by experts, but is suffering from nervous prostration and too ill to be moved.—Special New York World.

ODD WAY TO BREAK A BONE.

Ward Wemple Breaks His Arm Putting on His Sister's Overshoes.

A few days ago Ward Wemple, the 12-year-old son of Charles Wemple of New Brighton, N. Y., fractured his arm in a peculiar manner, and Dr. William C. Walser, his attending physician, says that there is only one case of a similar character on record. The boy was putting on his sister's overshoes and, in giving one of the rubbers a sudden jerk, hurt his left arm near the shoulder. He persisted that his arm was broken, although the members of his family would not believe it at first.

Dr. Walser was called in and found the member fractured near the shoulder. The bone was broken by the spasmodic contraction of the large muscle on the shoulder. In order to show the case to the medical staff of the Smith infirmary Dr. Walser summoned the doctors together the other day at the hospital and subjected the break to the X rays. Dr. Walser says the only similar case he is able to find is that of a child who was taking a picture from a wall and a fracture of the same nature resulted from a sudden twist of the arm.—Exchange.

Refuses Trephra Prison Fare.

Joseph Cohen, a Russian Hebrew of Hamilton, O., indicted by the last grand jury for the alleged theft of \$15 from Michael Shelf of Middletown, O., is puzzling his jailers as to how he subsists on his slender diet. He refuses to eat anything but bread and onions, disarding the usual prison fare. He says that his religion will not allow him to eat anything not cooked according to its custom, and that rather than sacrifice his religion he will continue on with the bread and onions.

A Newcastle (England) man wrote this to the editor on a postal card: "What ho, Mr. Editor, what price this? If the mouth is the window of the intellect, toothache must be a sort of window pain."

THE NEWS REVIEW

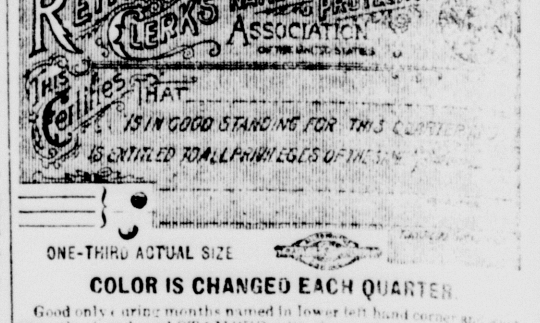

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others? The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show their card ask for it when making your purchases.

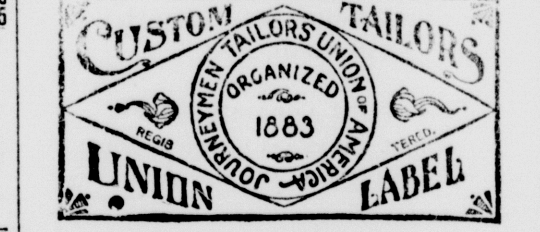

Endorsed by the R. C. N. P. A.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it on another, or has any detached labels in his store, do not buy from him as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

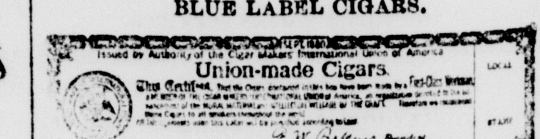

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The Label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the clear box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

</

WANDERED FROM HOME

Robert Crofts Had Been Ill
With Fever.

SLEPT IN A KILN ONE NIGHT

His Father and Some Friends Came Here
Yesterday in Search of Him, but He
Could Not Be Found—Returned Last
Evening.

Robert Crofts, eldest son of John B. Crofts, living near Madison church, on the Lisbon road, wandered from his home on Saturday morning, and although a careful search was made for him Saturday and yesterday, he was not located until late last evening.

During last summer Crofts went to the home of his sister in Iowa, and during his stay there became ill with typhoid fever. His condition was very low, and when he recovered his mind had been effected. He was brought to this city during December by his father, and his condition was much improved. Saturday morning he left his home and walked to Wellsville. At that place several relatives requested him to go to their homes but he declined. Saturday night he slept in a kiln at the Lyth works and where he obtained food cannot be learned as he had no money. His father and several neighbors were in the city searching for him yesterday, but failed to find him. This morning Mayor Bough received word that the young man returned to his home late last evening, and his return was caused by the intense hunger which he endured.

NOT A PRISONER.

Police Business Is Slow With Promise of an Increase.

Business in Mayor Bough's court this morning was very slow and not one arrest was made Saturday yesterday or this morning. There were very few drunks on the streets Saturday evening and they did not make enough trouble to cause their arrest. The jail is empty.

The trial of William Morrow, charged with permitting gambling on his premises, will be heard before Mayor Bough Wednesday at 2 o'clock. A number of witnesses have been summoned in the case.

The trial of Samuel Conkle charged with being a common gambler will be heard tomorrow afternoon at 2 o'clock. It is thought a settlement will be effected and if not the matter will be carried to court immediately.

NOTHING NEW

Has Come From the East Regarding the Potteries.

A leading manufacturer stated this morning that nothing new had come from the east, but matters would go on as had been planned. In his belief the settlement would be reached before Saturday, as the work of checking the inventories is being rapidly closed up.

A number of potteries were this morning added to the list of those already in operation, and it is believed shipments will steadily increase. The stock is large at some plants, and as soon as it is reduced the clay hands will be put at work. Orders are by no means scarce, and the number of travelers who have already taken to the road will materially increase the number.

POSTAL TELEGRAPH

May Establish an Office in This Place Soon.

It is probable the Postal Telegraph company will establish an office in this city within the next two months.

The company has had several officers in the city within the past few weeks surveying the territory who have reported favorable to the company. The nearest office of the company to this city is in East Palestine and should the office be opened the line will be from this place to Palestine. The cost of the improvement will be in the neighborhood of \$2,000.

REFUSED AN OFFER

Robert Hall Also Denied the Story of a New Hotel.

A rumor was afloat in the city today to the effect that Pittsburg capitalists had obtained an option upon the property of Robert Hall at the corner of Broadway and Kossuth streets, and would erect a handsome hotel. The option was supposed to be \$30,000.

Mr. Hall was seen this morning and stated that there was no truth in the report, but that he had received an offer from local capitalists which he refused.

DR. G. B. SMITH

Has returned to the city, and can be consulted at his office in the Porter building.

Lifeboats of the World.

The lifeboat service is one of the very noblest of philanthropic institutions, and many civilized nations pay special attention to these means for the rescue of perishing mariners. England's lifeboat service is a voluntary one. The Royal National Lifeboat Institution, which controls the bulk of British lifeboats, was founded in 1824. It now has over 300 lifeboats on the shores of the kingdom, and has been instrumental in saving nearly 30,000 lives. The French lifeboat service was established in 1865, and has 83 stations, while it has been the means of saving over 900 vessels and 7,500 lives.

The French service has one great advantage over ours. It is that the public board of works always builds the first lifeboat house at each station as it is established, consequently relieving the service of a great outlay. The German service was established in 1865, and has 104 lifeboat stations. The United States has 233 lifeboat stations. The cost of the United States service is about \$290,000 a year.—London Tit-Bits.

Conan Doyle on Golf.

"My dear sir," writes Conan Doyle to an English friend, "pray present my compliments to the Ormeau Golf club and wish them from me a very happy evening. I am myself an intermittent golfer, getting very violent attacks at regular intervals. It usually takes me about two months to convince myself that I shall never be any good, and then I give it up until a fresh burst of energy sets me trying once more. I played in Egypt until they told me that excavators had to pay a special tax. I inaugurated a private course in Vermont also, and the Yankee farmers asked us what we were boring for. If ever the Ormeau club should wish any part of their links returned, I could undertake in a few games to clear away any sod now existing."

Took Her In.

"Yes," said the business man, "I have given up trying to collect that little bill from Bilkins. You see, he is a pretty big, husky fellow, and he used to throw my collectors out."

"Then why didn't you employ a woman collector? He couldn't do that to a woman."

"That's what I thought. So I got one and sent her around, but she never came back."

"Why not?"

"He married her."—Chicago Post.

New Way to Catch Rabbits.

Not in ten years have white and gray rabbits been so common in Allegany county, N. Y., and hunters are having great sport. One Bolivar man has already shot 12, and others have killed 100. Both dogs and ferrets are used. The small boys have invented a new way of catching rabbits. They track a rabbit to its hole, put a piece of half inch hose, 4 feet in length, into the mouth of the hole and yell through it. The noise in the hole almost scares the life out of the rabbit, and it comes bounding out and jumps into a bag held over the mouth of the hole. Hundreds of rabbits have been trapped this way within the past month.—Exchange.

How to Dissect a Mosquito.

A needle held in the left hand is passed through the thorax, the legs and wings are pulled off, and if necessary the scales of the body brushed off with a camel's hair brush. The tail is then lowered into a drop of water, salt solution or weak formalin, placed on a glass slide, and with another needle held in the right hand the last two segments of the tail are partially separated and held down upon the slide. The left hand is then moved in such a manner as to draw away the insect.—Major Ross, I. M. S., in Indian Medical Gazette.

Dinkelspiel to Dewey.

Vell, Chorge, how vas gedding on, Avay so many miles?
Und how vas eferdyings about Dem Phillypeanuts Isles?
Dot fellow Nagginado, he
Vas preddy fresh, I guess!
I dink in yust about a week
Dare'll be un dago less
If he keeps fooling mit you, Chorge,
Und dare vill be also
Gold collars mit no neck to fit
Down ad Hellohello!

Vell, Chorge, half Hopson got dare yet?
If not, he vill some day.
Proffing dot too many girls
Dond stob him on der way,
Und ven he does ged out dare py
Dem Phillypeanuts Isles
I vish dot all dem natif girls
Vould dress up in dare smiles
Und meed him down dare py der shore
Und show him de doand know
Vot kissing is undil he got
Ouid py Hellohello!

Vell, Chorge, und dit you heard der news?
Vas id py cable sent
Dey was going to make you run
To be der president?
Dey half id all fixed up, und on
Der tigget dare mit you
Dey put a friend of yours—his name
Is Gif Dem Fitz Lee Hugh!
Und if you are nod busy, Chorge,
Yust come right home und go
Und run for president und shook
Dot tam Hellohello!

Vell, Chorge, auf weidersehn, mein friend.
Und also, too, wie geht's?
I hobe dot fery soon you'll come
Pack py der Union Sdaes.
Und ven you are der president,
Mit Gif Dem Fitz Lee Hugh,
Perhaps I'll gif you some advice
Und told you vot to do.
For you haf been so long ouid dare,
Vare eferdyings is slow,
You'll need some pointers ven you come
Pack from Hellohello!
—Baltimore American.

GERONIMO GROWING INSANE

His Long Confinement Is Slowly Undermining His Mind.

Geronimo, the old Indian fighter, is slowly losing his mind. He occasionally takes a ride out over the reservation, but is never allowed to go unaccompanied by a guard. The eternal vigilance is wearing away his mind. He does not rave, but has begun to have spells of moroseness, during which he will talk to no one, but acts strangely, as only one mentally unbalanced does.

In his time Geronimo caused the western settlers and the government more trouble than any other Indian. He became tractable since his capture and confinement, some ten years ago, and evinces no desire again to go upon the warpath. His was a generalship which, with any reasonable chance, was more than a match for many an army officer, but his active mind is giving way as much from inaction as from any other cause. He no longer plans imaginative campaigns, as he did for a long time while in confinement in Alabama. Even yet he is never freed from the constant eye of a guard, and this is said to be the greatest punishment for great men who have suffered exile. Napoleon often spoke of it, and now all France is fighting pro and con concerning a man on Devil's island who is suffering in the same way.

Geronimo tries to make himself as agreeable as he knows how to those about him. A soldier does not pace to and fro before a cell where he is confined, but he remains within his tepee with his family; yet the eye of a guard is never removed from the spot. All during the Santiago campaign a troop of cavalry was stationed at Fort Sill, and now a troop from the Tenth cavalry (negro) is on duty there, having been sent there from Fort Reno. An Indian hates a "buffalo soger," yet Geronimo has made no complaint.—Special Cor. New York Press.

TRIED TO GIVE HIM LEPROSY.

Filipinos Inject a Leper's Blood Into an American Soldier's Veins.

William Lapeer recently returned to Richmond, S. D., to die of leprosy, which, it is feared, he contracted while serving with his regiment in the Philippines.

Lapeer is the 22-year-old son of a Union county farmer. He went to Manila last spring with Colonel Frost's South Dakota regiment. While seeing the sights soon after his arrival there he gave offense to a native aristocrat whom he met in a low drinking resort. The latter's friends succeeded in separating Lapeer from his companions, plied him with drugged liquor and carried his unconscious form to a house in the native quarter, where blood from a leper was injected into a vein in one of his arms.

When he realized what had been done to him, Lapeer was so horrified that he nearly died from pure nervous shock. He fell into a violent fever and was finally sent home. He will probably be discharged. Local physicians do not pretend to say what will be the result of the treatment to which he was subjected, as they do not know whether leprosy can be so transmitted. They are fearful of the effects of the experiment, but say it may be several months before the disease will manifest itself. The patient would be sent to New York for examination by experts, but is suffering from nervous prostration and too ill to be moved.—Special New York World.

ODD WAY TO BREAK A BONE.

Ward Wemple Breaks His Arm Putting on His Sister's Overshoes.

A few days ago Ward Wemple, the 12-year-old son of Charles Wemple of New Brighton, N. Y., fractured his arm in a peculiar manner, and Dr. William C. Walser, his attending physician, says that there is only one case of a similar character on record. The boy was putting on his sister's overshoes and, in giving one of the rubbers a sudden jerk, hurt his left arm near the shoulder. He persisted that his arm was broken, although the members of his family would not believe it at first.

Dr. Walser was called in and found the member fractured near the shoulder. The bone was broken by the spasmodic contraction of the large muscle on the shoulder. In order to show the case to the medical staff of the Smith infirmary Dr. Walser summoned the doctors together the other day at the hospital and subjected the break to the X rays. Dr. Walser says the only similar case he is able to find is that of a child who was taking a picture from a wall and a fracture of the same nature resulted from a sudden twist of the arm.—Exchange.

Refuses Trephra Prison Fare.

Joseph Cohen, a Russian Hebrew of Hamilton, O., indicted by the last grand jury for the alleged theft of \$15 from Michael Shelly of Middletown, O., is puzzling his jailers as to how he subsists on his slender diet. He refuses to eat anything but bread and onions, disdaining the usual prison fare. He says that his religion will not allow him to eat anything not cooked according to its custom, and that rather than sacrifice his religion he will continue on with the bread and onions.

A Newcastle (England) man wrote this to the editor on a postal card: "What do, Mr. Editor, what price this? If the mouth is the window of the intellect, toothache must be a sort of window pain."

THE NEWS REVIEW

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others? The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card ask for it when making purchases.

ONE-THIRD ACTUAL SIZE
COLOR IS CHANGED EACH QUARTER
Good only a spring months named in lower left hand corner. Properly signed, and STAMPED with the number of the label.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

The Journeymen Tailors' Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has a label from his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden

COPE IS NOT GUILTY

But He Must Do Better In the Future.

HE RETAINS HIS CERTIFICATE

The Teacher Charged With Immoral Conduct Brought a Lot of Evidence Before the County Examiners, as to His Good Character, and Saved Himself.

LISBON, Jan. 23. — [Special] — The hearing of the evidence in the case of Lauren Cope, the school teacher charged with immoral conduct, was completed by the county board of examiners at 5 o'clock Saturday. The arguments of attorneys required some time and the board adjourned, promising to deliver an opinion at 8 o'clock.

On the part of the defense almost all charges of the plaintiffs were denied, and evidence given of a moral character in behalf of the teacher by former pupils, teachers and schoolmates, and neighbors and acquaintances from his old home in St. Clair township. The attendance at the trial was large, and at 7:30 the court room was filled to hear the opinion of the examiners. It was 8:45 o'clock, however, before they appeared, when Professor McDonald, chairman, read from a manuscript a brief opinion on the merits of the case, which he explained was the unanimous opinion of the board. It is as follows:

"After having reviewed the testimony the board is unanimously of the opinion that the charges of immorality against Mr. Cope are not sustained, but we do find that the defendant has been guilty of indiscreet actions and coarse and immodest language in the presence of his pupils. He lacks refinement and that dignified manner that should characterize a true teacher."

Cope is therefore permitted to retain his certificate.

NASH AT THE Y. M. C. A.

You Will Never Regret Hearing the Evangelist.

Evangelist Nash addressed a large audience of men at the Y. M. C. A. rooms Sunday afternoon. His theme was "Individual Effort." He made out a strong case in favor of this class of work in reaching the masses of our young men, especially the industrial class. He spoke of the awful neglect of employers in not caring for the immortal part of their workmen and workwomen. He believes that if Christ should come among us today, there would be no place so vile that he would not try to reach and save the human souls working or staying therein. Nash is earnest and practical. He believes that any man, no matter how wicked or depraved he may be, can safely be approached on the subject of his future life and happiness, if he or she who approaches him does so with a heart charged with true and genuine love and sympathy.

During this week bible meetings will be held every afternoon in the Y. M. C. A. room, commencing at 5 and lasting until 5:45. Meetings commencing at 8 o'clock will also be held in the room each night this week. You have a cordial invitation and will be given a hearty welcome.

NARROW ESCAPES

Because Motormen Refuse to Sound Their Gongs.

The ordinance requiring motormen to ring gongs on all street crossings should be enforced.

Yesterday afternoon a man, with his wife and child, drove into Sixth street from Jackson street, and only missed a car by a few inches by putting his horse to a gallop. Another party narrowly escaped being run down at the corner of Washington and Third streets. In both instances the motormen were not ringing the gongs.

On the River.

The Ohio river continues to fall, and the marks at the wharf this morning registered 8 6 feet.

The Sunday boats, Ben Hur, Kana-wha and Keystone State, went up on time yesterday, and all enjoyed fair trips, of food and passengers.

The Clifton went down yesterday with five flats of coal. It was the only boat to go south. The towboat, J. N. Benton, went up with empties yesterday evening.

Business at the wharf at present is very slow.

In a New Position.

Thomas Darragh, late of the Specialty Glass company, left today for Ellwood, Pa., where he has taken a position. He will move his family to that city in the near future.

HEDIN'S NEW EXPEDITION.

Noted Swedish Explorer to Penetrate the Most Unknown Parts of Asia.

Dr. Sven Hedin, the well known Swedish explorer, who some time ago made a long and adventurous journey through central Asia, is planning a new expedition. His intention is to try to penetrate the most unknown parts of Asia. It is intended that the new jour-

DR. SVEN HEDIN.

ney shall begin next spring, and now also the starting point proper will be Kashgar. Dr. Hedin will cross the Taklamakan desert in two different directions, study one of the largest rivers in east Turkestan and explore certain parts of the Lopnor district. He will try to penetrate the unknown northern and central parts of Tibet, in the highlands of which country, at an altitude of about 16,000 feet, he may also spend a winter.

From Tibet he will go to India, and he has several times consulted Lord Curzon, the new viceroy of India, about this part of the programme. The return from India will be made over Himalaya, Karakorum and Kashgar. The proposed trip will take about three years, and the expenses will amount to about \$10,700. Dr. Hedin expects much assistance from the Russian authorities and counts particularly on the interest which the czar has shown in his plans. —E. Johnson in Chicago Record.

The Flying Fox.

The flying fox is a very curious inhabitant of the forest near Moreton bay, in east Australia. It lives in flocks and moves generally toward the dusk of the evening, and the noise produced by the heavy flapping of the so called wings is very singular. The flocks like quiet places, where there are large araucarian pine trees, with an underwood of scrub and creepers. The foxes hang in vast numbers from horizontal branches of the pine trees.

When there is a clear space among the trees, an enormous number of the animals may be seen, and their noise can be heard, for directly they see anything unusual they utter a short bark, something like the sound made by young rooks. Often every branch is crowded, and the young foxes are seen either flapping their wings and holding on with their hind feet and with their heads downward or snarling and fighting for places.

Suddenly the whole take to flight and flap their furry, winglike sides and wheel around like heavy birds. Many fly with their young holding on to them.

The creature is not a true fox, and there is a fold of skin which reaches from the fore to the hind legs. This is called the wing, and it enables the pteropus, as the animal is called, to float and turn in the air. —Philadelphia Press.

Kirghiz Music.

One of the Kirghiz came into my tent, and, squatting down, began to play the kaumuss, a three stringed instrument played with the fingers. The music was monotonous and of a melancholy cadence, but it harmonized well with the surroundings and the moods they inspired. In a word, it was typically Asiatic. I sat and listened to it with pleasure, giving my imagination captive to the music, the soft moaning of the night wind, the gentle crackle of the fire. How many and many a night did I not spend thus during the long years that followed listening to the dreamy sounds of that primitive Kirghiz instrument!

How many a dark, solitary winter afternoon did I not while away in this foolish fashion! In course of time I grew accustomed to the kaumuss and derived as much pleasure from it as the Kirghiz did themselves. In fact, I grew fond of it. Its soothing music carried my mind away into the fairy realms of day dreams. My thoughts flew far away to my home amid the dark pine woods of Sweden. —Sven Hedin in "Through Asia."

An Antenuptial Understanding.

"There is one question I want to ask you, dearest," said the beautiful girl as she toyed with the diamond ring on her third finger. "When we are married, will you expect me to bake my own bread?"

"You can do as you like about it, darling," he replied, "but I certainly shall insist upon your not baking mine." —Chicago News.

Aristocracy of Doldrom.

"My doll can shut her eyes and go to sleep just lovely."

"Hub! My doll never goes to sleep at all; she's got insomnia." —Chicago Record.

THE NATIONAL CAPITAL.

Exhibition of General Grosvenor's Abilities as an Athlete.

DR. CLARDY'S MEDITATIVE HABITS

How They Played the Kentucky Representative a Trick Recently. Why General Shafter Did Not Get on to the Floor of the House—President's Greeting to Boys.

When the antics had displayed such numerical strength against civil service recently in the house, says the Washington Post, joy entered the soul of General Grosvenor of Ohio. For several years he has borne the shock of oratorical encounter in the house when the date for the annual debate on civil service came. General Grosvenor expected defeat when the house reached a test vote, but it made him 20 years younger when the big Republican vote was announced.

The other day the Ohioan pranced about the house like a 2-year-old. There was a firmer tone in his voice as he saluted the civil service advocates. Finally he pranced out into the rear lobby, where the young son of Representative Thaddeus Mahon of Pennsylvania was playing.

"Can you run, my lad?" inquired the white haired veteran.

"Yes, sir," replied the boy, rather surprised.

"I will enter a race with you for the length of this lobby and back again," proposed the general.

Down the long stretch of the lobby tore the portly statesman in his Prince Albert and the youth in knee trousers. The congressional bystanders glanced in with some alarm through the glass door, lest Speaker Reed's wrath might be brought down upon the athletes. Turning for the homestretch General Grosvenor's white locks flew along behind his well shaped head. The boy dug the dust out of the carpet and won the first heat by a full yard.

"I will run you another," panted the general, and away the two flew for another trial of speed. General Grosvenor, like a man who had got his second wind, fairly flew, and Master Mahon fell behind before they returned to the starting point. Several times again they ran, but the racing was nip and tuck and neither is yet satisfied that the other is the swifter.

Dr. John D. Clardy of Kentucky is one of the most staid and conservative representatives from the Blue Grass State, according to the Washington Post. His full white beard, gold rimmed eyeglasses and always sober countenance contribute to the air of a legislative solon. Dr. Clardy sits almost constantly in his seat in the first row on the Democratic side, watches the proceedings and meditates.

His habits of meditation, however, played him a trick the other day. Dr. Clardy was riding to the house in the trailer of a capital traction train. He was absorbed in thought, from which he was recalled by the jostling of the car as it rounded the curves near the Garfield statue.

"Stop! Stop!" he cried to the conductor as he rushed out the rear door. Dr. Clardy thought the car was turning down Eighth street toward the marine barracks.

The good natured conductor threw his arms about the Kentuckian, who looked around, saw the white structure of the capitol, and laughed as he returned to his seat. After he had ridden up the hill to New Jersey avenue the physician and legislator thanked the conductor for saving him from a rash fall.

Major General Shafter appeared in statuary hall at Washington the other day soon after the session of the house began. General Wheeler, hearing of Shafter's arrival, hurried out and joined him.

"Come on, general!" said the impulsive Wheeler, leading the way to the floor of the house. Then the question arose as to the right of Shafter to the floor. "I'll settle that," said Wheeler, and he rushed back to the house and appealed personally to Speaker Reed. The speaker reached for the rules of the house and turned to the rigid provision keeping every one out except the few expressly designated.

"But this is Shafter," said Wheeler. The speaker pointed out that the rule was imperative. "Then let the house of representatives take a recess," said the general, "while members meet General Shafter." Speaker Reed assumed a new dignity. "General Wheeler," said he, "the house of representatives of the United States is bigger than any major general." So General Shafter did not get in.

When the president was returning from his afternoon drive recently, he was recognized by a group of boys who were skimming over Vermont avenue on roller skates, says the Chicago Record. They yelled "Hurrah for McKinley!" and started after him. Although the horses were going rapidly the youngsters soon overhauled the president's landau, and seizing hold of the sides and the back and the hind axle allowed

themselves to be dragged along over the pavement until the driver pulled up under the portico of the White House. As the president left the carriage he took off his hat as politely as if they had been fellow sovereigns and said, "Boys, I hope you had a good ride."

The Mad Poet's Retort.

Many stories are told of McDonald Clarke, known 50 years ago in New York as the "Mad Poet," which show that he had a vein of great shrewdness, such as is often possessed by people who are counted insane.

One day he was seated at a table in a New York hotel quietly eating his simple dinner when two young men took their seats at the same table. They were not gentlemen in the best sense of the word, and it occurred to them that they might have some sport with the poor poet. Consequently one of them said in an unnecessarily clear tone:

"I have seen almost everything and everybody in New York except McDonald Clarke. I have a great admiration for his poems, and I would give a great deal to see the man."

When he paused, the mad poet leaned forward and said with evident gratification:

"Sir, I am McDonald Clarke, whom you say you wish to see."

The young man stared at him with much rudeness for a moment, and then, drawing a quarter from his pocket, he laid it on the poet's plate, saying, "That's for the sight!"

Clarke looked at the coin for an instant, and then, placing it in his pocket, he took out a "York shilling," 12½ cents. This he handed to the young man, saying gravely, "Children half price." —Youth's Companion.

A Decidedly Novel Claim.

A claim once made on the explorer, Cameron, in the neighborhood of Gaboon, Africa, shows the peculiar workings of the native African's mind. Some of Cameron's possessions proved unduly attractive to a native, and he determined on transferring the ownership to himself. He accordingly paid another native \$200 to procure for him the coveted goods.

The assistant took the money and did his best to earn it, but Mr. Cameron had perversely locked up the very articles that the fellow's employer had set his heart upon. The man could not carry out his bargain, and neither did he feel that he could part with the money. Therefore he ran off with it. What more logical than that the man who was the loser by \$200 should expect the explorer to make the loss good? This he assuredly did expect.

He went to Mr. Cameron and told him the story, demanding in the first place the \$200 which he, Cameron, by locking up his goods, had compelled the complainant to lose, and, secondly, the actual price of the goods themselves, which, but for these arbitrary measures, would now have been in his possession. It is not stated that his expectations were realized. —Watchman.

Sterne's Destitution.

Laurence Sterne, the writer, was the victim of the intensest poverty. A little time before his death, being in a state of destitution, he went one evening to borrow £5 from his friend Garriek. Upon arriving, he heard music and knew that a party was going on. He heard the merry laughter, and, gently replacing the uplifted knocker, retraced his steps.

We never feel our miseries so keenly as when contrasted with the joys of others, and it is only then that we realize Wordsworth's picture:

And homeless near a thousand homes I stood
And near a thousand tables pined for food.

Another story of this writer does not evoke so much sympathy. It was known that Sterne used his wife very ill, and in talking with Garriek one day in fine sentimental style of conjugal love and fidelity he said, "The husband who behaves unkindly to his wife deserves to have his house burn down over his head."

"If you think so," said Garriek quietly, "I hope yours is well insured."

A Malay Sultan's Letter.

In the cover there were three inclosures—a formal letter of extreme politeness, written by a scribe; secondly, a letter written in my friend's own hand; and thirdly, another paper, headed, "Hidden Secrets," written also in the sultan's own hand. At the top of the first page of the second letter is written, "Our friendship is sealed in the inmost recesses of my heart." Then this, "I send this letter to my honored and renowned friend" (here follow my name, designation and some conventional compliments). The letter then continues: "You, my dear friend, are never out of my thoughts, and they are always wishing you well. I hear that you are coming to see me, and for that reason my heart is exceedingly glad, as though the moon had fallen into my lap or I had been given a cluster of flowers grown in the garden called Benjerana Sri, wide opening under the influence of the sun's warm rays." —"Unaddressed Letters," by Swettenham.

It Is Give and Take.

HE RETAINS HIS CERTIFICATE

The Teacher Charged With Immoral Conduct Brought a Lot of Evidence Before the County Examiners, as to His Good Character, and Saved Himself.

LISBON, Jan. 23. — [Special] — The hearing of the evidence in the case of Lauren Cope, the school teacher charged with immoral conduct, was completed by the county board of examiners at 5 o'clock Saturday. The arguments of attorneys required some time and the board adjourned, promising to deliver an opinion at 8 o'clock.

On the part of the defense almost all charges of the plaintiffs were denied, and evidence given of a moral character in behalf of the teacher by former pupils, teachers and schoolmates, and neighbors and acquaintances from his old home in St. Clair township. The attendance at the trial was large, and at 7:30 the court room was filled to hear the opinion of the examiners. It was 8:45 o'clock, however, before they appeared, when Professor McDonald, chairman, read from a manuscript a brief opinion on the merits of the case, which he explained was the unanimous opinion of the board. It is as follows:

"After having reviewed the testimony the board is unanimously of the opinion that the charges of immorality against Mr. Cope are not sustained, but we do find that the defendant has been guilty of indiscreet actions and coarse and immodest language in the presence of his pupils. He lacks refinement and that dignified manner that should characterize a true teacher."

Cope is therefore permitted to retain his certificate.

NASH AT THE Y. M. C. A.

You Will Never Regret Hearing the Evangelist.

Evangelist Nash addressed a large audience of men at the Y. M. C. A. rooms Sunday afternoon. His theme was "Individual Effort." He made out a strong case in favor of this class of work in reaching the masses of our young men, especially the industrial class. He spoke of the awful neglect of employers in not caring for the immortal part of their workmen and workwomen. He believes that if Christ should come among us today, there would be no place so vile that he would not try to reach and save the human souls working or staying therein. Nash is earnest and practical. He believes that any man, no matter how wicked or depraved he may be, can safely be approached on the subject of his future life and happiness, if he or she who approaches him does so with a heart charged with true and genuine love and sympathy.

During this week bible meetings will be held every afternoon in the Y. M. C. A. room, commencing at 5 and lasting until 5:45. Meetings commencing at 8 o'clock will also be held in the room each night this week. You have a cordial invitation and will be given a hearty welcome.

NARROW ESCAPES

Because Motormen Refuse to Sound Their Gongs.

The ordinance requiring motormen to ring gongs on all street crossings should be enforced.

Yesterday afternoon a man, with his wife and child, drove into Sixth street from Jackson street, and only missed a car by a few inches by putting his horse to a gallop. Another party narrowly escaped being run down at the corner of Washington and Third streets. In both instances the motormen were not ringing the gongs.

On the River.

The Ohio river continues to fall, and the marks at the wharf this morning registered 8.6 feet.

The Sunday boats, Ben Hur, Kanawha and Keystone State, went up on time yesterday, and all enjoyed fair trips, both of freight and passengers.

The Clifton went down yesterday with five flats of coal. It was the only boat to go south. The towboat, J. N. Benton, went up with empties yesterday evening.

Business at the wharf at present is very slow.

In a New Position.

Thomas Darragh, late of the Specialty Glass company, left today for Ellwood, Pa., where he has taken a position. He will move his family to that city in the near future.

HEDIN'S NEW EXPEDITION.

Noted Swedish Explorer to Penetrate the Most Unknown Parts of Asia.

Dr. Sven Hedin, the well known Swedish explorer, who some time ago made a long and adventurous journey through central Asia, is planning a new expedition. His intention is to try to penetrate the most unknown parts of Asia. It is intended that the new jour-

DR. SVEN HEDIN.

ney shall begin next spring, and now also the starting point proper will be Kashgar. Dr. Hedin will cross the Taklamakan desert in two different directions, study one of the largest rivers in east Turkestan and explore certain parts of the Lopnor district. He will try to penetrate the unknown northern and central parts of Tibet, in the highlands of which country, at an altitude of about 16,000 feet, he may also spend a winter.

From Tibet he will go to India, and he has several times consulted Lord Curzon, the new viceroy of India, about this part of the programme. The return from India will be made over Himalaya, Karakorum and Kashgar. The proposed trip will take about three years, and the expenses will amount to about \$10,700. Dr. Hedin expects much assistance from the Russian authorities and counts particularly on the interest which the czar has shown in his plans. —E. Johnson in Chicago Record.

The Flying Fox.

The flying fox is a very curious inhabitant of the forest near Moreton bay, in east Australia. It lives in flocks and moves generally toward the dusk of the evening, and the noise produced by the heavy flapping of the so called wings is very singular. The flocks like quiet places, where there are large araucarian pine trees, with an underwood of scrub and creepers. The foxes hang in vast numbers from horizontal branches of the pine trees.

When there is a clear space among the trees, an enormous number of the animals may be seen, and their noise can be heard, for directly they see anything unusual they utter a short bark, something like the sound made by young rooks. Often every branch is crowded, and the young foxes are seen either flapping their wings and holding on with their hind feet and with their heads downward or snarling and fighting for places.

Suddenly the whole take to flight and flap their furry, winglike sides and wheel around like heavy birds. Many fly with their young holding on to them.

The creature is not a true fox, and there is a fold of skin which reaches from the fore to the hind legs. This is called the wing, and it enables the pteropus, as the animal is called, to float and turn in the air. —Philadelphia Press.

Kirghiz Music.

One of the Kirghiz came into my tent, and, squatting down, began to play the kaumuss, a three stringed instrument played with the fingers. The music was monotonous and of a melancholy cadence, but it harmonized well with the surroundings and the moods they inspired. In a word, it was typically Asiatic. I sat and listened to it with pleasure, giving my imagination captive to the music, the soft moaning of the night wind, the gentle crackle of the fire. How many and many a night did I not spend thus during the long years that followed listening to the dreamy sounds of that primitive Kirghiz instrument!

How many a dark, solitary winter afternoon did I not while away in this foolish fashion! In course of time I grew accustomed to the kaumuss and derived as much pleasure from it as the Kirghiz did themselves. In fact, I grew fond of it. Its soothing music carried my mind away into the fairy realms of day dreams. My thoughts flew far away to my home amid the dark pine woods of Sweden. —Sven Hedin in "Through Asia."

An Antenuptial Understanding.

"There is one question I want to ask you, dearest," said the beautiful girl as she toyed with the diamond ring on her third finger. "When we are married, will you expect me to bake my own bread?"

"You can do as you like about it, darling," he replied, "but I certainly shall insist upon your not baking mine." —Chicago News.

Aristocracy of Doldrom.

"My doll can shut her eyes and go to sleep just lovely."

"Hob! My doll never goes to sleep at all; she's got insomnia." —Chicago Record.

THE NATIONAL CAPITAL.

Exhibition of General Grosvenor's Abilities as an Athlete.

DR. CLARDY'S MEDITATIVE HABITS

How They Played the Kentucky Representative a Trick Recently. Why General Shafter Did Not Get on to the Floor of the House—President's Greeting to Boys.

When the antis had displayed such numerical strength against civil service recently in the house, says the Washington Post, joy entered the soul of General Grosvenor of Ohio. For several years he has borne the shock of oratorical encounter in the house when the date for the annual debate on civil service came. General Grosvenor expected defeat when the house reached a test vote, but it made him 20 years younger when the big Republican vote was announced.

The other day the Ohioan pranced about the house like a 2-year-old. There was a firmer tone in his voice as he saluted the civil service advocates. Finally he pranced out into the rear lobby, where the young son of Representative Thaddeus Mahon of Pennsylvania was playing.

"Can you run, my lad?" inquired the white haired veteran.

"Yes, sir," replied the boy, rather surprised.

"I will enter a race with you for the length of this lobby and back again," proposed the general.

Down the long stretch of the lobby tore the portly statesman in his Prince Albert and the youth in knee trousers. The congressional bystanders glanced in with some alarm through the glass door, lest Speaker Reed's wrath might be brought down upon the athletes. Turning for the homestretch General Grosvenor's white locks flew along behind his well shaped head. The boy dug the dust out of the carpet and won the first heat by a full yard.

"I will run you another," panted the general, and away the two flew for another trial of speed. General Grosvenor, like a man who had got his second wind, fairly flew, and Master Mahon fell behind before they returned to the starting point. Several times again they ran, but the racing was nip and tuck and neither is yet satisfied that the other is the swifter.

Dr. John D. Clardy of Kentucky is one of the most staid and conservative representatives from the Blue Grass State, according to the Washington Post. His full white beard, gold rimmed eyeglasses and always sober countenance contribute to the air of a legislative solon. Dr. Clardy sits almost constantly in his seat in the first row on the Democratic side, watches the proceedings and meditates.

His habits of meditation, however, played him a trick the other day. Dr. Clardy was riding to the house in the trailer of a capital traction train. He was absorbed in thought, from which he was recalled by the jostling of the car as it rounded the curves near the Garfield statue.

"Stop! Stop!" he cried to the conductor as he rushed out the rear door. Dr. Clardy thought the car was turning down Eighth street toward the marine barracks.

The good natured conductor threw his arms about the Kentuckian, who looked around, saw the white structure of the capitol, and laughed as he returned to his seat. After he had ridden up the hill to New Jersey avenue the physician and legislator thanked the conductor for saving him from a rash fall.

Major General Shafter appeared in statuary hall at Washington the other day soon after the session of the house began. General Wheeler, hearing of Shafter's arrival, hurried out and joined him.

"Come on, general!" said the impulsive Wheeler, leading the way to the floor of the house. Then the question arose as to the right of Shafter to the floor. "I'll settle that," said Wheeler, and he rushed back to the house and appealed personally to Speaker Reed. The speaker reached for the rules of the house and turned to the rigid provision keeping every one out except the few expressly designated.

"But this is Shafter," said Wheeler. The speaker pointed out that the rule was imperative. "Then let the house of representatives take a recess," said the general. "While members meet General Shafter." Speaker Reed assumed a new dignity. "General Wheeler," said he, "the house of representatives of the United States is bigger than any major general." So General Shafter did not get in.

When the president was returning from his afternoon drive recently, he was recognized by a group of boys who were skimming over Vermont avenue on roller skates, says the Chicago Record. They yelled "Hurrah for McKinley!" and started after him. Although the horses were going rapidly the youngsters soon overhauled the president's landau, and seizing hold of the sides and the back and the hind axle allowed

themselves to be dragged along over the pavement until the driver pulled up under the portico of the White House. As the president left the carriage he took off his hat as politely as if they had been fellow sovereigns and said, "Boys, I hope you had a good ride."

The Mad Poet's Retort.

Many stories are told of McDonald Clarke, known 50 years ago in New York as the "Mad Poet," which show that he had a vein of great shrewdness, such as is often possessed by people who are counted insane.

One day he was seated at a table in a New York hotel quietly eating his simple dinner when two young men took their seats at the same table. They were not gentlemen in the best sense of the word, and it occurred to them that they might have some sport with the poor poet. Consequently one of them said in an unnecessarily clear tone:

"I have seen almost everything and everybody in New York except McDonald Clarke. I have a great admiration for his poems, and I would give a great deal to see the man."

When he paused, the mad poet leaned forward and said with evident gratification:

"Sir, I am McDonald Clarke, whom you say you wish to see."

The young man stared at him with much rudeness for a moment, and then, drawing a quarter from his pocket, he laid it on the poet's plate, saying, "That's for the sight!"

Clarke looked at the coin for an instant, and then, placing it in his pocket, he took out a "York shilling," 12½ cents. This he handed to the young man, saying gravely, "Children half price." —Youth's Companion.

A Decidedly Novel Claim.

A claim once made on the explorer, Cameron, in the neighborhood of Gaboon, Africa, shows the peculiar workings of the native African's mind. Some of Cameron's possessions proved unduly attractive to a native, and he determined on transferring the ownership to himself. He accordingly paid another native \$200 to procure for him the coveted goods.

The assistant took the money and did his best to earn it, but Mr. Cameron had perversely locked up the very articles that the fellow's employer had set his heart upon. The man could not carry out his bargain, and neither did he feel that he could part with the money. Therefore he ran off with it. What more logical than that the man who was the loser by \$200 should expect the explorer to make the loss good? This he assuredly did expect.

He went to Mr. Cameron and told him the story, demanding in the first place the \$200 which he, Cameron, by locking up his goods, had compelled the complainant to lose, and, secondly, the actual price of the goods themselves, which, but for these arbitrary measures, would now have been in his possession. It is not stated that his expectations were realized. —Watchman.

Sterne's Destitution.

Laurence Sterne, the writer, was the victim of the intensest poverty. A little time before his death, being in a state of destitution, he went one evening to borrow £5 from his friend Garriek. Upon arriving, he heard music and knew that a party was going on. He heard the merry laughter, and, gently replacing the uplifted knocker, retraced his steps.

We never feel our miseries so keenly as when contrasted with the joys of others, and it is only then that we realize Wordsworth's picture: And homeless near a thousand homes I stood And near a thousand tables pined for food.

Another story of this writer does not evoke so much sympathy. It was known that Sterne used his wife very ill, and in talking with Garriek one day in fine sentimental style of conjugal love and fidelity he said, "The husband who behaves unkindly to his wife deserves to have his house burn down over his head."

"If you think so," said Garriek quietly, "I hope yours is well insured."

Exhibition of General Grosvenor's Abilities as an Athlete.

DR. CLARDY'S MEDITATIVE HABITS

How They Played the Kentucky Representative a Trick Recently. Why General Shafter Did Not Get on to the Floor of the House—President's Greeting to Boys.

When the artis had displayed such numerical strength against civil service recently in the house, says the Washington Post, joy entered the soul of General Grosvenor of Ohio. For several years he has borne the shock of oratorical encounter in the house when the date for the annual debate on civil service came. General Grosvenor expected defeat when the house reached a test vote, but it made him 20 years younger when the big Republican vote was announced.

The other day the Ohioan pranced about the house like a 2-year-old. There was a firmer tone in his voice as he saluted the civil service advocates. Finally he pranced out into the rear lobby, where the young son of Representative Thaddeus Mahon of Pennsylvania was playing.

"Can you run, my lad?" inquired the white haired veteran.

"Yes, sir," replied the boy, rather surprised.

"I will enter a race with you for the length of this lobby and back again," proposed the general.

Down the long stretch of the lobby tore the portly statesman in his Prince Albert and the youth in knee trousers. The congressional bystanders glanced in with some alarm through the glass door, lest Speaker Reed's wrath might be brought down upon the athletes. Turning for the homestretch General Grosvenor's white locks flew along behind his well shaped head. The boy dug the dust out of the carpet and won the first heat by a full yard.

"I will run you another," panted the general, and away the two flew for another trial of speed. General Grosvenor, like a man who had got his second wind, fairly flew, and Master Mahon fell behind before they returned to the starting point. Several times again they ran, but the racing was nip and tuck and neither is yet satisfied that the other is the swifter.

Dr. John D. Clardy of Kentucky is one of the most staid and conservative representatives from the Blue Grass State, according to the Washington Post. His full white beard, gold rimmed eyeglasses and always sober countenance contribute to the air of a legislative solon. Dr. Clardy sits almost constantly in his seat in the first row on the Democratic side, watches the proceedings and meditates.

His habits of meditation, however, played him a trick the other day. Dr. Clardy was riding to the house in the trailer of a capital traction train. He was absorbed in thought, from which he was recalled by the jostling of the car as it rounded the curves near the Garfield statue.

"Stop! Stop!" he cried to the conductor as he rushed out the rear door. Dr. Clardy thought the car was turning down Eighth street toward the marine barracks.

The good natured conductor threw his arms about the Kentuckian, who looked around, saw the white structure of the capitol, and laughed as he returned to his seat. After he had ridden up the hill to New Jersey avenue the physician and legislator thanked the conductor for saving him from a rash fall.

Major General Shafter appeared in statutory hall at Washington the other day soon after the session of the house began. General Wheeler, hearing of Shafter's arrival, hurried out and joined him.

"Come on, general!" said the impulsive Wheeler, leading the way to the floor of the house. Then the question arose as to the right of Shafter to the floor. "I'll settle that," said Wheeler, and he rushed back to the house and appealed personally to Speaker Reed. The speaker reached for the rules of the house and turned to the rigid provision keeping every one out except the few expressly designated.

"But this is Shafter," said Wheeler. The speaker pointed out that the rule was imperative. "Then let the house of representatives take a recess," said the general, "while members meet General Shafter." Speaker Reed assumed a new dignity. "General Wheeler," said he, "the house of representatives of the United States is bigger than any major general." So General Shafter did not get in.

When the president was returning from his afternoon drive recently, he was recognized by a group of boys who were skimming over Vermont avenue on roller skates, says the Chicago Record. They yelled "Hurrah for McKinley!" and started after him. Although the horses were going rapidly the youngsters soon overhauled the president's landau, and seizing hold of the sides and the back and the hind axle allowed

themselves to be dragged along over the pavement until the driver pulled up under the portico of the White House. As the president left the carriage he took off his hat as politely as if they had been fellow sovereigns and said, "Boys, I hope you had a good ride."

The Mad Poet's Retort.

Many stories are told of McDonald Clarke, known 50 years ago in New York as the "Mad Poet," which show that he had a vein of great shrewdness, such as is often possessed by people who are counted insane.

One day he was seated at a table in a New York hotel quietly eating his simple dinner when two young men took their seats at the same table. They were not gentlemen in the best sense of the word, and it occurred to them that they might have some sport with the poor poet. Consequently one of them said in an unnecessarily clear tone:

"I have seen almost everything and everybody in New York except McDonald Clarke. I have a great admiration for his poems, and I would give a great deal to see the man."

When he paused, the mad poet leaned forward and said with evident gratification:

"Sir, I am McDonald Clarke, whom you say you wish to see."

The young man stared at him with much rudeness for a moment, and then, drawing a quarter from his pocket, he laid it on the poet's plate, saying, "That's for the sight!"

Clarke looked at the coin for an instant, and then, placing it in his pocket, he took out a "York shilling," 12½ cents. This he handed to the young man, saying gravely, "Children half price." —Youth's Companion.

A Decidedly Novel Claim.

A claim once made on the explorer, Cameron, in the neighborhood of Gaboon, Africa, shows the peculiar workings of the native African's mind. Some of Cameron's possessions proved unduly attractive to a native, and he determined on transferring the ownership to himself. He accordingly paid another native \$200 to procure for him the coveted goods.

The assistant took the money and did his best to earn it, but Mr. Cameron had perversely looked up the very articles that the fellow's employer had set his heart upon. The man could not carry out his bargain, and neither did he feel that he could part with the money. Therefore he ran off with it. What more logical than that the man who was the loser by \$200 should expect the explorer to make the loss good? This he assuredly did expect.

He went to Mr. Cameron and told him the story, demanding in the first place the \$200 which he, Cameron, by looking up his goods, had compelled the complainant to lose, and, secondly, the actual price of the goods themselves, which, but for these arbitrary measures, would now have been in his possession. It is not stated that his expectations were realized. —Watchman.

Sterne's Destitution.

Laurence Sterne, the writer, was the victim of the intensest poverty. A little time before his death, being in a state of destitution, he went one evening to borrow £5 from his friend Garriek. Upon arriving, he heard music and knew that a party was going on. He heard the merry laughter, and, gently replacing the uplifted knocker, retraced his steps.

We never feel our miseries so keenly as when contrasted with the joys of others, and it is only then that we realize Wordsworth's picture: And homeless near a thousand homes I stood And near a thousand tables pined for food.

Another story of this writer does not evoke so much sympathy. It was known that Sterne used his wife very ill, and in talking with Garriek one day in fine sentimental style of conjugal love and fidelity he said, "The husband who behaves unkindly to his wife deserves to have his house burn down over his head."

"If you think so," said Garriek quietly, "I hope yours is well insured."

A Malay Sultan's Letter.

In the cover there were three inclosures—a formal letter of extreme politeness, written by a scribe; secondly, a letter written in my friend's own hand; and thirdly, another paper, headed, "Hidden Secrets," written also in the sultan's own hand. At the top of the first page of the second letter is written, "Our friendship is sealed in the inmost recesses of my heart." Then this, "I send this letter to my honored and renowned friend" (here follow my name, designation and some conventional compliments). The letter then continues: "You, my dear friend, are never out of my thoughts, and they are always wishing you well. I hear that you are coming to see me, and for that reason my heart is exceedingly glad, as though the moon had fallen into my lap or I had been given a cluster of flowers grown in the garden called Benjerana Sri, wide opening under the influence of the sun's warm rays."—"Unaddressed Letters," by Swettenham.

It Is Give and Take.

They say the beautiful women in Cuba have already acquired the habit of throwing kisses at our soldiers and that our soldiers catch them every time and exchange shots. Otherwise everything is now on a strictly peace basis in Cuba. —Boston Herald.

THE NEWS REVIEW PRESS.

Finest Print Shop

IN EASTERN OHIO

We Print Everything.

From an Election Sticker to a 3-Sheet Poster.

HIGH GRADE COLOR PRINTING, ART CATALOGUES, EMBOSSING, HALF TONE WORK, IM. LITHOGRAPHY, IM. TYPE WRITER, &c., &c., &c.

WE AIM TO DO CAREFUL, CORRECT PRINTING, TO MAKE SOMETHING ATTRACTIVE.

OUR WORK EMBRACES

BAKERY RE-OPENED.

After our recent fire we are again ready for business in the Finest and Cleanest bake shop in the city.

No Roaches or Bed Bugs.

Come and see for yourself. Ask your grocer for

"COKE'S BREAD."

If you can't get it there we will deliver it.

W. H. Colclough & Co.,
Phone 176-2 - - - 102 Fifth Street.
Next door east of T. B. Murphy & Son.

LOCAL BREVITIES.

Mrs. J. M. Kelly and Miss Dorothy Kelly will entertain tomorrow afternoon.

M. F. Frank, of Fifth street, left this morning for Canton where he will remain several days visiting friends.

David Thomas, of Toronto, arrived in the city this morning, and will remain during the week visiting friends.

The infant child of Mr. and Mrs. Rigby, of California hollow, was buried this afternoon in Spring Grove cemetery.

The grip has been ravaging the country on the Virginia side, and scores of people have been ill, but very few deaths are reported.

Firemen McCullough, Bryan, Woods and Bettridge were suffering with the grip last week. While very ill they were not compelled to be off duty.

Mrs. James B. Hall left today for Pittsburg where she will visit her husband who is undergoing treatment at the Mercy hospital.

A prominent resident suggested today that if everybody was going to buy real estate he believed it would be a good idea to extend the city limits back over the hills.

Clerk J. W. Gipner, of the water works, was able to be out today for the first time. Edward Morley has been filling his position in the water works office.

Captain Hill several months ago purchased a handsome dog and had it sent to a trainer in Tennessee, where it has since remained. The dog will be shipped here this week.

The many friends of Mr. and Mrs. David J. Wallace, Pennsylvania avenue, will be pleased to learn that a little daughter made its appearance at their home last evening.

Mrs. Mary E. Sims, of Canton, who has been visiting at the home of her daughter, Mrs. J. T. Roberts, was called home today in consequence of the very serious illness of her daughter, Mrs. Nicol, residing at Canton.

A gang of 20 telephone men arrived in the city this morning and will commence work at once putting in the new line to Calcutta. If the weather is favorable the work should be completed in four days.

Miss Mary Elliott, of Bellvue, Allegheny county, Pa., who has been visiting at the residence of her sister, Mrs. A. J. Boyce, Forest street, for the past few weeks, returned home on the noon train today. Miss Elliott has quite a number of warm personal friends in this city.

The gas ordinance will be placed on its third reading at the meeting of council tomorrow evening. The ordinance committee have not yet made a report but Mr. Peach intends to call up the ordinance and have some disposition made of it.

A party of young men stood on a prominent corner in the Diamond at a late hour Saturday night, and discussed at length the attempt to rob a stranger at the freight depot a few days ago. Their familiarity with the details prompted a resident who stood near to believe they know a great deal of the matter.

"Do you know that spring has come?" whispered a sweet voice over the News Review telephone this morning.

"Why?" "Because there was a 'robbin' in town Saturday night," was the reply, mingled with the jungle of the bell. Now the office boy wants to know who of all the people on that combination line has a sweet voice.

The option which expired on the Metch property Saturday has been extended. The exact time could not be learned. One of the gentlemen who has been identified with the people who are after the property stated this morning that it was almost certain the property would be purchased, but how soon the deal would be closed he could not state.

PORTO RICAN TARIFF.

Order Issued For Customs to Go Into Effect February 1—Porter Explained.

WASHINGTON, Jan. 23.—By authority of an executive order, issued by the president Jan. 20, 1899, the secretary of war promulgated an amended customs tariff, which was prepared under the direction of the secretary of the treasury by Special Commissioner Robert P. Porter, Assistant Secretary Howell and Dr. H. K. Carroll, and which is to take effect in all ports and places in the island of Porto Rico and all islands in the West Indies east of the 74th degree west longitude, on and after Feb. 1.

The port of San Juan is designated as the chief customs port, and Ponce and Mayaguez as sub-ports, and the officer of the army assigned to each of these sub-ports as collector will have general jurisdiction of the collection of customs at such ports respectively.

Trade between ports of the United States and all ports and places in Porto Rico and trade between ports and places in Porto Rico shall be carried on in registered vessels of the United States and in no others.

In the course of his report, upon which the Porto Rican tariff is largely based, Special Commissioner Robert P. Porter shows that the value of the importations into Porto Rico during the year 1897 amounted to 17,358,963 pesos, upon which was collected in duties \$2,481,962. He further said, in part:

"If the same amount of revenue is required in Porto Rican pesos and the exports are likely to keep up to the 1897 standard, the fiscal problem confronting the treasury department in Porto Rico is briefly this: Probable total value of dutiable imports 17,358,963 pesos, or \$8,769,031; total revenue to be collected 2,481,962 pesos, or \$1,240,981.

"Discarding the money question, which, after all, in this case, is a purely Porto Rican matter, the simple problem is an importation of about \$6,000,000 United States money and a needed revenue of \$1,250,000 United States money.

"It would be manifestly unjust to Porto Rico to adopt and put in force the amended Cuban tariff because it is believed the Cuban revenue will amount to about 25 per cent of the imports, while a 15 per cent ad valorem tariff, assuming that the imports keep up to those of 1897, will yield sufficient revenue for the governmental needs of Porto Rico. The necessities and wants of the two countries are radically different. Porto Rico has not been devastated by war nor will it require a large United States army to keep order. There are no armed insurgents demanding millions for payment of military services to be charged up to the customs receipts."

UNSELFISH MEN NEEDED.

Captain Gardner Said Some Would Be Needed For Reconstruction In Porto Rico.

WASHINGTON, Jan. 23.—"If Porto Rico is to become a credit to the United States," said Captain Augustus P. Gardner, assistant adjutant general of volunteers, in an interesting report to Assistant Secretary of War Meiklejohn upon the educational and other affairs of the island of Porto Rico, "and not a continual thorn in her side, it is as certain as the rising of the sun that the work of reconstruction must be done by men of disinterested motives."

There exists on the island a fairly good skeleton on which to construct a school system. The difficulty arises from the scarcity of competent and reliable teachers. In the nature of things, for the present, but little progress can be made by American teachers sent to the island, until a knowledge of the English language has begun to permeate all classes.

Since the invasion of the American troops the salaries of all the priests, which have heretofore been paid by the state, have been cut off.

Roman Catholicism has a better chance in the island in view of the condition of the native mind than any other form of religion.

Loss From Explosions.

LEBANON, Pa., Jan. 23.—Three heavy explosions occurred at short intervals at the Bird Coleman furnace plant at Cornwall, about five miles from here. Buildings were shaken and many window panes broken throughout the town. The twin furnaces were much damaged and the loss was heavy. Of the many hundreds of workmen none were seriously hurt, although a number suffered slight injuries. The explosions were caused by molten metal eating its way out of a stack and entering the under pit, where it came into contact with water.

Hoyt Ordered to Santiago.

WASHINGTON, Jan. 23.—Henry M. Hoyt, assistant United States attorney general, was ordered by the department of justice to go to Santiago with General Leonard Wood on legal questions which may arise in the administration of that department and to represent the legal department of the United States there. Mr. Hoyt is a son of ex-Governor Hoyt of Pennsylvania.

Glassblowers May Strike.

MILLVILLE, N. J., Jan. 23.—An official of the Green Glassblowers association stated that 3,000 non-union, South Jersey blowers would strike this week if the firms refused to pay the union wages. Meetings were held in the different towns and the workers decided to join the union.

Pugilist's Punch Was Fatal.

LOUISVILLE, Jan. 23.—Tom Lansing, the heavy weight pugilist who was injured in a boat with Jack Root in Chicago about two months ago, died at St. Mary and Elizabeth's hospital. Lansing was knocked down by one of Root's punches, and his head struck the floor with such violence that a clot formed on the brain.

D. M. OGILVIE & CO.

REMOVAL SALE.

WE want to make this week count in the reduction of stock. But a short time now until we shall move. Will offer goods at very low prices this week.

Cloaks.

Not going to carry a cloak over if low prices are any object to cloak buyers.

Plush Jackets.

Two of these—one \$2, one \$4—made from Salt's guaranteed plush, lined with red satin, late styles; former price \$18, sale price \$9.

Cloth Jackets.

Black, blue and brown, at half early season's prices.

The \$5.00 ones at \$2.50.
The 7.50 ones at 3.75.
The 10.00 ones at 5.00.
The 18.00 ones at 9.00.

Don't believe you ever had jackets as good offered at prices so low.

Cloth capes, misses' jackets, children's cloaks, all at half price.

Furs.

Collarsties at half price. If at all interested in collarsties, it would pay you to look after these.

Muslin Underwear.

All muslin underwear now in stock at a discount of 20 per

cent. These are staple goods carried from last season, and are very cheap, as they were good values at the original price. Will not have our annual muslin underwear sale until after we move.

Comforts.

Eiderdown comforts, silk top, satin back, \$7.50 goods at \$6.25.

Extra size comforts that were \$3, now \$2.40.

Homemade comforts, \$2.75 goods, \$2.40.

\$2.25 comforts at \$1.75.
1.75 comforts at 1.40.
1.00 comforts at 85c.

Blankets.

Good time to buy blankets. It may be a long time before you buy them cheaper. We have only the medium grades left—a few white ones, but mostly red, grey or barred.

\$2.98 all wool blankets, \$2.48.
3.50 all wool blankets, 2.98.
4.00 all wool blankets, 3.48.
4.50 all wool blankets, 3.98.

Wash Goods.

All last season's colored lawns, dimities and organdies at half price.

SAVE MONEY

BY BUYING AT OUR REMOVAL SALE.

D. M. Ogilvie & Co.

FIXED FOR THREE STATES.

Pennsylvania, Ohio and Indiana Will Have No Strike This Year.

PITTSBURG, Jan. 23.—There will be no strike of the bituminous coal miners of Pennsylvania, Ohio and Indiana during the next year. It can be said on the most reliable authority that the rate and conditions in the three states will be:

Rate of mining 66 cents per ton.
Double standard system as to run-off mine and screens.

Eight hours shall constitute a day's labor.

Miners of Illinois are the only stumbling block, or what might be termed the obstructionists, to the settlement.

Scott Sent to Jail.

PITTSBURG, Jan. 23.—J. McD. Scott, the embarrassed shoe merchant, was committed to jail Saturday at the conclusion of the hearing on his application for a discharge under the insolvent laws. The 37 bench warrants on which he had been arrested were also disposed of, and two commitments were lodged against him, one holding him for fraudulent insolvency, and one for embezzling his property to defraud his creditors.

Memorial to Ensign Bagley.

ANNAPOLIS, Jan. 23.—The memorial tablet placed in the naval academy chapel in memory of Ensign Worta Bagley, who was killed on the Winslow off Cardenas in the late war, was unveiled in the presence of a large number of naval officers and others. Lieutenant John B. Bernadou, who commanded the Winslow, raised the veiling. Mrs. Bagley, mother of Ensign Bagley, and his sister were present.

Funeral of Librarian Young.

WASHINGTON, Jan. 23.—The funeral of the late John Russell Young, librarian of congress, was held Sunday at St. John's Episcopal church in the presence of a large assemblage. A service of prayer was held at the residence early in the day, attended only by the members of the family. The services were conducted by the Rev. Mackey Smith. The remains were taken to Philadelphia for burial.

Rev. Dr. Hillis Accepted.

NEW YORK, Jan. 23.—Rev. Newell Dwight Hillis accepted the pastorate of Plymouth church, Brooklyn, to succeed Dr. Lyman Abbott. Dr. Hillis' acceptance, telegraphed from Chicago, was read at the morning service at Plymouth church Sunday. Dr. Abbott will take final leave of his congregation in the latter part of February.

Flood's Engagement Announced.

KANSAS CITY, Jan. 23.—Miss Maud L. Fritz of Kansas City, according to The Star, is to become the bride of James L. Flood, only son of the late James C. Flood, the famous California bonanza king, who fell heir to one-third of his father's vast estate.

New M. P. Church Dedicated.

PITTSBURG, Jan. 23.—The new Mount Washington Methodist Episcopal church, corner of Virginia avenue and Bigham street, was dedicated Sunday. In the forenoon the Rev. George Shaffer, D. D., president of the Pittsburg conference, preached a sermon. A platform meeting, participated in by a number of ministers of other denominations, was held in the afternoon and in the evening the dedication proper took place. The Rev. J. H. Lucas of the First Methodist Protestant church of Allegheny was the preacher. The several services were under the immediate direction of the Rev. J. W. Righter, pastor of the congregation.

TWO VICTIMS DIED.

A Ferryboat Ran Down a Launch Near San Francisco.

SAN FRANCISCO, Jan. 23.—The steam ferryboat Oakland, plying between this city and Oakland, ran down the launch William D. near Goat island. The launch sank immediately. Engineer Waddles of the William D. was drowned.

F. D. Orr, a passenger, was struck by the Oakland and died of his injuries after reaching the hospital. Captain Christensen, Joe Matthews and one other passenger on the launch were picked up by the Oakland while struggling in the water.

To Try to Free Prisoners.

MADRID, Jan. 23.—The Washington government notified Spain of its intention to endeavor to secure the release of the Spanish prisoners in the Philippines.

Blanco's Story Proved.

NEW CASTLE, Pa., Jan. 23.—Postmaster John B. Brown, who has been retained by the city on the Blevins murder case, returned from Ellwood City, where he was tracing a story concerning the whereabouts of Blanco, who is being held at Franklin, on the night of the murder. Blanco claimed to have been in Ellwood City on Jan. 6, 7 and 8, leaving the latter day. Brown made a careful investigation and found Blanco's story to be true.

Crime of a Drunken Man.

MAHANAOY CITY, Pa., Jan. 23.—Dennis McCarthy of Bowmans, a small mining village near here, shot and killed his aged mother and then attempted to commit suicide by shooting himself. He was drunk.

Rev. Father McGuckin Dead.

WILKESBARRE, Pa., Jan. 23.—Rev. F. A. McGuckin, pastor of the Catholic church at Nanticoke, died of pneumonia, aged 57 years.

Weather Forecast.

Western Pennsylvania—Threatening with rain on the lake; brisk southeasterly winds.

FIXED FOR THREE STATES.

Pennsylvania, Ohio and Indiana Will Have No Strike This Year.

PITTSBURG, Jan. 23.—There will be no strike of the bituminous coal miners of Pennsylvania, Ohio and Indiana during the next year. It can be said on the most reliable authority that the rate and conditions in the three states will be:

Rate of mining 66 cents per ton.
Double standard system as to run-of-mine and screens.
Eight hours shall constitute a day's labor.

Miners of Illinois are the only stumbling block, or what might be termed the obstructionists, to the settlement.

Scott Sent to Jail.

PITTSBURG, Jan. 23.—J. McD. Scott, the embarrassed shoe merchant, was committed to jail Saturday at the conclusion of the hearing on his application for a discharge under the insolvent laws. The 37 bench warrants on which he had been arrested were also disposed of, and two commitments were lodged against him, one holding him for fraudulent insolvency, and one for concealing his property to defraud his creditors.

Memorial to Ensign Bagley.

ANNAPOLIS, Jan. 23.—The memorial tablet placed in the naval academy chapel in memory of Ensign Worth Bagley, who was killed on the Winslow off Cardenas in the late war, was unveiled in the presence of a large number of naval officers and others. Lieutenant John B. Bernadon, who commanded the Winslow, raised the veil. Mrs. Bagley, mother of Ensign Bagley, and his sister were present.

Funeral of Librarian Young.

WASHINGTON, Jan. 23.—The funeral of the late John Russell Young, librarian of congress, was held Sunday at St. John's Episcopal church in the presence of a large assemblage. A service of prayer was held at the residence early in the day, attended only by the members of the family. The services were conducted by the Rev. Mackey Smith. The remains were taken to Philadelphia for burial.

Rev. Dr. Hillis Accepted.

NEW YORK, Jan. 23.—Rev. Newell Dwight Hillis accepted the pastorate of Plymouth church, Brooklyn, to succeed Dr. Lyman Abbott. Dr. Hillis' acceptance, telegraphed from Chicago, was read at the morning service at Plymouth church Sunday. Dr. Abbott will take final leave of his congregation in the latter part of February.

Flood's Engagement Rumored.

KANSAS CITY, Jan. 23.—Miss Maud L. Fritz of Kansas City, according to The Star, is to become the bride of James L. Flood, only son of the late James C. Flood, the famous California bonanza king, who fell heir to one-third of his father's vast estate.

New M. P. Church Dedicated.

PITTSBURG, Jan. 23.—The new Mount Washington Methodist Episcopal church, corner of Virginia avenue and Bingham street, was dedicated Sunday. In the forenoon the Rev. George Shaffer, D. D., president of the Pittsburg conference, preached a sermon. A platform meeting, participated in by a number of ministers of other denominations, was held in the afternoon and in the evening the dedication proper took place. The Rev. J. H. Lucas of the First Methodist Protestant church of Allegheny was the preacher. The several services were under the immediate direction of the Rev. J. W. Righter, pastor of the congregation.

TWO VICTIMS DIED.

A Ferryboat Ran Down a Launch Near San Francisco.

SAN FRANCISCO, Jan. 23.—The steam ferryboat Oakland, plying between this city and Oakland, ran down the launch William D. near Goat island. The launch sank immediately. Engineer Waddles of the William D. was drowned.

F. D. Orr, a passenger, was struck by the Oakland and died of his injuries after reaching the hospital. Captain Christensen, Joe Matthews and one other passenger on the launch were picked up by the Oakland while struggling in the water.

To Try to Free Prisoners.

MADRID, Jan. 23.—The Washington government notified Spain of its intention to endeavor to secure the release of the Spanish prisoners in the Philippines.

Blanco's Story Proved.

NEW CASTLE, Pa., Jan. 23.—Postmaster John B. Brown, who has been retained by the city on the Blevins murder case, returned from Ellwood City, where he was tracing a story concerning the whereabouts of Blanco, who is being held at Franklin, on the night of the murder. Blanco claimed to have been in Ellwood City on Jan. 6, 7 and 8, leaving the latter day. Brown made a careful investigation and found Blanco's story to be true.

Crime of a Drunken Man.

MAHANAOY CITY, Pa., Jan. 23.—Dennis McCarthy of Bowman's, a small mining village near here, shot and killed his aged mother and then attempted to commit suicide by shooting himself. He was drunk.

Rev. Father McGuckin Dead.

WILKESBARRE, Pa., Jan. 23.—Rev. F. A. McGuckin, pastor of the Catholic church at Nanticoke, died of pneumonia, aged 57 years.

LOCAL BREVITIES.

Mrs. J. M. Kelly and Miss Dorothy Kelly will entertain tomorrow afternoon.

M. F. Frank, of Fifth street, left this morning for Canton where he will remain several days visiting friends.

David Thomas, of Toronto, arrived in the city this morning, and will remain during the week visiting friends.

The infant child of Mr. and Mrs. Rigby, of California hollow, was buried this afternoon in Spring Grove cemetery.

The grip has been ravaging the country on the Virginia side, and scores of people have been ill, but very few deaths are reported.

Firemen McCullough, Bryan, Woods and Bettridge were suffering with the grip last week. While very ill they were not compelled to be off duty.

Mrs. James B. Hall left today for Pittsburg where she will visit her husband who is undergoing treatment at the Mercy hospital.

A prominent resident suggested today that if everybody was going to buy real estate he believed it would be a good idea to extend the city limits back over the hills.

Clerk J. W. Gipner, of the water works, was able to be out today for the first time. Edward Morley has been filling his position in the water works office.

Captain Hill several months ago purchased a handsome dog and had it sent to a trainer in Tennessee, where it has since remained. The dog will be shipped here this week.

The many friends of Mr. and Mrs. David J. Wallace, Pennsylvania avenue, will be pleased to learn that a little daughter made its appearance at their home last evening.

Mrs. Mary E. Sims, of Canton, who has been visiting at the home of her daughter, Mrs. J. T. Roberts, was called home today in consequence of the very serious illness of her daughter, Mrs. Nicol, residing at Canton.

A gang of 20 telephone men arrived in the city this morning and will commence work at once putting in the new line to Calcutta. If the weather is favorable the work should be completed in four days.

Miss Mary Elliott, of Bellvue, Allegheny county, Pa., who has been visiting at the residence of her sister, Mrs. A. J. Boyce, Forest street, for the past few weeks, returned home on the noon train today. Miss Elliott has quite a number of warm personal friends in this city.

The gas ordinance will be placed on its third reading at the meeting of council tomorrow evening. The ordinance committee have not yet made a report but Mr. Peach intends to call up the ordinance and have some disposition made of it.

A party of young men stood on a prominent corner in the Diamond at a late hour Saturday night, and discussed at length the attempt to rob a stranger at the freight depot a few days ago. Their familiarity with the details prompted a resident who stood near to believe they know a great deal of the matter.

"Do you know that spring has come?" whispered a sweet voice over the News Review telephone this morning. "Why?" "Because there was a 'robbin' in town Saturday night," was the reply, mingled with the jungle of the bell. Now the office boy wants to know who of all the people on that combination line has a sweet voice.

The option which expired on the Metch property Saturday has been extended. The exact time could not be learned. One of the gentlemen who has been identified with the people who are after the property stated this morning that it was almost certain the property would be purchased, but how soon the deal would be closed he could not state.

PORTO RICAN TARIFF.

Order Issued For Customs to Go Into Effect February 1—Porter Explained.

WASHINGTON, Jan. 23.—By authority of an executive order, issued by the president Jan. 20, 1899, the secretary of war promulgated an amended customs tariff, which was prepared under the direction of the secretary of the treasury by Special Commissioner Robert P. Porter, Assistant Secretary Howell and Dr. H. K. Carroll, and which is to take effect in all ports and places in the island of Porto Rico and all islands in the West Indies east of the 74th degree west longitude, on and after Feb. 1.

The port of San Juan is designated as the chief customs port, and Ponce and Mayaguez as sub-ports, and the officer of the army assigned to each of these sub-ports as collector will have general jurisdiction of the collection of customs at such ports respectively.

Trade between ports of the United States and all ports and places in Porto Rico and trade between ports and places in Porto Rico shall be carried on in registered vessels of the United States and in no others.

In the course of his report, upon which the Porto Rican tariff is largely based, Special Commissioner Robert P. Porter shows that the value of the importations into Porto Rico during the year 1897 amounted to 17,358,063 pesos, upon which was collected in duties \$2,481,962. He further said, in part:

"If the same amount of revenue is required in Porto Rican pesos and the exports are likely to keep up to the 1897 standard, the fiscal problem confronting the treasury department in Porto Rico is briefly this: Probable total value of dutiable imports 17,358,063 pesos, or \$8,709,031; total revenue to be collected 2,481,962 pesos, or \$1,240,981.

"Discarding the money question, which, after all, in this case, is a purely Porto Rican matter, the simple problem is an importation of about \$3,000,000 United States money and a needed revenue of \$1,250,000 United States money.

"It would be manifestly unjust to Porto Rico to adopt and put in force the amended Cuban tariff because it is believed the Cuban revenue will amount to about 25 per cent of the imports, while a 15 per cent ad valorem tariff, assuming that the imports keep up to those of 1897, will yield sufficient revenue for the governmental needs of Porto Rico. The necessities and wants of the two countries are radically different. Porto Rico has not been devastated by war nor will it require a large United States army to keep order. There are no armed insurgents demanding millions for payment of military services to be charged up to the customs receipts."

UNSELFISH MEN NEEDED.

Captain Gardner Said Some Would Be Needed For Reconstruction In Porto Rico.

WASHINGTON, Jan. 23.—"If Porto Rico is to become a credit to the United States," said Captain Augustus P. Gardner, assistant adjutant general of volunteers, in an interesting report to Assistant Secretary of War Meiklejohn upon the educational and other affairs of the island of Porto Rico, "and not a continual thorn in her side, it is as certain as the rising of the sun that the work of reconstruction must be done by men of disinterested motives."

There exists on the island a fairly good skeleton on which to construct a school system. The difficulty arises from the scarcity of competent and reliable teachers. In the nature of things, for the present, but little progress can be made by American teachers sent to the island, until a knowledge of the English language has begun to permeate all classes.

Since the invasion of the American troops the salaries of all the priests, which have heretofore been paid by the state, have been cut off.

Roman Catholicism has a better chance in the island in view of the condition of the native mind than any other form of religion.

Loss From Explosions.

LEBANON, Pa., Jan. 23.—Three heavy explosions occurred at short intervals at the Bird Coleman furnace plant at Cornwall, about five miles from here. Buildings were shaken and many window panes broken throughout the town. The twin furnaces were much damaged and the loss was heavy. Of the many hundreds of workmen none were seriously hurt, although a number suffered slight injuries. The explosions were caused by molten metal eating its way out of a stack and entering the under pit, where it came into contact with water.

Hoyt Ordered to Santiago.

WASHINGTON, Jan. 23.—Henry M. Hoyt, assistant United States attorney general, was ordered by the department of justice to go to Santiago with General Leonard Wood on legal questions which may arise in the administration of that department and to represent the legal department of the United States there. Mr. Hoyt is a son of ex-Governor Hoyt of Pennsylvania.

Glassblowers May Strike.

MILLVILLE, N. J., Jan. 23.—An official of the Green Glassblowers association stated that 3,000 non-union, South Jersey blowers would strike this week if the firms refused to pay the union wages. Meetings were held in the different towns and the workers decided to join the union.

Pugilist's Punch Was Fatal.

LOUISVILLE, Jan. 23.—Tom Lansing, the heavy weight pugilist who was injured in a bout with Jack Root in Chicago about two months ago, died at St. Mary and Elizabeth's hospital. Lansing was knocked down by one of Root's punches, and his head struck the floor with such violence that a clot formed on the brain.

D. M. OGILVIE & CO.

REMOVAL SALE.

14TH YEAR. NO. 192.

EAST LIVERPOOL, O., MONDAY, JAN. 23, 1899.

TWO CENTS

ARMY BILL IN DOUBT.

Reorganization Measure to Be Considered This Week.

STRONG OPPOSITION IN HOUSE.

Democrats and Populists Against Increasing the Regular Force to 100,000 Men—Will Have Some Support From Republicans—Temporary Increase.

WASHINGTON, Jan. 23.—The time of the house this week, excepting today, which was set aside for the consideration of District of Columbia business, will likely be devoted to the army reorganization bill. The consideration of this bill has been delayed by the illness of Chairman Hull of the military affairs committee. He has recovered sufficiently, it is believed, to pilot the measure, however, and the house formally agreed to take up its consideration tomorrow. The general debate, not including three night sessions, is to continue 15 hours. This is as far as the agreement goes. It includes no provision for a final vote.

The debate promises to be both interesting and important, as it will raise all the questions involved in increasing our standing army to 100,000 men, as proposed by the bill, together with our whole future policy relative to the territory acquired in the recent war with Spain. There exists a wide variety of opinion upon the proposition to increase the standing army. It has a strong majority of the Republicans behind it, and it comes into the house with the endorsement of the president's message, practically as an administration measure. The Democrats and Populists are intensely hostile to the whole proposition, and intend to fight it to the last ditch.

They will have some support from the Republican side. The opposition, however, do not desire to embarrass the government, and are willing to provide for a temporary increase in the army of 50,000 men, in accordance with the provisions of the substitute bill offered by the minority of the committee. Or they are willing to authorize the continuance temporarily of the present war strength of the regular army (62,000), anything in fact to prevent the creation of a permanent increase. In this they have the sympathy of many of the Republicans. The fate of the bill is in grave doubt.

SALTPETRE AND SALT.

All the Chemicals Chemist Wilson Could Find in the Samples of Canned Beef.

WASHINGTON, Jan. 23.—Chemist Wiley of the department of agriculture reported to Secretary Wilson that an examination of samples of canned meats secured both in the open market and from the war department to determine the presence of any chemical preservatives failed to disclose any traces of borax, boric acid, sulphites, sulphurous acid, salicylic or benzoic acid.

The presence of saltpetre was confined in all the samples of corned beef and so-called luncheon beef, but no trace of it was discovered in the roast beef, though common salt was present to a considerable extent. The test was made under an order of Secretary Wilson, and 13 samples were inspected, 11 purchased in the open market and two obtained from the war department.

Of the former eight, from five different packing houses, were corned beef; two packed by the Armour Canning company of Chicago and the Armour Packing company of Kansas City, were luncheon beef and the other sample roast beef.

DALY'S TEST UPHOLD.

Expert Acknowledged Presence of Chemicals in Powder Submitted.

WASHINGTON, Jan. 23.—When Prof. W. F. Clarke took the witness stand before the war investigating commission Saturday, he said the powder submitted by Dr. Daly was of a brownish color, while pure borax is white, but did not explain the difference. Witness said he could say nothing of the origin of the materials tested, nor could he state the probable amount of these chemical agents used that would be exacted in making tea from the beef without more material and longer time. Large quantities of such chemicals for preservatives, however, he said, would be unnecessary and would be an expensive waste.

The boric acid, he said, imparts no odor whatever to meat. The salicylic acid, also, he said, was odorless, and he could not say whether it forms any compounds with the flesh of cattle that would produce odor.

"Would it not be probable," he was asked, "that meat kept for a time varying from 1 to 12 weeks in cold storage, covered with cheese cloth, would be affected by the substances in the cheese cloth?"

"I should think so," was the reply. "Is it possible to get both these agents present?"

"Yes, sir; we found both in the material submitted, purporting to be a meat extract."

"It does not necessarily follow,

then," suggested General Beaver, "that the product you examined came from beef tea?"

Answer: "No, I did not inquire into its origin."

General Beaver read from a report of the beef on the Panama, saying some of it "tasted like decomposed boric acid."

"Now," he asked, "if there is not any perceptible taste in boric acid, would its use in any quantity in meat impart any such taste?"

"I should say not," answered the witness.

"Then we have disposed of that," commented General Beaver.

NATIONAL PRISON REFORM.

General Brinkerhoff Addressed a Meeting and Others Addressed Gatherings in New Orleans.

NEW ORLEANS, Jan. 23.—Delegates to the Prison Reform association convention had a busy day Sunday. Bishop Sessums preached the convention sermon at Christ Church cathedral, dealing with crime and its punishment and prevention and the reformation of criminals. Mrs. Allen Johnson spoke at the Unitarian church upon the means of reforming women criminals, as practiced at the state institution at Sherburn, Mass., of which she is superintendent. There were three meetings at night.

General Brinkerhoff occupied the Methodist pulpit and spoke on the general subject of prison reform. At the Unitarian church Mrs. Barrows of Massachusetts, Judge Pollitt of Ohio and J. F. Scott of Concord spoke. The main night meeting was at Tulane hall, where the subject of child saving was

GENERAL ROELIFF BRINKERHOFF.

discussed by Rev. Beverly Warner of this city, H. H. Hart of Chicago and Rev. Dr. Buckner of Dallas.

TREATY COMPROMISES.

Two Plans Proposed in the Senate—If Not Arranged, There May Be Delay.

WASHINGTON, Jan. 23.—Several addresses on the general subject of expansion are expected to be made in the senate this week. One of these by Senator White in opposition to the government's policy will likely be made today and Senator Lodge will likely follow tomorrow with a brief talk in support of the policy and in advocacy of the early ratification of the peace treaty.

How much time will be given to the treaty in executive session will depend upon whether the committee on foreign relations considers it in the interest of the treaty to press consideration. There is an effort to arrange a compromise, which would permit speedy action upon the treaty, but if this is not successful the indications are for considerable delay. Two compromises are suggested.

One of these is for a modification of the treaty, or the adoption of a resolution declaratory against the permanent holding of the Philippine archipelago, and the other is for a modification of the army reorganization bill on lines desired by the treaty opponents. It is not yet possible to state whether either course will be pursued.

On Friday the senate will listen to eulogies of the late Representative Cook of Illinois.

POPE REPORTED ILL.

French Bishop Reported to Have Received the Information.

LONDON, Jan. 23.—The Paris correspondent of The Daily Record said that a French bishop received a telegram from Rome saying that the pope was dangerously ill.

A dispatch to The Associated Press from Rome on Saturday said the pope had completely recovered his health, after a slight attack of influenza, and had received in audience a deputation of the canons of St. Jean de Later on that day.

IRELAND TO BE ENTERTAINED.

He Will Be Invited to Preside Over Joan D'Arc Fetes.

LONDON, Jan. 23.—The Paris correspondent of The Daily Chronicle says: "Archbishop Ireland, after his visit to Rome, will come here to consult with the French bishops on the subject of Heckerism."

"The bishop of Orleans has invited the distinguished American ecclesiastic to preside over the fetes in honor of Joan D'Arc."

FIRM FRIEND TO QUAY.

A Statement Issued by Governor Stone.

THINKS HE'LL BE RE-ELECTED.

Declared a Majority of the Republicans of Pennsylvania Favor the Senator. Van Valkenburg Declared Quay Had All the Votes He Could Get.

HARRISBURG, Jan. 23.—Governor Stone gave the following signed statement on the senatorial situation:

"My opinion has not changed since I expressed the belief, after the action of the caucus making Colonel Quay the nominee of the Republican party for United States senator, that he would be re-elected. His supporters have not had a break in their lines since that time and they have made gains. Pennsylvania is a Republican state, and unless there are some serious reasons why a regularly nominated candidate of the Republican party in the state should not be elected, it is usually safe to predict that he will win. More than two-thirds of the Republican members of the general assembly are already publicly committed to him. No one can honestly or fairly question the regularity of the nomination of Senator Quay. The caucus was regularly called and properly conducted. Stalwart Republicans generally throughout the commonwealth have accepted him as the candidate of their party and want to see him elected."

"The conspiracy case brought against him in the heat of the campaign has been fully ventilated and the political character of the proceedings is thoroughly understood by the people. The argument of Attorney Watson before the supreme court clearly demonstrated that there was nothing in the bills of indictment against Senator Quay, nor in the testimony, showing him to have violated any law. This has been made plain to all as how the fact that this prosecution was inspired and instituted for the purpose of influencing votes against Senator Quay's senatorial canvass. It is not my purpose or intention to quarrel with any one who is opposed to Senator Quay. That is his right and privilege. But I do say that I believe that way down in the hearts of nearly 500,000 Republicans of Pennsylvania, who voted for me for governor at the last election, there is a feeling of sympathy for Senator Quay in the present contest."

"He has been a brave soldier in the hour of his country's trials, he has been a gallant, able and victorious field marshal of the Republican party, not only in local and state campaigns, but in one of the greatest and most bitterly fought national contests ever waged in American politics. To him, more than any one else, as chairman of the Republican national committee, did we owe the election of General Benjamin Harrison to the presidency. As a member of the United States senate he has watchfully and zealously guarded the great industrial, manufacturing and commercial interests of our commonwealth. His influence was potent, not only in materially aiding in the passage of the McKinley bill, but, with the Democrats in control of congress, through his close relations with his colleagues on both sides of the house and his statesmanlike course on the floor of the senate, he saved Pennsylvania industries from ruin by the amendments he had inserted in the Wilson bill for their especial protection."

"There should be no occasion for concern among the friends of Senator Quay on account of the present deadlock on the senatorship. Public sentiment in his favor is making itself felt among the members of the legislature. If Senator Quay's supporters stand firm, as I am convinced they will, his re-election will certainly follow in due time."

E. A. Van Valkenburg, one of the managers of the anti-Quay campaign, issued a statement, in which he said the senatorial situation was no longer complicated or uncertain. Mr. Van Valkenburg claimed Senator Quay's strength was at high tide when he received 113 votes, which is just 14 short of a majority. Against him are 139 votes, 87 being Democrats and 52 anti-Quay Republicans.

"The Quay managers have abandoned all hope of securing a single vote from the anti-Quay ranks," he adds. "But while admitting that no Democrat will vote directly for Quay at any stage of the contest, they assert with an air of mystery rather than of confidence that at the proper time enough Democrats will be found to supply the necessary 14 votes that Senator Quay must have to elect him."

"The Quay machine is bankrupt in the matter of political patronage. All the attempts of the Quay people to create friction between the Democrats and the anti-Quayites have signally failed. Senator Quay amassed all his strength to break the anti-Quayites last Wednesday and failed. He has given orders that every effort must be made to break them next Thursday, but he will again fail. Senator Quay may be able to prolong the deadlock, but re-elect himself United States senator from Pennsylvania, never."

The fourth joint ballot taken at high noon Saturday was a tame and entirely perfunctory affair. There were only six members more than a quorum pres-

ent, and the ballot resulted: Quay, 60; Jenks, 41; anti-Quay, divided among eight candidates, 37. There were 56 pairs and 7 absent without pairs, and Quay was 12 votes short of an election. The absentees were Senator John H. Brown, Westmoreland, Quay; Senator John F. Higgins, Schuylkill county, Democrat; Representative Samuel A. Kendall, Somerset, anti-Quay; Charles R. Knoblett, Philadelphia, Quay; Jeremiah Roth, Lehigh, Democrat; Joseph W. Smith, Clinton, Democrat, and Michael J. Tighe, Luzerne, Democrat.

ONE ROBBER WOUNDED.

Thieves Tried to Rob the Postoffice at Cuyahoga Falls—Shots Were Exchanged.

AKRON, Jan. 23.—At Cuyahoga Falls Night Watchman Evans found three men at work on a safe in the postoffice rooms in the town hall. The recent fire caused the temporary removal of the postoffice.

Evans and the robbers both fired their revolvers and one robber was wounded, so that he had to be carried and was traced by blood on the snow. The safe belonged to the town and the robbers got but 75 cents. It is thought the burglars are the same gang that robbed the Napoleon postoffice.

To Form White Lime Combine.

TOLEDO, Jan. 23.—The leading white lime manufacturers of the United States are expected to meet in Toledo to form a combine for the betterment of trade conditions. A meeting was held in Fremont, O., last week, at which a committee was appointed to formulate a plan. This committee will likely report today. It is said the capitalization of the concern will be \$10,000,000. The manufacturers of this city deny that the combine is a trust, but say it is formed simply to raise prices, which have been demoralized for the past two years.

Big Zinc Combine.

TOLEDO, Jan. 23.—The American Zinc company, with a capital of \$5,000,000, was organized, with J. O. Rodgers of this city as the leading spirit. The plan has been under consideration for the past year, and Mr. Rodgers has, it is reported, finally interested ex-Governor Flower, Daniel O'Day and others of the Standard Oil company. All the leading zinc manufacturers are in the deal. The organization will be perfected this week.

Woman Committed Suicide.

TOLEDO, Jan. 23.—Mrs. S. J. McCollough, wife of a well-known man of this city, committed suicide and attempted to kill her family of three children. She was undoubtedly insane. Four of the children were taken violently ill, having eaten diseased meat. One child died and she attempted to give the living children carbolic acid.

An Attempted Lynching.

ZANESVILLE, Jan. 23.—A mob tried to lynch E. S. Wright, charged with assault on a young lady named Taylor at Bridgeville, Muskingum county. Wright was held for court and taken to jail.

BALLOTING TODAY.

West Virginia Legislators Expected to Commence Voting for Senatorial Candidates.

CHARLESTON, W. Va., Jan. 23.—Balloting for United States senator is expected to begin in the legislature today. As the Republicans have a majority of only one on joint ballot, and that one is in dispute, the present struggle has become a state edition of the Hayes-Tilden contest. The factional fighting was ended when John T. McGraw last Wednesday night received the Democratic caucus nomination, and on the following night N. B. Scott was made the Republican nominee. Both parties worked for partisan advantages on the settlement of contested seats.

The Republicans were fighting to hold their own and had a majority of one, since two of the Republicans had been unseated in the house. As the Democratic majority in the house threatened to unseat others, the Republican majority in the senate had pending three resolutions for contests in the upper branch.

A Bishop to Celebrate.

PITTSBURG, Jan. 23.—Bishop Cortlandt Whitehead will celebrate the seventeenth anniversary of his consecration next Wednesday. The observance of the anniversary will form a prominent feature of the assembling of the southern convocation of the diocese of Pittsburgh, which opens tomorrow evening in the Church of the Epiphany, Bellevue, of which Rev. George Gunnell is pastor. The convocation is composed of about 35 ministers of the Episcopal church resident in Pittsburgh and vicinity.

Canal Bill Passed.

WASHINGTON, Jan. 23.—The senate Saturday passed the Nicaragua canal bill, decided to make the anti-scalping bill the unfinished business and continued without the completion of the consideration of the Indian appropriation bill. A number of amendments were adopted to the Nicaragua canal bill. A roll call developed only six votes in opposition, they being those of Bate, Caffery, Cockrell, Mantle, Martin and Smith.

GERMANY FOR PEACE.

Not Likely to Be Belligerent Over Samoa.

EXCESSIVE DEMANDS IMPROBABLE

Company Formed to Build a Cable to the United States—Branch Telegraph Office to Be Established, Probably to Influence Opinion.

LONDON, Jan. 23.—The Berlin correspondent of The Times said:

"There are good reasons for believing that the German government regards the maintenance of cordial relations with Great Britain and the United States as far more important than even German commercial interests in Samoa. The tone of the leading journals, therefore, is, on the whole, free from bitterness or exaggeration."

"In a word there are many indications that Germany will not frustrate a revision of the treaty of Berlin by extravagant demands, such as for the cession of the islands to Germany. The Kolnische Zeitung ridicules the report that Dr. Von Holleben, German ambassador at Washington, has complained of Mr. Berry's remarks in the house of representatives, and says that the United States ambassador in Berlin, Mr. White, might as well have complained of Herr Ahlwardt's anti-American ravings in the reichstag."

The Berlin correspondent of The Daily News said:

"A joint stock company has been formed at Cologne with a capital of £500,000 to lay a cable from Germany to the United States. At the same time Wolff's Telegraph agency decided to establish a branch office in New York city. Evidently the 'yellow' press campaign against Germany, which has caused great embitterment on both sides, has induced the German government to favor this project, by which it is hoped to exercise a direct influence upon public opinion in the United States."

AMERICANS WILL PROTEST.

Some In Germany Were Aroused Over Utterances in Congress.

MUNICH, Jan. 23.—The Neueste Nachrichten, which raised a storm of indignation among the ultra-patriotic papers by hinting that German doings in the Philippines were largely responsible for the delicate relations between the United States and Germany, and that as the German foreign office knew nothing of them, it would be advisable to institute an investigation with a view of avoiding a recurrence of such mistakes, made the following comment:

"The Americans here have decided to send to the Washington government a protest against the anti-German expressions used in the house of representatives and a declaration that no animosity against America exists in Germany, where Americans always meet with the most friendly reception."

GREEKS HOMELESS.

Several Towns Destroyed by Earthquake. Houses at Some Other Places Damaged.

ATHENS, Jan. 23.—A strong seismic disturbance was felt throughout the Peloponnese (the southern part of the kingdom of Greece), especially in the southwestern departments of the peninsula. All the houses in the town of Philiatra, in the department of Messenia, on the Ionian coast, have been damaged, and the inhabitants are now camping out in the suburbs. Two villages in the vicinity of Philiatra were completely destroyed, many people being slightly injured.

The villages Kyparissia and Staso were also practically destroyed, though it is not known as yet whether there were any victims there.

Much damage to property was done at Navarino. The authorities are doing all in their power to furnish tents and supplies.

AN ANTI-EXPANSION MEETING.

Speeches Were Made by Gompers, Cochran and Eustis—Regrets Sent.

NEW YORK, Jan. 23.—A mass meeting was held in the Academy of Music last night, in which resolutions were adopted and speeches made against expansion by Samuel Gompers, Bourke Cochran and ex-Emissary Eustis.

A list of vice presidents was read, including these names: Wheeler H. Peckham, Abraham S. Hewitt, Henry Loomis Nelson, William H. Hornblower, Roger A. Fryer, Francis Wayland Glen, John C. Sheehan and Frederic R. Couderc.

A number of vice presidents were announced as representing the Central Labor union.

Communications were read from ex-President Cleveland, Colonel William J. Bryan and Bishop Henry C. Potter, regretting their inability to be present.

Another Warship to Samoa.

WELLINGTON, New Zealand, Jan. 23.—The British third-class cruiser Royalist was dispatched to Samoa, following the Tauranga, which left on Friday.

LIVING ON AN ISLAND

The Lot of a Former Liverpool Boy In the Philippines

WITH THE TENTH PENNSYLVANIA

A Letter From the Far East Brings Information of the Movements of Troops and the Condition of Affairs—A Word About the Insurgents.

The following letter will be read with much interest since the writer, Fred Harsha, is well known to many persons here, having formerly resided in Robinson street:

CAMP JESSE NOSS, CORREGIDOR ISLAND, PHILIPPINES, Dec. 8.—I was a member of the Tenth Pennsylvania for three years, you know, and when the war broke out I enlisted for two years. Our regiment was sent half way around the globe to fight the Spanish. We landed at Manila July 13 and the 30th of the same month we saw our first battle. At that time we lost 14 killed and a great many wounded. August 13 we marched into the city of Manila where we were quartered until Dec. 1 when we were put on the transport Senator and taken to the small island Corregidor of which we now have charge.

It is about five miles long, two miles wide and 500 feet high and has a fine climate. The weather here is like our May days, and the nights are cool. Manila is on the island of Luzon and a miserable place. It is full of Chinamen and natives, the latter being a lazy lot. The Spanish live within the high wall which marks the city proper.

There are muzzle-loading cannons all around it, but they would have done little good against Dewey's fleet. I have been on board the Olympia and indeed she is a fine ship. Her crew think the Tenth is the only regiment here and gave us a splendid reception.

The Philippines is no place for an American, but I suppose a great many will rush here to invest their money. They should wait until the place has become settled. It is far different from any part of the United States.

The island we are on was a naval station, and two companies, A and B, 200 men, are here to guard a hospital, although there is not much sickness. We have a fine camp, and it was named after Jesse Noss, the first Beaver county boy to fall at Marlate July 30. We are very nicely fixed, two being placed in a wall tent 10 feet square and eight feet high. The camp is along the beach in a little valley where we can hear the waves continually lashing against the rocks. Game is abundant, and they say there are very big snakes, some 20 feet long, in the mountains. From this island the Spanish fired the first shot at Dewey, but a shell from the Boston quickly wrecked the three gun battery. It is located just below our camp. Then the garrison escaped to Cavite only to be captured later. The bay presented a peculiar appearance when we entered, almost all the vessels of the Spanish squadron being on the bottom.

If anyone tells you a Spanish soldier won't fight don't believe him for he is badly mistaken. It may be you belong to the Eighth Ohio, and if you do you know they will fight. Captain Harry Palmer, of East Liverpool, was our color sergeant and saw the whole of our fight here. He knows it is true. The insurgents are just a pack of robbers and cannot fight anything. They usually keep out of our way. There are only 30 of them on the island and they have but one gun. It will not shoot, but if we stay here long we will have it.

Amigo,

FRED HARSHA,
Company B, Tenth Pennsylvania Volunteers, Manila, P. I.

IF POSSIBLE

The Salem Pottery Will Stay Out of the Trust.

The Salem Herald of Saturday has the following:

"The Salem China company ordered 1,000,000 brick from a Leetonia firm yesterday and the brick will commence arriving Monday. They will receive about 10 carloads a day. The Lisbon fire brick company will send the first shipment. Wm. Smith, manager of the pottery, stated to a reporter that the company would not go into the trust if they could possibly avoid it."

Look After the Squirrel.

EDITOR NEWS REVIEW—The attention of the humane authorities is directed toward ameliorating the pitiful condition of a squirrel kept in durance truly vile in West Market street.

HUMANE.

Gun Cotton.

We had come into the storeroom for torpedoes at the Brooklyn navy yard and the talk turned to high explosives.

"We have to keep a sharp watch on the gun cotton," said one of the gunners who were with me, "to see that it does not get dry and does not get too acid. There is never a day goes by on a battleship but careful inspection is made of the stores of gun cotton. Dip in a piece of litmus paper and see if it comes out blue. If it does, all is well, but beware if it comes out red. That means acid, and acid means danger."

"What do you do when it comes out red?" I asked.

"Neutralize the acid. You see, gun cotton deteriorates a lot in an acid solution."

"Do you always keep the gun cotton wet?"

"Always. That's one of the first principles. When it's wet, it's safe; when it's dry, it isn't. Let it have all the water it will soak up, which is about 30 per cent."

"Suppose you were to touch off some gun cotton here on the ground, what would happen?"

"Nothing at all if it wasn't confined. You might burn a ton of it like cordwood in a bonfire. But pack it in a tin box, even a flimsy one, and you'll have fun. And, of course, the stronger the box the more fun you'll have."—Boston Globe.

Underground Paris.

The Paris of the pavement, gay, bright and exhilarating, is fairly familiar to us all, but underground Paris, dark, solitary and damp, extending for miles, is comparatively unknown. A part of this area is devoted to the catacombs—a valley of dry bones, a garden of the dead; the rest a garden still more vast, provides for the wants, or rather the luxuries, of the living—it is devoted to mushroom culture. These subterranean gardens extend for some 20 miles under the gay capital and are from 20 feet to 160 feet beneath the surface.

It is very difficult to obtain permission to visit them, and even when permission is obtained it requires some courage to avail oneself of it, for the only entrance is a circular opening like the mouth of a well, out of which a long pole stands. Through this pole, fastened at the top only, at fairly long intervals, sticks are thrust. This primitive ladder, the base of which swings like a pendulum in the impenetrable darkness below, is the only means of reaching the caves. "Here," again cried our guide, with a burst of cheerfulness, "see this door! On the other side are the catacombs—as full of bones as this place is of mushrooms." We smiled. We were not afraid of bones with an iron door between them and us.—Strand Magazine.

When Rosette Died.

Horace Walpole is a great lover of dogs too. Patapan, Tonton and Rosette (the last the legacy of Mme. du Deffand) are certainly the most spoiled of the species, and run all over Strawberry after their master, to the detriment, one would have thought, of the prim gardens and the vertu.

When Rosette dies presently, Horace sends the most touching epitaph on a dog ever written, perhaps, to my Lord Nuneham. "It has no merit," he says, "for it is an imitation, but it comes from the heart if ever epitaph did, and therefore your dogmanity will not dislike it."

Sweetest ~~name~~ of the year
Strew around my Rose's bier.
Calmy may the dust repose
Of my faithful, pretty Rose.

The opening lines at least have the oddest unlikeness to the popular conception of Horace Walpole, if they have some affinity with the man who is the friend and playfellow of little children and can't find it in his heart to turn off an old servant or to give up an old ally.—Longman's Magazine.

How to Dissect a Mosquito.

A needle held in the left hand is passed through the thorax, the legs and wings are pulled off, and, if necessary, the scales of the body brushed off with a camel's hair brush. The tail is then lowered into a drop of water, salt solution or weak formalin placed on a glass slide, and with another needle held in the right hand the last two segments of the tail are partially separated and held down upon the slide. The left hand is then moved in such a manner as to draw away the insect.—Major Ross, I. M. S., in Indian Medical Gazette.

Greatness Thrust Upon Him.

Teacher—Now, then, boy No. 1, who wrote "Macbeth?"

Boy No. 1 (trembling violently)—Please, sir, I didn't.

Teacher—I know you didn't, but who did?

Boy No. 1 (with a spasm of virtue)—Please, sir, I don't want to be a telltale, but it wuz Bob Buster, over in de corner seat. I seen him doin it.—Illustrated Record.

A Regular Business Man.

In a rural Virginia village two negroes were in partnership running a blacksmith shop. They were named Jim and Henry. Upon dissolution of the firm Jim wrote out and posted this notice: "The firm of Jim & Henry is this day dissolved. All persons owing the firm will settle with Jim. Those having bills against the firm will present them to Henry."—Atlanta Constitution.

NEW BIG POWER HOUSE.

Vast Plant Designed For a New York Railroad Company.

WILL BE THE LARGEST KNOWN.

Its Engines Will Be the Most Powerful Ever Grouped In a Single Station on Land and Over Twice as Powerful as Those of the Largest Ocean Liner—Some Features of the Plant.

The general designs for the new power house for the Third Avenue Railroad company of New York have recently been made public. The power house will be the largest structure of its kind in the world and within its walls will be generated a greater amount of power than has ever been produced before at any single station. The most enormous engines that man uses for single purposes are those which drive the ocean greyhounds that ply between New York and Europe. Of these the biggest develop about 30,000 horsepower.

Within the walls of the new Third avenue power house there will be massed engines and boilers capable of producing more than three times as much power as this and clustered about them all the needed devices for sending that power out over many miles of tracks to propel street cars. From this one center cars will be propelled from the postoffice to the Harlem on Third avenue, from the East river to the Hudson and over the miles of ramifications of the routes of the Forty-second street, Manhattanville and Amsterdam avenue line, for miles over the tracks of the One Hundred and Twenty-fifth street and Tenth avenue route to Fort George and again above that to the city line at Yonkers over the new routes to be built and finally over the vast Huckleberry line above the Harlem and many extensions which are likely soon to be made in connection with these various systems now controlled by the company.

The Third avenue plant will have a number of features, involving economy of operation, that are superior to any in the world. The designing of the house has been done by Westinghouse, Church, Kerr & Co., engineers for the Westinghouse Electric and Manufacturing company, which has the contract to supply the whole electric and power plant. The location of the plant and many other important matters were determined by President Elias and Superintendent J. H. Robertson of the Third avenue road, while the designing and construction of the system for distributing the electrical power are intrusted to Dr. Louis Duncan, who has been appointed chief engineer of the road. The power house will stand on the west side of the Harlem river, accessible by water from either way, and it will cover the two blocks between Two Hundred and Sixteenth and Two Hundred and Eighteenth streets. It will be 320 feet long and 250 feet wide. Within it will be divided lengthwise into two portions, each of about the same shape and area, one to be used for boilers and the other for engines and generators, and these two portions will be marked in the outer design of the building.

The half nearer the river, measuring about 320 by 125 feet, will form the boiler house, having above the boilers a great 10,000 ton coal bin. This portion of the building will be about 100 feet tall. At each corner will be a low, square tower, while above the whole will tower four steel stacks, each another hundred feet high. The other half of the building will be about half as tall, with its roof taking the form of its round arched steel girders, while for architectural effect the higher portion, although roofed in the same way structurally, will be built up to a square contour. The site of the structure is of alluvial sand, and over the whole area of nearly two acres a foundation of piles and concrete must be laid. The superstructure will be of steel frame, with walls of stone, brick and terra cotta, and much skill has been employed to design it in such a way that it shall not be a public eyesore.

The economies of design begin at the water side, where wharfage facilities for receiving coal are to be provided. Coal will arrive in barges or schooners, and by means of mechanical hoists and conveyers it is expected to put it into the bin at the boiler house at a cost so small that it will be just about equal to the money saved on demurrage of vessels. Few persons realize the enormous amount of coal which such a plant will consume. Under the best practice, where the loads on engines are constant, it takes 1½ pounds of coal for each horsepower an hour. If the station were run at its full capacity 24 hours a day, the daily consumption would be about 1,800 tons.

It is estimated, however, that the loads will require an average of about 340,000 horsepower, and this at two pounds of coal an hour will require nearly 1,000 tons of coal a day. Once in the bin at the top of the boiler house the coal is never moved again except by gravity. It flows down shoots to pockets at the front of each boiler, and from these pockets it is thrust into the furnaces by strong hands of iron and then moved forward from grate bar to

grate bar of the furnace by mechanical stokers until finally at the end the ashes and clinkers are dropped through a trapdoor and sent through other shoots on their way to waiting boats, which carry them off.

There are 60 boilers, each rated at 520 horsepower, and these are arranged in double rows two tiers high. There are two furnaces to a boiler, and if the boilers were cared for in the old way it would require one man to stoke each boiler. Working 24 hours a day and allowing for a number of boilers being out of use part of the time, about 120 firemen would be required to feed them. With mechanical stokers 40 men will accomplish the same work and hardly have to soil a hand. There is another big saving possible with the mechanical stokers which, it is probable, will be taken advantage of. This is the use of some of the cheaper and softer coals, which, because of the better combustion produced by evenly handled fires, may be burned without giving off smoke. In contemplation of this perhaps powerful pumps and hose are provided in the plans, arranged for flooding the 10,000 ton coal bin with water in case the coal takes fire. Hard coal is not much subject to such risk.

Down in the generator room, under its arched roof, will stand 16 of the largest electric generators made. Each will be rated at 3,000 kilowatts, or 4,000 horsepower, and each will be capable of carrying a load 50 per cent larger than that. Directly connected with each generator and standing vertically above it will be its steam engine, each engine rated at 6,000 horsepower. In the center of the room, high up, where every machine can be watched, will be the engineer's room, while straddling over the whole room will be a traveling crane, which can pick up any piece of machinery in the place and carry it to any other spot in the whole compartment. Along one side of this room, in a gallery above the machinery, will be the switchboard, where all the power currents from the dynamos will be carried and from there sent forth to the various distributing stations. The currents to be used will be alternating and of high voltage. The details are not made public, but it is said that a current of about 10,000 volts will be used.

At convenient points along the lines substations will be established where the currents will be transformed from high voltage alternating to direct currents of 500 volts to be fed to the lines. The multiplicity of lines and wires, switches and indicating instruments which will run to these stations will be appreciated when it is remembered that a separate feeder wire is to be supplied to every 1,000 feet or so in the parts of the city where the traffic is the heaviest, such as from Sixth street to the post-office on the Third avenue line. These details are yet to be worked out.

The new power house will cost about \$500,000, and the machinery which it will contain and the 30 rotary converters at substations will cost \$5,000,000. As the present cable lines of the Third avenue road will be converted to under trolley lines before the big power house is completed, some of the converters, which are in effect dynamos, will be connected with the machinery of the cable power house to run the lines until the main source of supply is ready.—New York Sun.

DEATH OF NOTED FOX.

For Years He Had Been a Faithful Stand By of Eager Hunters.

George Washington, the hoary and sporty old fox that has lived in the South Valley hills at Valley Forge, Pa., for so many years and has figured in a score or more hunts, met with a tragic end recently by being torn to pieces by a pack of hounds.

About a dozen members of the Perkiomen, Port Kennedy, Washington and Black Rock hunts, with a pack of 20 hounds, turned out the other morning for a hunt. After beating around the valley hills for an hour the hounds succeeded in "jumping" old George Washington, and a lively chase followed. Foxy did some pretty lively running among the hills for half an hour, and then made a break across the open country toward New Centerville, with the hounds in close pursuit. From Cedar Hollow the fox made a good run through Charlestown township and then headed for Valley Forge, with the hounds very close to his heels. Finding that he was likely to be picked up in the open stretch of country that lay before him he popped into a groundhog hole when about half way back, and none too soon, for the hounds were close on him. The hunters got picks and shovels, and as the hole proved shallow they uncovered him after an hour's digging.

The fox was muzzled, and Earl Davis of the Black Rock hunt seated him on the pommel of his saddle and started off for Valley Forge surrounded by the pack. He had not proceeded far, however, when the old fox made a wild leap and went bounding among the hounds. He had scarcely touched the ground before a dozen of the dogs were on him, and before Mr. Davis could alight from his horse the old fox had been nearly torn to pieces. The hounds were driven away, and when the hunters came up and saw what had happened they almost cried, for they would rather have lost a horse or cow than lost old George. Mr. Davis secured the brush. Old George was a great runner and had figured in many big hunts. He was fre-

A woman's hair is her glory. Like her complexion, much of its beauty depends upon her general health. Nine times in ten a woman's general health is dependent upon her local health in a womanly way.

It is an impossibility for a woman to be pretty or attractive who suffers from general ill-health. The skin, the teeth, the eyes, the hair and the carriage will tell the story when a woman is ailing. It is impossible for a woman to be in good general health when some local trouble is continually nagging at her nerves and disturbing the natural functions of every organ of the body. Dr. Pierce's Favorite Prescription is the best of all medicines for women who suffer from local weakness and disease peculiar to their sex. It acts directly on the delicate and important organs concerned. It makes them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain, tones and builds up the nerves and banishes the usual discomforts of the expectant months. It makes baby's advent easy and almost painless. It enables every organ of the body to perform its natural functions without unnatural interference from a pain-tortured nervous system. It corrects all irregularities. A woman who is made well in this way will recover her natural beauty of form and feature and her natural amiability of character and temper. Thousands of women have testified to its merits. An honest dealer will not urge a substitute for a little extra profit.

Mrs. Rachel Clark, of Houlton, St. Croix Co., Wis., writes: "I am in good health since I have taken Dr. Pierce's Favorite Prescription. I gave birth to a 12½ pound boy last June. He is six months old now and weighs 30 pounds."

How to preserve health and beauty are told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send 21 one-cent stamps, to cover mailing only; cloth binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

READ, MARK, LEARN.

Some Pertinent Questions That Can Be Answered With One Reply.

Why is it that in East Liverpool and its suburbs with a combined population of 1,400 there is only one medical preparation which gives statements from residents to back up its representations?

Why is it that Doan's Kidney Pills do this in East Liverpool as in every other town and city of any importance in the Union?

Why is it that there are advertised in every newspaper a dozen remedies and only one can supply local proof, local endorsement of its claims?

The solution of the problem is simple. Only one remedy has the curing and staying power. Other remedies make all kinds of gigantic yet futile efforts to get local proof but the attempt ends in producing a statement or two from places that as far as East Liverpool is concerned might just as well live in the moon.

Here is East Liverpool proof which backs up the merits.

Mrs. William James who lives at 283 Third street, says: "I was troubled off and on for eight years with a weakness of the back and kidneys, a dull aching pain across my loins, up under my shoulder blades and rheumatic pains in my right shoulder. I was very susceptible to changes in the weather and was so bad at times that I could scarcely stand and support my own weight. The trouble affected my nervous system, causing a frequent fluttering of the heart and shortness of breath. I generally resorted to porous plasters, but the relief was only temporary. I got Doan's Kidney Pills at the W. & W. pharmacy and obtained instant relief. The symptoms all left, and there was nothing wrong with my kidneys after the treatment."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no other.

Circular free. **AJAX REMEDY CO., 79 Dearborn St., Chicago, Ill.**

For sale in East Liverpool, Ohio, by John I. Hodson and the W. & W. Pharmacy.

quently captured and kept for big drop hunts, and while he often made narrow escapes he always managed to save himself by some trick or good stroke of luck. All regret that he was fated to meet such an unsportsmanlike end.—Philadelphia Times.

One Among Ten Millions.

An old woman stopped a retired business man of Ebsenburg, Ala., a few days ago on the street and handed him \$2.50, which she said she owed him. The man protested he knew nothing about it, but the old woman insisted that it was correct, and he took the money. He afterward hunted up his books and found it was for a pair of shoes sold over 40 years ago, when the woman was a girl living at Ebsenburg.—Selma (Ala.) Times.

A Delicate Distinction.

"How much does your position pay?" asked the rural relative.

"I don't know as I could figure it up offhand," answered Senator Sorghum.

"You surely know your own salary?"

"Yes, but that isn't what you asked me."—Washington Star

WENT OVER THE DOOR

Young Thieves Entered a Business House Sunday.

HELPED THEMSELVES TO CANDY

They Also Investigated the Stock of Jewelry and Handkerchiefs and Carried Away What Was Wanted—Robbery at the Gardendale School.

One of the most daring robberies ever committed in the city occurred early yesterday morning.

Chal G. Peterson and Enoch Elden did not leave their place of business until almost 1 o'clock Saturday night, but when Mr. Peterson entered the store yesterday morning he had no trouble in discovering that some person had been there before him.

The money drawer in his side of the store had been pulled out and all the cash taken, while the thieves had emptied a few boxes of candy. They then went to the side of Enoch Elden and going to the window took out a few shirts and what other articles they wanted. They removed several shirt studs and jewelry from the show cases, but did not take the cards with them as they evidently desired to cover up all chances of a clue to their identity. Two valises were taken and it is probable the plunder was packed in them.

The thieves gained entrance to the store by climbing over the transom on the Market street side and there was evidently three or four of them, one man doing the work on the inside while the others watched.

The Gardendale school was entered yesterday morning by two boys who ransacked every room and took every thing of value.

The matter was reported to the police together with the names of the boys, but at a late hour this afternoon they had not been apprehended.

The boys gained entrance to the building yesterday about noon by climbing through a window. As yet a list of the articles which were stolen has not been prepared but no doubt it will be by this evening.

FINANCIAL STATEMENT

Of the St. Aloysius Church Given to the Congregation.

After the service in St. Aloysius church yesterday morning, Rev. Father Smythe read the financial statement of the church for the past year.

The report showed the total receipts to be \$9,339.17, expenditures \$7,952.89, salary of priest \$700, balance in treasury of church \$1,386.28. The entire debt of the church was cleaned during the year and at the present time no bills are payable. After the report had been read the congregation elected John M. Ryan and Daniel T. McCurran as councilmen of the church to rule for one year.

A COMPLAINT

Entered Against the Water at Fairmount Home.

At a meeting of the state board of health at Columbus in advance of the joint meeting of the state, city and local boards, a complaint was lodged with the board that the water supply at the children's home at Alliance had been polluted and should be investigated. The board appointed Dr. Hartzell, who lives in that vicinity, to investigate.

The extremely low death rate at the home and the few children who have been ill for a year indicate that even if the complaint be true it is having little effect on the inmates.

CASE OF CRUELTY

Called to the Attention of Agent Lloyd.

Humane Agent Lloyd today investigated an extreme case that was brought to his notice.

The party was notified that her actions must cease and she promised to do better. Owing to the prominence of the parties concerned the names are withheld from the public.

Increased the Force.

Hiram Lemoyne, of the freight depot, who has been off duty on account of illness for several days, resumed his work this morning. Andrew Cockburn, who was put on in his place, is allowed to continue work on account of the increase in the business at the depot.

Two rollers and one checkman are now on the outbound platform.

Trying a Case.

The case of Harrison Rinehart against the Ohio Valley Gas company for \$38 is being heard this afternoon by Squire Hill. There were 16 witnesses subpoenaed.

STAR BARGAIN STORE,

WRAPS AT HALF PRICE.

Every ladies', misses' and child's jacket, also children's long coats, from 1 to 6 years old, will go at Half Price. All this season's style. Here is your chance to buy a coat. Capes at 33 $\frac{1}{3}$ c on the dollar. Every cloth cape in the house will go at $\frac{1}{3}$ their marked price.

DRESS GOODS.

We made still greater cuts on many lines of dress goods. On many lots we cut the price in half and some even more. It will pay you to get a dress now at our store even for later use.

1/4 OFF.

Commencing tomorrow morning, and until further notice, we will give you a straight 75 per cent off on our entire line of muslin underwear, trimmings, embroideries, laces, and on a great many other things. All marked in plain figures.

OUR GREAT UNLOADING SALE.

Our great unloading sale is still going on in every department, which is the greatest in the town. Many things are going at 1-4, 1-3, and even 1-2 off. If you need any dry goods, dress goods or furnishings, come to our store now while the lines are still complete and save your good dollars.

STAR BARGAIN STORE

138 140 FIFTH STREET.

Our Young Veterans.

When Sammy came back from the fighting.
My word, but we called him heroic—
A fever despoiling young stoic
Whose very old clothes were exciting!

Today he's a soldier no longer,
But just a young man without labor—
A seemingly idle young neighbor
Whom work would make better and stronger.

And thus are our heroes degraded
To everyday persons. It's trying
To take up mere selling and buying
Or bookkeeping after what they did.

But give them a chance, and they'll do it,
I'll warrant, or work at the benches
As well as they fought in the trenches
And be better patriots through it.

They're soldiers, but citizens after—
The blood and backbone of our nation—
The best timbered men in creation
On the farm, in the shop or with Shafter!

EAST LIVERPOOL, O., MONDAY, JAN. 23.

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns

THE people expect the senate to ratify the treaty with Spain, with the least possible delay. There are none who can see advantage to any one in rejecting the document.

SOME Cubans who have been supplied with food by this government now think they are in every way wards of Uncle Sam and should do no work. There is no time like the present for replacing that idea with the knowledge that in this country he who eats must work. Emergencies always have an end.

THE army bill is scheduled for consideration in congress tomorrow and it is probable it will excite a vast amount of oratory. If the expressed views of those who are interested will bring about necessary changes, the government will have no cause for complaint, but if they but delay the passage of the measure the country will object. There is no denying the necessity of an increase in the army, and the sooner it is brought about the better it will be for the nation.

It is nothing if not strange to see Grover Cleveland and Colonel Bryan standing on the same platform. The worthy pair could not agree on the financial question, but find common cause for complaint against the demand for expansion. Until recently Bryan was generally observed as the champion calamity crier of the country, but after Cleveland's letter to the Continental league it is doubtful if he can retain the position long. He has been on top of the ladder, but now he must drop down a rung.

THE RIGHT MEN.

Within a short time a number of East Liverpool citizens will possess in the aggregate several millions of dollars, the result of the sale of their pottery interests to the American Potteries company. It is but reasonable to suppose that a portion of this money will be invested in this community, and before another year has passed that diversification of industry, so often urged as an argument for continued prosperity, will have commenced to make its presence felt. These new factories, controlled by new combinations of capital, will of necessity seek some aid from the city. It may not be in the way of bonuses, for East Liverpool does not take kindly to that sort of thing, but there are many channels through which the city can retard or aid in the founding and development of new industries. That is why the conservative and thoughtful yet enterprising citizen should scan carefully the candidates for council before he casts his ballot. The right men are needed to occupy seats in that body, and only the right men. Every councilman should have the welfare of the city at heart, remembering that what he does may not only have a bearing upon the present, but that it will probably be of interest in the future. Many costly mistakes have been made. There should be no more if the voter casts his ballot only for men such as he would choose were he selecting a guardian for his private business.

25 per cent. reduction on all goods at the Bon Ton.

SECRET OF HAPPY LIFE

Evangelist Nash Gave It Out Last Night.

PRESBYTERIAN CHURCH PACKED

To Hear the Man Who Has Come to Aid the Spiritual Work of the Young Men's Christian Association—An Excellent Sermon.

Evangelist Nash last evening occupied the pulpit of the First Presbyterian church and delivered an interesting address to an unusually large audience.

Secretary Platts led in prayer, and Evangelist Nash opened his address by stating that there were three things the congregation should remember about the text; namely: Where it was found, what it said and what the subject of it was. The congregation was asked to repeat the three things in concert and after it had been done the speaker took for his text Psalms 32, 1 and 2 verses: "Blessed is he whose transgression is forgiven, whose sin is covered."

"Blessed is the man unto whom the Lord imputeth not iniquity and in whose spirit there is no guile."

Mr. Nash then stated that he believed the congregation would agree with him that the subject of the verses was the secret of a happy life from the standpoint of the word of God and accordingly he had made that the subject of his address. He said there were three things to be considered in the text, and the first was that the occasion of all unhappiness in life was sin. He then told the story of a soldier in an Ohio regiment who had been a Christian before going to war, but after getting away from home influences and into the camp he had rapidly gone to the bad. He said the young man seemed to be living a life of pleasure while he was sinning, but by his own confession he was as miserable as he could possibly be.

The second essential in the secret of a happy life was in the fact that not withstanding the fact that we had sinned we could still be happy. The speaker said he had heard people say they would give anything to live their life over again, but it could not be done. In his opinion it was not necessary, as a person could be happy anywhere as the Bible teaches: "Blessed is he whose transgressions are forgiven."

The third essential in the secret of a happy life is not in what we have, but in what we are. Money will not make all happy and wealthy people are not always the happiest. An anecdote was told to illustrate his point, and the speaker said that while these three lessons appeared on the surface of his text, there were four lessons under the surface, the first being: "Blessed is he whose sin is forgiven." The speaker stated that the foundation stone of any happy life was the forgiveness of sins and no person could be happy until they knew their sins were forgiven.

The second foundation was "Blessed is he whose sin is covered." The speaker said the persons on this earth were willing to forgive sins yet they told them to friends, but that God not only forgives sins but also covers them.

The third and fourth foundations were "Blessed is the man unto whom God imputeth not iniquity" and "Blessed is the man in whose spirit there is no guile."

Mr. Nash in closing said: "While we are able to forgive, yet the grace of God goes one step farther and puts in us a new spirit. There is no strength of power of human resistance to take away the habits we have formed, but God is

THE TONSILINE CO. CANTON, O.

able to do it. There is one thing we will have to do in the sight of our own heart in order to attain a happy life and that is to accept God as our Savior."

The speaker closed his address with an earnest prayer that many might be brought into the kingdom. He also delivered a short address at the after meeting.

CHURCH SERVICES.

Revival Meetings Have Been Very Successful.

Communion services were held at the First Presbyterian church yesterday morning, and 11 persons were added to the church roll.

The revival services at the First M. E. church have been very successful, and to the present 51 persons have confessed conversion. Of this number 40 have become members of the church. The meetings this evening and tomorrow will be in charge of local preachers and Wednesday Doctor Jackson will be here.

The congregation of the Christian church held services in Ferguson hall yesterday, and the attendance was very large. At the morning service Professor Reed announced his resignation. He delivered a powerful sermon. The official board of the church will hold a meeting tomorrow evening. A number of applications have already been received for the position vacated by Professor Reed.

Rev. Swift in his Sunday morning discourse, took the barren fig tree as his theme, and delivered an intensely practical sermon. The reverend gentleman don't take much stock in faith without works. He evidently believes that promises are all right, as far as they go; but they don't go far enough. He is an ardent advocate of the fulfillment of promises. He believes that the American saloon would soon be a thing of the past, if the promises of professing Christians were backed up by fulfillment. The revival meetings have resulted in the addition of 10 persons to the church. They will be discontinued during the week while Reverend Swift and his congregation aid the association meetings, but will be continued next week under the leadership of Rev. Mr. Gladden, of New Brighton. A woman's prayer meeting will be held tomorrow evening.

STILT WORKS

May Shut Down When the American Company Is in Operation.

It is very probable the Burgess stilt works will not be operated after the American Potteries company assume control. A gentleman who has had much to do with the affairs of the new company in speaking of the matter this morning said:

"When the West End pottery was absorbed by the company it was compelled to take the stilt works. The larger works of this character in the city are perfectly able to take care of all the trade of the potteries in the country if such be necessary."

Those Who Are Ill.

Harry Vincent, one of the messengers at the telegraph office, who has been ill at the home of his mother on Third street suffering with the fever, is improving. He will be able to be out next week.

Squire and Mrs. Manley are confined to their home on East Market street suffering from the grip.

The condition of C. R. Simms, of Second street, who has been ill for some time, is unchanged. He is 86 years old and from the character of his illness it feared by his friends that he cannot recover.

Mrs. D. A. Campbell, of Broadway, is confined to her home by illness.

William Kent, Jr., is ill at his home in Fifth street with the grip.

Mrs. Lou Steinfeld, who has been seriously ill for the past two weeks, is slowly improving.

Major Newman, of Washington street, is confined to his home by an attack of malarial. His condition is not thought to be serious.

Mail Carrier Joseph Williams is still confined to his home in Walnut street. Physicians are of the opinion that he is threatened with fever, and will be unable to resume his duties at the station for several weeks.

Vanity Fair.

With everything new save its name, "Vanity Fair" comes to the Grand Wednesday evening promising a program of varied excellence and comprising many novelties of a surprising character. Pretty girls bedecked in beautiful costumes and many comedians of excellent wit, all surrounded and enhanced by brilliant scenic effects, will make "Vanity Fair" the leading extravaganza organization on the road.

Treatment of Inebriates in Germany.

The sixth paragraph of the new code, which will come into operation in Germany in 1900, enacts compulsory treatment of habitual drunkards, involving their being placed under a curator, who will be empowered to put the individual anywhere for treatment until discharged from curatorship by the court. The exact description is, "He who in consequence of inebriety cannot provide for his affairs or brings himself or his family into the danger of need or endangers the safety of others." This measure was first advocated in 1863 at a meeting at Hanover.—British Medical Journal.

Kipling to Julia Marlowe.

Rudyard Kipling sent as a Christmas present to Julia Marlowe a copy of his latest book, "The Day's Work," with this verse in autograph on the fly leaf: When skies are gray instead of blue, With clouds that come to dishearten; When things go wrong, as they sometimes do, In life's little kindergarten, I beseech you, my child, don't weep and wail, And don't, don't take to tippling, But cheer your soul with a little tale By Neighbor Rudyard Kipling.

WELLSVILLE.

THIRTY PERSONS THERE

In Answer to Evangelist Cornell's Sermon.

BIG CROWD AT M. E. CHURCH

Unfortunates In Jail Charged With Drunkenness—Receiving Congratulations of Their Friends—All the News of Wellsville.

The special meetings being conducted at the Methodist Episcopal church by Evangelist Cornell are attracting much attention in town, and the building is crowded. The church last night could not hold the great number of people who sought admission. More than 30 persons were at the altar last night, the evangelist having preached an especially good sermon. The subject, "Thy Heart is Not Right," gave him a theme for a powerful discourse.

In Jail.

William O'Hara and David Van Fossen were in jail on charges of drunkenness this morning. O'Hara was arrested by Officer Duncan on Saturday night, and Van Fossen Sunday afternoon.

Attended a Concert.

Mrs. J. L. Crumrine, Mrs. J. F. Hamilton, Henry Goetz, Miss Pearl Swan and John Perkins were in Pittsburg on Saturday attending the Rosenthal concert at Carnegie hall.

Receiving Congratulations.

It is just 20 years today since C. R. Arnold and Miss Helen Wells were united in marriage. This worthy couple have been residents of Wellsville all of that time, and while they are not celebrating the anniversary in any public way, they are receiving congratulations and best wishes from scores of their friends who remember the day.

News of Wellsville.

Miss Sadie Weaver left for Coshocton where she will make her home for the future.

Mrs. Junk, who has been visiting her daughter Mrs. C. L. V. McKee, has returned to Washington, Pa.

Next Saturday Prof. J. L. McDonald will attend a teachers' institute of the Middleton township teachers.

John Saltzman, of Nicholson's addition, who has been in a very critical condition with complications arising from grip, is reported somewhat improved.

Miss Daisy Martin is visiting relatives in Holiday's Cove, W. Va.

W. W. Hole, of Salem, was here getting acquainted with some of our local politicians the last of the week.

E. S. Kelley was out today for the first time after an illness of three weeks. He had the grip.

Dr. D. C. Stewart preached in the morning and evening to the United Presbyterians and this morning he left for Chicago, Ill.

Rev. H. N. Miller filled his pulpit yesterday, and this morning he returned to Bethany college.

Communion services were held at the First Presbyterian church yesterday morning. Reverend Lafferty preached an interesting sermon. About 25 additions were made to the church roll as a result of the three weeks services.

The funeral of George Bird took place from the house today at 2 o'clock. Reverend Holtz officiated. The pall bearers were from among the Grand Army members.

THE CONGREGATION

Will Consider the Offer For First U. P. Property.

At a congregational meeting of the First U. P. church to be held Wednesday evening after prayermeeting, J. D. West, chairman of the board of trustees, will make a statement in regard to an offer which has been made for the property at Fifth and Market streets.

The matter is being kept very quiet and what action will be taken by the congregation is not known.

A member stated today that about sufficient money had been raised to purchase the old church with a view to organizing a Third church.

They Come Often.

The crockery buyers from Cleveland, Sandusky, Toledo and Jackson, Mich., who have been in the city several days, left Saturday night for the east. This trip is the second within as many months.

A discount of 25 per cent. allowed on all purchases this week at the Bon Ton.

ROYAL BAKING POWDER

ABSOLUTELY PURE

Makes the food more delicious and wholesome

ROYAL BAKING POWDER CO., NEW YORK.

SEE THE NOVELTY.

The Only One of the Class Ever Turned Out.

The writer had the pleasure this morning of witnessing some wonderful balancing on a ladder. The performer is an automaton, the invention of a German genius, who is very proud of his production and who values it very highly. The invention will be placed on exhibition tomorrow afternoon, Tuesday, Jan. 24, in the show window of the LEWIS BROS., furniture dealers, "Exchange" block, new Thompson building, Fifth street. We will not attempt a full description of this novelty; suffice it to say that it must be seen in order to be fully appreciated. The performer is a charming little German damsel, appropriately and fittingly costumed, and she goes through her performance with an ease and grace which cannot fail in pleasing all onlookers. The LEWIS BROS. extend to you a cordial invitation to witness the performance tomorrow afternoon, and every afternoon during the coming week. The performer will announce, through the medium of an appropriate card, that the opening of the superb furniture establishment of the LEWIS BROS. will take place on THURSDAY, FEB. 2. To this opening you have a special invitation. It will certainly pay you, if you are thinking of purchasing anything in the line of furniture, carpets or house furnishings, to examine the elegant stock of goods and ascertain the very reasonable prices at which they are being disposed of.

DEATHS.

Two Well Known West Virginia People and a Child.

J. O. Martin, aged 34 years, died at his home opposite the Golding flint mill at 2 o'clock yesterday morning. Death was caused by typhoid pneumonia with which deceased had been suffering for several weeks. The funeral will be held tomorrow, services being conducted by Rev. C. F. Swift. Interment will probably be made in Wellsville cemetery.

Mr. Martin was one of the best known men in this section. Mrs. Martin died last September. Four small children survive Mr. Martin.

Mrs. M. Cowan, sister of J. C. Allison, died at her home in Fairview yesterday. Deceased was aged 83 years, and was well known in this city. Death was caused by pneumonia.

The infant child of Mr. and Mrs. Isaac Arb died last evening at their home in Jethro street. The funeral will be held tomorrow afternoon. Interment at Spring Grove.

WAITING FOR HOUSES.

They Are the Scarcest Thing In Town Just Now.

Houses are exceedingly scarce in the city, and many persons have their goods stored in vacant rooms until a house can be rented.

Recently a house in a prominent locality became vacant, and the agent has been besieged with people who want to rent it, while there is a continued run of people viewing the premises.

Travelers Going Out.

W. H. Deidrick, of the McNicol Pottery company, left for the west in the interest of his company this morning. He will be gone several weeks.

A. D. Wilson went east this morning, taking with him samples from the Union pottery. He will be out about two months.

William Beal left this morning for a western trip in the interest of the West End pottery.

Attending a Funeral.

Mr. and Mrs. Henry Falls, of this city, left this morning for New Castle, where they will attend the funeral of Miss Waddingly, a sister of Mrs. Falls. They will return to the city tomorrow.

Buried Saturday Evening.

The funeral of the little child of Mr. and Mrs. Martin took place Saturday evening. Reverend Greene officiating. The remains were interred yesterday in Riverview cemetery.

ROUGH RIDER'S MEMORIAL.

Theodore Miller's Classmates Will Build an Archway at Yale.

The classmates of Theodore Westwood Miller, Yale '97, who enlisted in Roosevelt's rough riders and was killed at the battle of San Juan hill, are preparing a memorial of him in the form of a gift to Yale. It is proposed to raise by subscription among Mr. Miller's classmates about \$1,000 with which to erect an archway between Battell chapel and Durfee hall.

The structure is in line with the now almost finished plan of the quadrangle. It is proposed to have all the spaces between the college buildings closed by gates and archways. The most ornate of these is Phelps hall, and about three years ago Mrs. Winchester furnished the funds for the gateway between Vanderbilt and the Chittenden library on High street. The space to be occupied by the Miller archway has long been known among Yale men as the Pass Thermopylae. It derives this name from the practice, on Omega Lambda Chi night, of rushing the freshmen through the narrow defile to the accompaniment of the cuffs and kicks of the upper class men. The completion of the archway will make a continuous line of masonry from Osborn hall on College street to Alumni hall on Elm. When the whole quadrangle is inclosed in this way, it is the purpose of the faculty to shut all the gates at an appointed hour, after the fashion of the English universities, and to impose a penalty upon the students who fail to get in.

Mr. Miller was a graduate of Yale in the class of '97. During his college days he was prominent in an athletic and social way. After graduation he entered the New York Law school and left his studies to enlist in the rough riders. He was one of the first to fall at San Juan. —New York Sun.

The Sea Gull and the Fisherman.

In the fishing village of Anchnithie (the Musselraig of Scott's "Antiquary") you may frequently witness sea gulls flying into the houses of the fishermen and partaking of food from their hands. One of these sea birds was in the habit of staying in a fisherman's house all the year round except at the breeding season, when it left. Quite recently, while the gull was away, the fisherman removed his home from Anchnithie to Arbroath (the Fairport of Scott's "Antiquary"), distant some 3½ miles from the former place, taking up his residence in South street of Arbroath. The fisherman never expected to see his old friend the gull again. It was therefore much to his astonishment that he beheld a fortnight later the sea bird come walking into his new residence with stately steps to resume his old familiarities and household ways with his housekeeper. —London Lady.

The News In Lisbon.

LISBON, Jan. 23.—[Special]—A commission has been issued to F. L. Wells to take the testimony of A. B. Holland, a subscribing witness to the will of Samuel Dawson, late of Wellsville, Holland being infirm and unable to attend court.

Joseph Wherry has sold to Thomas B. Wilson, lots 28 and 30, Negley, \$350. Ida M. Stanley to Jefferson Tace, lot 1914, Liverpool, \$800. C. P. Ambler to John R. Vernon, land in Salem, \$1,000. John Hancock to David Bowers, lot 978, Liverpool, \$900.

A marriage license was granted Robert B. Russell and Mary Gaisuch, of Wellsville.

Small Fire.

Fire, Friday morning, broke out in the sagger shop of the Sebring pottery in East End. The flames were extinguished before any damage resulted.

Moved to Irondale.

The household effects of C. H. Bennett were this morning shipped to Irondale. Mr. Bennett has taken a position in the tin mill.

PERSONAL MENTION.

—John Earle was in Salineville today visiting friends.

—Miss Janette Imbrie, of Beaver, is the guest of Mrs. Jessie Potts.

—George Mayhew, of Fourth street, was in Toronto today visiting friends.

—M. B. Simms, of Steubenville, who was in the city yesterday visiting his father who is ill at his home in Second street, returned to his home this morning.

—Mr. and Mrs. George Anderson, of Cleveland, are spending a two weeks vacation with their parents in the city. Mr. and Mrs. T. Anderson, Walnut street, and Mr. and Mrs. J. C. Nicholls, Thompson avenue.

WANDERED FROM HOME

Robert Crofts Had Been Ill With Fever.

SLEPT IN A KILN ONE NIGHT

His Father and Some Friends Came Here Yesterday in Search of Him, but He Could Not Be Found—Returned Last Evening.

Robert Crofts, eldest son of John B. Crofts, living near Madison church, on the Lisbon road, wandered from his home on Saturday morning, and although a careful search was made for him Saturday and yesterday, he was not located until late last evening.

During last summer Crofts went to the home of his sister in Iowa, and during his stay there became ill with typhoid fever. His condition was very low, and when he recovered his mind had been effected. He was brought to this city during December by his father, and his condition was much improved. Saturday morning he left his home and walked to Wellsville. At that place several relatives requested him to go to their homes but he declined. Saturday night he slept in a kiln at the Lyth works and where he obtained food cannot be learned as he had no money. His father and several neighbors were in the city searching for him yesterday, but failed to find him. This morning Mayor Bough received word that the young man returned to his home late last evening, and his return was caused by the intense hunger which he endured.

NOT A PRISONER.

Police Business Is Slow With Promise of an Increase.

Business in Mayor Bough's court this morning was very slow and not one arrest was made Saturday yesterday or this morning. There were very few drunks on the streets Saturday evening and they did not make enough trouble to cause their arrest. The jail is empty.

The trial of William Morrow, charged with permitting gambling on his premises, will be heard before Mayor Bough Wednesday at 2 o'clock. A number of witnesses have been summoned in the case.

The trial of Samuel Conkle charged with being a common gambler will be heard tomorrow afternoon at 2 o'clock. It is thought a settlement will be effected and if not the matter will be carried to court immediately.

NOTHING NEW

Has Come From the East Regarding the Potteries.

A leading manufacturer stated this morning that nothing new had come from the east, but matters would go on as had been planned. In his belief the settlement would be reached before Saturday, as the work of checking the inventories is being rapidly closed up.

A number of potteries were this morning added to the list of those already in operation, and it is believed shipments will steadily increase. The stock is large at some plants, and as soon as it is reduced the clay hands will be put at work. Orders are by no means scarce, and the number of travelers who have already taken to the road will materially increase the number.

POSTAL TELEGRAPH

May Establish an Office in This Place Soon.

It is probable the Postal Telegraph company will establish an office in this city within the next two months.

The company has had several officers in the city within the past few weeks surveying the territory who have reported favorable to the company. The nearest office of the company to this city is in East Palestine and should the office be opened the line will be from this place to Palestine. The cost of the improvement will be in the neighborhood of \$2,000.

REFUSED AN OFFER.

Robert Hall Also Denied the Story of a New Hotel.

A rumor was afloat in the city today to the effect that Pittsburg capitalists had obtained an option upon the property of Robert Hall at the corner of Broadway and Kossuth streets, and would erect a handsome hotel. The option was supposed to be \$30,000.

Mr. Hall was seen this morning and stated that there was no truth in the report, but that he had received an offer from local capitalists which he refused.

DR. G. B. SMITH

Has returned to the city, and can be consulted at his office in the Porter building.

Lifboats of the World.

The lifboat service is one of the very noblest of philanthropic institutions, and many civilized nations pay special attention to these means for the rescue of perishing mariners. England's lifboat service is a voluntary one. The Royal National Lifboat institution, which controls the bulk of British lifboats, was founded in 1824. It now has over 300 lifboats on the shores of the kingdom, and has been instrumental in saving nearly 30,000 lives. The French lifboat service was established in 1865, and has 83 stations, while it has been the means of saving over 900 vessels and 7,500 lives.

The French service has one great advantage over ours. It is that the public board of works always builds the first lifboat house at each station as it is established, consequently relieving the service of a great outlay. The German service was established in 1865, and has 104 lifboat stations. The United States has 233 lifboat stations. The cost of the United States service is about \$290,000 a year.—London Tit-Bits.

Conan Doyle on Golf.

"My dear sir," writes Conan Doyle to an English friend, "pray present my compliments to the Ormeau Golf club and wish them from me a very happy evening. I am myself an intermittent golfer, getting very violent attacks at regular intervals. It usually takes me about two months to convince myself that I shall never be any good, and then I give it up until a fresh burst of energy sets me trying once more. I played in Egypt until they told me that excavators had to pay a special tax. I inaugurated a private course in Vermont also, and the Yankee farmers asked us what we were boring for. If ever the Ormeau club should wish any part of their links returned, I could undertake in a few games to clear away any sod now existing."

Took Her In.

"Yes," said the business man, "I have given up trying to collect that little bill from Bilkins. You see, he is a pretty big, husky fellow, and he used to throw my collectors out."

"Then why didn't you employ a woman collector? He couldn't do that to a woman."

"That's what I thought. So I got one and sent her around, but she never came back."

"Why not?"

"He married her."—Chicago Post.

New Way to Catch Rabbits.

Not in ten years have white and gray rabbits been so common in Allegany county, N. Y., and hunters are having great sport. One Bolivar man has already shot 12, and others have killed 100. Both dogs and ferrets are used. The small boys have invented a new way of catching rabbits. They track a rabbit to its hole, put a piece of half inch hose, 4 feet in length, into the mouth of the hole and yell through it. The noise in the hole almost scares the life out of the rabbit, and it comes bounding out and jumps into a bag held over the mouth of the hole. Hundreds of rabbits have been trapped this way within the past month.—Exchange.

How to Dissect a Mosquito.

A needle held in the left hand is passed through the thorax, the legs and wings are pulled off, and if necessary the scales of the body brushed off with a camel's hair brush. The tail is then lowered into a drop of water, salt solution or weak formalin, placed on a glass slide, and with another needle held in the right hand the last two segments of the tail are partially separated and held down upon the slide. The left hand is then moved in such a manner as to draw away the insect.—Major Ross, I. M. S., in Indian Medical Gazette.

Dinkelspiel to Dewey.

Vell, Chorge, how vas you gedding on, Avay so many miles? Und how vas eferdyngs about Dem Phillypeanuts Isles? Dot fellow Nagginaldo, he Vas preddy fresh, I guess! I dink in yust about a week Dare'll be vun dago less If he keeps fooling mit you, Chorge, Und dare vill be also Gold collars mit no neck to fit Down ad Hellohello!

Vell, Chorge, half Hopson got dare yet? If not, he vill some day, Profding dot too many girls Don't stob him on der way, Und ven he does ged out dare py Dem Phillypeanuts Isles I vish dot all dem natif girls Vould dress up in dare smiles Und meed him down dare py der shore Und show him de doand know Vot kissing is undill he got Ould py Hellohello!

Vell, Chorge, und dit you heard der news? Vas id py cable sent Dey was going to make you run To be der president? Dey half id all fixed up, und on Der tigget dare mit you Dey put a friend of yours—his name Is Gif Dem Fitz Lee Hugh! Und if you are not busy, Chorge, Yust come right home und go Und run for president und shook Dot tam Hellohello!

Vell, Chorge, auf weidersehn, mein friend, Und also, too, wie gehts? I hobe dot fery soon you'll come Pack py der Union Sdades, Und ven you are der president, Mit Gif Dem Fitz Lee Hugh, Perhaps I'll gif you some advice Und tolt you vot to do, For you haf been so long ould dare, Vare eferdyngs is slow, You'll need some polders ven you come Pack from Hellohello!

—Baltimore American.

GERONIMO GROWING INSANE

His Long Confinement Is Slowly Undervailing His Mind.

Geronimo, the old Indian fighter, is slowly losing his mind. He occasionally takes a ride out over the reservation, but is never allowed to go unaccompanied by a guard. The eternal vigilance is wearing away his mind. He does not rave, but has begun to have spells of moroseness, during which he will talk to no one, but acts strangely, as only one mentally unbalanced does.

In his time Geronimo caused the western settlers and the government more trouble than any other Indian. He became tractable since his capture and confinement, some ten years ago, and evinces no desire again to go upon the warpath. His was a generalship which, with any reasonable chance, was more than a match for many an army officer, but his active mind is giving way as much from inaction as from any other cause. He no longer plans imaginative campaigns, as he did for a long time while in confinement in Alabama. Even yet he is never freed from the constant eye of a guard, and this is said to be the greatest punishment for great men who have suffered exile. Napoleon often spoke of it, and now all France is fighting pro and con concerning a man on Devil's island who is suffering in the same way.

Geronimo tries to make himself as agreeable as he knows how to those about him. A soldier does not pace to and fro before a cell where he is confined, but he remains within his tepee with his family; yet the eye of a guard is never removed from the spot. All during the Santiago campaign a troop of cavalry was stationed at Fort Sill, and now a troop from the Tenth cavalry (negro) is on duty there, having been sent there from Fort Reno. An Indian hates a "buffalo soger," yet Geronimo has made no complaint.—Special Cor. New York Press.

TRIED TO GIVE HIM LEPROSY.

Filipinos Inject a Leper's Blood Into an American Soldier's Veins.

William Lapeer recently returned to Richland, S. D., to die of leprosy, which, it is feared, he contracted while serving with his regiment in the Philippines.

Lapeer is the 22-year-old son of a Union county farmer. He went to Manila last spring with Colonel Frost's South Dakota regiment. While seeing the sights soon after his arrival there he gave offense to a native aristocrat whom he met in a low drinking resort. The latter's friends succeeded in separating Lapeer from his companions, plied him with drugged liquor and carried his unconscious form to a house in the native quarter, where blood from a leper was injected into a vein in one of his arms.

When he realized what had been done to him, Lapeer was so horrified that he nearly died from pure nervous shock. He fell into a violent fever and was finally sent home. He will probably be discharged. Local physicians do not pretend to say what will be the result of the treatment to which he was subjected, as they do not know whether leprosy can be so transmitted. They are fearful of the effects of the experiment, but say it may be several months before the disease will manifest itself. The patient would be sent to New York for examination by experts, but is suffering from nervous prostration and too ill to be moved.—Special New York World.

ODD WAY TO BREAK A BONE.

Ward Wemple Breaks His Arm Putting on His Sister's Overshoes.

A few days ago Ward Wemple, the 12-year-old son of Charles Wemple of New Brighton, N. Y., fractured his arm in a peculiar manner, and Dr. William C. Walser, his attending physician, says that there is only one case of a similar character on record. The boy was putting on his sister's overshoes and, in giving one of the rubbers a sudden jerk, hurt his left arm near the shoulder. He persisted that his arm was broken, although the members of his family would not believe it at first.

Dr. Walser was called in and found the member fractured near the shoulder. The bone was broken by the spasmodic contraction of the large muscle on the shoulder. In order to show the case to the medical staff of the Smith infirmary Dr. Walser summoned the doctors together the other day at the hospital and subjected the break to the X rays. Dr. Walser says the only similar case he is able to find is that of a child who was taking a picture from a wall and a fracture of the same nature resulted from a sudden twist of the arm.—Exchange.

Refuses Trephna Prison Fare.

Joseph Cohen, a Russian Hebrew of Hamilton, O., indicted by the last grand jury for the alleged theft of \$15 from Michael Shelf of Middletown, O., is puzzling his jailers as to how he subsists on his slender diet. He refuses to eat anything but bread and onions, discharging the usual prison fare. He says that his religion will not allow him to eat anything not cooked according to its custom, and that rather than sacrifice his religion he will continue on with the bread and onions.

A Newcastle (England) man wrote this to the editor on a postal card "What ho, Mr. Editor, what price this? If the mouth is the window of the intellect, toothache must be a sort of window pain."

THE NEWS REVIEW

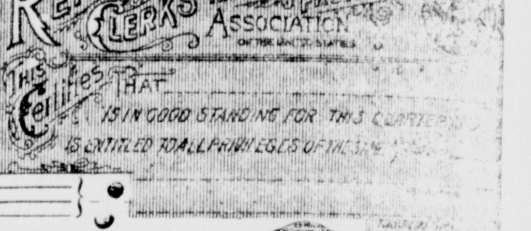

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others? The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card Ask for it when making your purchases.

Endorsed by the A. F. of L.

ONE-THIRD ACTUAL SIZE

COLOR IS CHANGED EACH QUARTER

Good only in spring months when in lower left hand corner of card properly signed, and STAMPED with the number of the Local.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it on another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

ISSUED BY AUTHORITY OF THE UNITED STATES DEPARTMENT OF LABOR

You will find the Linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden

COPE IS NOT GUILTY

But He Must Do Better In the Future.

HE RETAINS HIS CERTIFICATE

The Teacher Charged With Immoral Conduct Brought a Lot of Evidence Before the County Board of Examiners, as to His Good Character, and Saved Himself.

LISBON, Jan. 23. — [Special] — The hearing of the evidence in the case of Lauren Cope, the school teacher charged with immoral conduct, was completed by the county board of examiners at 5 o'clock Saturday. The arguments of attorneys required some time and the board adjourned, promising to deliver an opinion at 8 o'clock.

On the part of the defense almost all charges of the plaintiffs were denied, and evidence given of a moral character in behalf of the teacher by former pupils, teachers and schoolmates, and neighbors and acquaintances from his old home in St. Clair township. The attendance at the trial was large, and at 7:30 the court room was filled to hear the opinion of the examiners. It was 8:45 o'clock, however, before they appeared, when Professor McDonald, chairman, read from a manuscript a brief opinion on the merits of the case, which he explained was the unanimous opinion of the board. It is as follows:

"After having reviewed the testimony the board is unanimously of the opinion that the charges of immorality against Mr. Cope are not sustained, but we do find that the defendant has been guilty of indiscreet actions and coarse and immodest language in the presence of his pupils. He lacks refinement and that dignified manner that should characterize a true teacher."

Cope is therefore permitted to retain his certificate.

NASH AT THE Y. M. C. A.

You Will Never Regret Hearing the Evangelist.

Evangelist Nash addressed a large audience of men at the Y. M. C. A. rooms Sunday afternoon. His theme was "Individual Effort." He made out a strong case in favor of this class of work in reaching the masses of our young men, especially the industrial class. He spoke of the awful neglect of employers in not caring for the immortal part of their workmen and workwomen. He believes that if Christ should come among us today, there would be no place so vile that he would not try to reach and save the human souls working or staying therein. Nash is earnest and practical. He believes that any man, no matter how wicked or depraved he may be, can safely be approached on the subject of his future life and happiness, if he or she who approaches him does so with a heart charged with true and genuine love and sympathy.

During this week bible meetings will be held every afternoon in the Y. M. C. A. room, commencing at 5 and lasting until 5:45. Meetings commencing at 8 o'clock will also be held in the room each night this week. You have a cordial invitation and will be given a hearty welcome.

NARROW ESCAPES

Because Motormen Refuse to Sound Their Gongs.

The ordinance requiring motormen to ring gongs on all street crossings should be enforced.

Yesterday afternoon a man, with his wife and child, drove into Sixth street from Jackson street, and only missed a car by a few inches by putting his horse to a gallop. Another party narrowly escaped being run down at the corner of Washington and Third streets. In both instances the motormen were not ringing the gongs.

On the River.

The Ohio river continues to fall, and the marks at the wharf this morning registered 8 6 feet.

The Sunday boats, Ben Hur, Kana-wha and Keystone State, went up on time yesterday, and all enjoyed fair trips, both of freight and passengers.

The Clifton went down yesterday with five flats of coal. It was the only boat to go south. The towboat, J. N. Benton, went up with empties yesterday evening.

Business at the wharf at present is very slow.

In a New Position.

Thomas Darragh, late of the Specialty Glass company, left today for Ellwood, Pa., where he has taken a position. He will move his family to that city in the near future.

HEDIN'S NEW EXPEDITION.

Noted Swedish Explorer to Penetrate the Most Unknown Parts of Asia.

Dr. Sven Hedin, the well known Swedish explorer, who some time ago made a long and adventurous journey through central Asia, is planning a new expedition. His intention is to try to penetrate the most unknown parts of Asia. It is intended that the new jour-

DR. SVEN HEDIN.

ney shall begin next spring, and now also the starting point proper will be Kashgar. Dr. Hedin will cross the Taklamakan desert in two different directions, study one of the largest rivers in east Turkestan and explore certain parts of the Lopnor district. He will try to penetrate the unknown northern and central parts of Tibet, in the highlands of which country, at an altitude of about 16,000 feet, he may also spend a winter.

From Tibet he will go to India, and he has several times consulted Lord Curzon, the new viceroy of India, about this part of the programme. The return from India will be made over Himalaya, Karakorum and Kashgar. The proposed trip will take about three years, and the expenses will amount to about \$10,700. Dr. Hedin expects much assistance from the Russian authorities and counts particularly on the interest which the czar has shown in his plans. —E. Johnson in Chicago Record.

The Flying Fox.

The flying fox is a very curious inhabitant of the forest near Moreton bay, in east Australia. It lives in flocks and moves generally toward the dusk of the evening, and the noise produced by the heavy flapping of the so called wings is very singular. The flocks like quiet places, where there are large araucarian pine trees, with an underwood of scrub and creepers. The foxes hang in vast numbers from horizontal branches of the pine trees.

When there is a clear space among the trees, an enormous number of the animals may be seen, and their noise can be heard, for directly they see anything unusual they utter a short bark, something like the sound made by young rooks. Often every branch is crowded, and the young foxes are seen either flapping their wings and holding on with their hind feet and with their heads downward or snarling and fighting for places.

Suddenly the whole take to flight and flap their furry, winglike sides and wheel around like heavy birds. Many fly with their young holding on to them.

The creature is not a true fox, and there is a fold of skin which reaches from the fore to the hind legs. This is called the wing, and it enables the pteropus, as the animal is called, to float and turn in the air. —Philadelphia Press.

Kirghiz Music.

One of the Kirghiz came into my tent, and, squatting down, began to play the kaumuss, a three stringed instrument played with the fingers. The music was monotonous and of a melancholy cadence, but it harmonized well with the surroundings and the moods they inspired. In a word, it was typically Asiatic. I sat and listened to it with pleasure, giving my imagination captive to the music, the soft moaning of the night wind, the gentle crackle of the fire. How many and many a night did I not spend thus during the long years that followed listening to the dreamy sounds of that primitive Kirghiz instrument!

How many a dark, solitary winter afternoon did I not while away in this foolish fashion! In course of time I grew accustomed to the kaumuss and derived as much pleasure from it as the Kirghiz did themselves. In fact, I grew fond of it. Its soothing music carried my mind away into the fairy realms of day dreams. My thoughts flew far away to my home amid the dark pine woods of Sweden. —Sven Hedin in "Through Asia."

An Antenuptial Understanding.

"There is one question I want to ask you, dearest," said the beautiful girl as she toyed with the diamond ring on her third finger. "When we are married, will you expect me to bake my own bread?"

"You can do as you like about it, darling," he replied, "but I certainly shall insist upon your not baking mine." —Chicago News.

Aristocracy of Doldrom.

"My doll can shut her eyes and go to sleep just lovely."

"Hub! My doll never goes to sleep at all; she's got insomnia." —Chicago Record.

THE NATIONAL CAPITAL.

Exhibition of General Grosvenor's Abilities as an Athlete.

DR. CLARDY'S MEDITATIVE HABITS

How They Played the Kentucky Representative a Trick Recently. Why General Shafter Did Not Get on to the Floor of the House—President's Greeting to Boys.

When the antis had displayed such numerical strength against civil service recently in the house, says the Washington Post, joy entered the soul of General Grosvenor of Ohio. For several years he has borne the shock of oratorical encounter in the house when the date for the annual debate on civil service came. General Grosvenor expected defeat when the house reached a test vote, but it made him 20 years younger when the big Republican vote was announced.

The other day the Ohioan pranced about the house like a 2-year-old. There was a firmer tone in his voice as he saluted the civil service advocates. Finally he pranced out into the rear lobby, where the young son of Representative Thaddeus Mahon of Pennsylvania was playing.

"Can you run, my lad?" inquired the white haired veteran.

"Yes, sir," replied the boy, rather surprised.

"I will enter a race with you for the length of this lobby and back again," proposed the general.

Down the long stretch of the lobby tore the portly statesman in his Prince Albert and the youth in knee trousers. The congressional bystanders glanced in with some alarm through the glass door, lest Speaker Reed's wrath might be brought down upon the athletes. Turning for the homestretch General Grosvenor's white locks flew along behind his well shaped head. The boy dug the dust out of the carpet and won the first heat by a full yard.

"I will run you another," panted the general, and away the two flew for another trial of speed. General Grosvenor, like a man who had got his second wind, fairly flew, and Master Mahon fell behind before they returned to the starting point. Several times again they ran, but the racing was nip and tuck and neither is yet satisfied that the other is the swifter.

Dr. John D. Clardy of Kentucky is one of the most staid and conservative representatives from the Blue Grass State, according to the Washington Post. His full white beard, gold rimmed eyeglasses and always sober countenance contribute to the air of a legislative solon. Dr. Clardy sits almost constantly in his seat in the first row on the Democratic side, watches the proceedings and meditates.

His habits of meditation, however, played him a trick the other day. Dr. Clardy was riding to the house in the trailer of a capital traction train. He was absorbed in thought, from which he was recalled by the jostling of the car as it rounded the curves near the Garfield statue.

"Stop! Stop!" he cried to the conductor as he rushed out the rear door. Dr. Clardy thought the car was turning down Eighth street toward the marine barracks.

The good natured conductor threw his arms about the Kentuckian, who looked around, saw the white structure of the capitol, and laughed as he returned to his seat. After he had ridden up the hill to New Jersey avenue the physician and legislator thanked the conductor for saving him from a rash fall.

Major General Shafter appeared in statuary hall at Washington the other day soon after the session of the house began. General Wheeler, hearing of Shafter's arrival, hurried out and joined him.

"Come on, general!" said the impulsive Wheeler, leading the way to the floor of the house. Then the question arose as to the right of Shafter to the floor. "I'll settle that," said Wheeler, and he rushed back to the house and appealed personally to Speaker Reed. The speaker reached for the rules of the house and turned to the rigid provision keeping every one out except the few expressly designated.

"But this is Shafter," said Wheeler. The speaker pointed out that the rule was imperative. "Then let the house of representatives take a recess," said the general, "while members meet General Shafter." Speaker Reed assumed a new dignity. "General Wheeler," said he, "the house of representatives of the United States is bigger than any major general." So General Shafter did not get in.

When the president was returning from his afternoon drive recently, he was recognized by a group of boys who were skimming over Vermont avenue on roller skates, says the Chicago Record. They yelled "Hurrah for McKinley!" and started after him. Although the horses were going rapidly the youngsters soon overhauled the president's landau, and seizing hold of the sides and the back and the hind axle allowed

themselves to be dragged along over the pavement until the driver pulled up under the portico of the White House. As the president left the carriage he took off his hat as politely as if they had been fellow sovereigns and said, "Boys, I hope you had a good ride."

The Mad Poet's Retort.

Many stories are told of McDonald Clarke, known 50 years ago in New York as the "Mad Poet," which show that he had a vein of great shrewdness, such as is often possessed by people who are counted insane.

One day he was seated at a table in a New York hotel quietly eating his simple dinner when two young men took their seats at the same table. They were not gentlemen in the best sense of the word, and it occurred to them that they might have some sport with the poor poet. Consequently one of them said in an unnecessarily clear tone:

"I have seen almost everything and everybody in New York except McDonald Clarke. I have a great admiration for his poems, and I would give a great deal to see the man."

When he paused, the mad poet leaned forward and said with evident gratification:

"Sir, I am McDonald Clarke, whom you say you wish to see."

The young man stared at him with much rudeness for a moment, and then, drawing a quarter from his pocket, he laid it on the poet's plate, saying, "That's for the sight!"

Clarke looked at the coin for an instant, and then, placing it in his pocket, he took out a "York shilling," 12½ cents. This he handed to the young man, saying gravely, "Children half price." —Youth's Companion.

A Decidedly Novel Claim.

A claim once made on the explorer, Cameron, in the neighborhood of Gaboon, Africa, shows the peculiar workings of the native African's mind. Some of Cameron's possessions proved unduly attractive to a native, and he determined on transferring the ownership to himself. He accordingly paid another native \$200 to procure for him the coveted goods.

The assistant took the money and did his best to earn it, but Mr. Cameron had perversely locked up the very articles that the fellow's employer had set his heart upon. The man could not carry out his bargain, and neither did he feel that he could part with the money. Therefore he ran off with it. What more logical than that the man who was the loser by \$200 should expect the explorer to make the loss good? This he assuredly did expect.

He went to Mr. Cameron and told him the story, demanding in the first place the \$200 which he, Cameron, by locking up his goods, had compelled the complainant to lose, and, secondly, the actual price of the goods themselves, which, but for these arbitrary measures, would now have been in his possession. It is not stated that his expectations were realized. —Watchman.

Sterne's Destitution.

Laurence Sterne, the writer, was the victim of the intensest poverty. A little time before his death, being in a state of destitution, he went one evening to borrow £5 from his friend Garriek. Upon arriving, he heard music and knew that a party was going on. He heard the merry laughter, and, gently replacing the uplifted knocker, retraced his steps.

We never feel our miseries so keenly as when contrasted with the joys of others, and it is only then that we realize Wordsworth's picture:

And homeless near a thousand homes I stood
And near a thousand tables pined for food.

Another story of this writer does not evoke so much sympathy. It was known that Sterne used his wife very ill, and in talking with Garriek one day in fine sentimental style of conjugal love and fidelity he said, "The husband who behaves unkindly to his wife deserves to have his house burn down over his head."

"If you think so," said Garriek quietly, "I hope yours is well insured."

A Malay Sultan's Letter.

In the cover there were three inclosures—a formal letter of extreme politeness, written by a scribe; secondly, a letter written in my friend's own hand; and thirdly, another paper, headed, "Hidden Secrets," written also in the sultan's own hand. At the top of the first page of the second letter is written, "Our friendship is sealed in the inmost recesses of my heart." Then this, "I send this letter to my honored and renowned friend" (here follow my name, designation and some conventional compliments). The letter then continues: "You, my dear friend, are never out of my thoughts, and they are always wishing you well. I hear that you are coming to see me, and for that reason my heart is exceedingly glad, as though the moon had fallen into my lap or I had been given a cluster of flowers grown in the garden called Benjerana Sri, wide opening under the influence of the sun's warm rays." —"Unaddressed Letters," by Swettenham.

It Is Give and Take.

They say the beautiful women in Cuba have already acquired the habit of throwing kisses at our soldiers and that our soldiers catch them every time and exchange shots. Otherwise everything is now on a strictly peace basis in Cuba. —Boston Herald.

Phone 176-2 - - - 102 Fifth Street.
Next door east of T. B. Murphy & Son.

LOCAL BREVITIES.

Mrs. J. M. Kelly and Miss Dorothy Kelly will entertain tomorrow afternoon.

M. F. Frank, of Fifth street, left this morning for Canton where he will remain several days visiting friends.

David Thomas, of Toronto, arrived in the city this morning, and will remain during the week visiting friends.

The infant child of Mr. and Mrs. Rigby, of California hollow, was buried this afternoon in Spring Grove cemetery.

The grip has been ravaging the country on the Virginia side, and scores of people have been ill, but very few deaths are reported.

Firemen McCullough, Bryan, Woods and Bettridge were suffering with the grip last week. While very ill they were not compelled to be off duty.

Mrs. James B. Hall left today for Pittsburg where she will visit her husband who is undergoing treatment at the Mercy hospital.

A prominent resident suggested today that if everybody was going to buy real estate he believed it would be a good idea to extend the city limits back over the hills.

Clerk J. W. Gipner, of the water works, was able to be out today for the first time. Edward Morley has been filling his position in the water works office.

Captain Hill several months ago purchased a handsome dog and had it sent to a trainer in Tennessee, where it has since remained. The dog will be shipped here this week.

The many friends of Mr. and Mrs. David J. Wallace, Pennsylvania avenue, will be pleased to learn that a little daughter made its appearance at their home last evening.

Mrs. Mary E. Sims, of Canton, who has been visiting at the home of her daughter, Mrs. J. T. Roberts, was called home today in consequence of the very serious illness of her daughter, Mrs. Nicol, residing at Canton.

A gang of 20 telephone men arrived in the city this morning and will commence work at once putting in the new line to Calcutta. If the weather is favorable the work should be completed in four days.

Miss Mary Elliott, of Bellvue, Allegheny county, Pa., who has been visiting at the residence of her sister, Mrs. A. J. Boyce, Forest street, for the past few weeks, returned home on the noon train today. Miss Elliott has quite a number of warm personal friends in this city.

The gas ordinance will be placed on its third reading at the meeting of council tomorrow evening. The ordinance committee have not yet made a report but Mr. Peach intends to call up the ordinance and have some disposition made of it.

A party of young men stood on a prominent corner in the Diamond at a late hour Saturday night, and discussed at length the attempt to rob a stranger at the freight depot a few days ago. Their familiarity with the details prompted a resident who stood near to believe they know a great deal of the matter.

"Do you know that spring has come?" whispered a sweet voice over the NEWS REVIEW telephone this morning. "Why?" "Because there was a 'robin' in town Saturday night," was the reply, mingled with the jingle of the bell. Now the office boy wants to know who of all the people on that combination line has a sweet voice.

The option which expired on the Metch property Saturday has been extended. The exact time could not be learned. One of the gentlemen who has been identified with the people who are after the property stated this morning that it was almost certain the property would be purchased, but how soon the deal would be closed he could not state.

PORTO RICAN TARIFF.

Order Issued For Customs to Go Into Effect February 1.—Porter Explained.

WASHINGTON, Jan. 23.—By authority of an executive order, issued by the president Jan. 20, 1899, the secretary of war promulgated an amended customs tariff, which was prepared under the direction of the secretary of the treasury by Special Commissioner Robert P. Porter, Assistant Secretary Howell and Dr. H. K. Carroll, and which is to take effect in all ports and places in the island of Porto Rico and all islands in the West Indies east of the 74th degree west longitude, on and after Feb. 1.

The port of San Juan is designated as the chief customs port, and Ponce and Mayaguez as sub-ports, and the officer of the army assigned to each of these sub-ports as collector will have general jurisdiction of the collection of customs at such ports respectively.

Trade between ports of the United States and all ports and places in Porto Rico and trade between ports and places in Porto Rico shall be carried on in registered vessels of the United States and in no others.

In the course of his report, upon which the Porto Rican tariff is largely based, Special Commissioner Robert P. Porter shows that the value of the importations into Porto Rico during the year 1897 amounted to 17,358,063 pesos, upon which was collected in duties \$2,481,962. He further said, in part:

"If the same amount of revenue is required in Porto Rican pesos and the exports are likely to keep up to the 1897 standard, the fiscal problem confronting the treasury department in Porto Rico is briefly this: Provable total value of dutiable imports 17,358,063 pesos, or \$8,769,931; total revenue to be collected 2,481,962 pesos, or \$1,240,981.

"Discarding the money question, which, after all, in this case, is a purely Porto Rican matter, the simple problem is an importation of about \$5,000,000 United States money and a needed revenue of \$1,250,000 United States money.

"It would be manifestly unjust to Porto Rico to adopt and put in force the amended Cuban tariff because it is believed the Cuban revenue will amount to about 25 per cent of the imports, while a 15 per cent ad valorem tariff, assuming that the imports keep up to those of 1897, will yield sufficient revenue for the governmental needs of Porto Rico. The necessities and wants of the two countries are radically different. Porto Rico has not been devastated by war nor will it require a large United States army to keep order. There are no armed insurgents demanding millions for payment of military services to be charged up to the customs receipts."

UNSELFISH MEN NEEDED.

Captain Gardner Said Some Would Be Needed For Reconstruction In Porto Rico.

WASHINGTON, Jan. 23.—"If Porto Rico is to become a credit to the United States," said Captain Augustus P. Gardner, assistant adjutant general of volunteers, in an interesting report to Assistant Secretary of War Meiklejohn upon the educational and other affairs of the island of Porto Rico, "and not a continual thorn in her side, it is as certain as the rising of the sun that the work of reconstruction must be done by men of disinterested motives."

There exists on the island a fairly good skeleton on which to construct a school system. The difficulty arises from the scarcity of competent and reliable teachers. In the nature of things, for the present, but little progress can be made by American teachers sent to the island, until a knowledge of the English language has begun to permeate all classes.

Since the invasion of the American troops the salaries of all the priests, which have heretofore been paid by the state, have been cut off.

Roman Catholicism has a better chance in the island in view of the condition of the native mind than any other form of religion.

Loss From Explosions.

LEBANON, Pa., Jan. 23.—Three heavy explosions occurred at short intervals at the Bird Coleman furnace plant at Cornwall, about five miles from here. Buildings were shaken and many window panes broken throughout the town. The twin furnaces were much damaged and the loss was heavy. Of the many hundreds of workmen none were seriously hurt, although a number suffered slight injuries. The explosions were caused by molten metal eating its way out of a stack and entering the under pit, where it came into contact with water.

Hoyt Ordered to Santiago.

WASHINGTON, Jan. 23.—Henry M. Hoyt, assistant United States attorney general, was ordered by the department of justice to go to Santiago with General Leonard Wood on legal questions which may arise in the administration of that department and to represent the legal department of the United States there. Mr. Hoyt is a son of ex-Governor Hoyt of Pennsylvania.

Glassblowers May Strike.

MILLVILLE, N. J., Jan. 23.—An official of the Green Glassblowers association stated that 3,000 non-union, South Jersey blowers would strike this week if the firms refused to pay the union wages. Meetings were held in the different towns and the workers decided to join the union.

Pugilist's Punch Was Fatal.

LOUISVILLE, Jan. 23.—Tom Lansing, the heavy weight pugilist who was injured in a bout with Jack Root in Chicago about two months ago, died at St. Mary and Elizabeth's hospital. Lansing was knocked down by one of Root's punches, and his head struck the floor with such violence that a clot formed on the brain.

D. M. OGILVIE & CO.

REMOVAL SALE.

WE want to make this week count in the reduction of stock. But a short time now until we shall move. Will offer goods at very low prices this week.

Cloaks.

Not going to carry a cloak over if low prices are any object to cloak buyers.

Plush Jackets.

Two of these—one 32, one 34—made from Salt's guaranteed plush, lined with red satin, late styles; former price \$18, sale price \$9.

Cloth Jackets.

Black, blue and brown, at half early season's prices.

The \$5.00 ones at \$2.50.
The 7.50 ones at 3.75.
The 10.00 ones at 5.00.
The 18.00 ones at 9.00.

Don't believe you ever had jackets as good offered at prices so low.

Cloth capes, misses' jackets, children's cloaks, all at half price.

Furs.

Collarsties at half price. If at all interested in collarsties, it would pay you to look after these.

Muslin Underwear.

All muslin underwear now in stock at a discount of 20 per

cent. These are staple goods carried from last season, and are very cheap, as they were good values at the original price. Will not have our annual muslin underwear sale until after we move.

Comforts.

Eiderdown comforts, silk top, satin back, \$7.50 goods at \$6.25.

Extra size comforts that were \$3, now \$2.40.

Homemade comforts, \$2.75 goods, \$2.40.

\$2.25 comforts at \$1.75.
1.75 comforts at 1.40.
1.00 comforts at 85c.

Blankets.

Good time to buy blankets. It may be a long time before you buy them cheaper. We have only the medium grades left—a few white ones, but mostly red, grey or barred.

\$2.98 all wool blankets, \$2.48.
3.50 all wool blankets, 2.98.
4.00 all wool blankets, 3.48.
4.50 all wool blankets, 3.98.

Wash Goods.

All last season's colored lawns, dimities and organdies at half price.

SAVE MONEY

BY BUYING AT OUR REMOVAL SALE.

D. M. Ogilvie & Co.

'FIXED' FOR THREE STATES.

Pennsylvania, Ohio and Indiana Will Have No Strike This Year.

PITTSBURG, Jan. 23.—There will be no strike of the bituminous coal miners of Pennsylvania, Ohio and Indiana during the next year. It can be said on the most reliable authority that the rate and conditions in the three states will be:

Rate of mining 66 cents per ton.
Double standard system as to run-of-mine and screens.
Eight hours shall constitute a day's labor.

Miners of Illinois are the only stumbling block, or what might be termed the obstructionists, to the settlement.

Scott Sent to Jail.

PITTSBURG, Jan. 23.—J. McD. Scott, the embarrassed shoe merchant, was committed to jail Saturday at the conclusion of the hearing on his application for a discharge under the insolvency laws. The 37 bench warrants on which he had been arrested were also disposed of, and two commitments were lodged against him, one holding him for fraudulent insolvency, and one for concealing his property to defraud his creditors.

Memorial to Ensign Bagley.

ANNAPOLIS, Jan. 23.—The memorial tablet placed in the naval academy chapel in memory of Ensign Worth Bagley, who was killed on the Winslow off Cardenas in the late war, was unveiled in the presence of a large number of naval officers and others. Lieutenant John B. Bernadou, who commanded the Winslow, raised the veiling. Mrs. Bagley, mother of Ensign Bagley, and his sister were present.

Funeral of Librarian Young.

WASHINGTON, Jan. 23.—The funeral of the late John Russell Young, librarian of congress, was held Sunday at St. John's Episcopal church in the presence of a large assemblage. A service of prayer was held at the residence early in the day, attended only by the members of the family. The services were conducted by the Rev. Mackey Smith. The remains were taken to Philadelphia for burial.

Rev. Dr. Hillis Accepted.

NEW YORK, Jan. 23.—Rev. Newell Dwight Hillis accepted the pastorate of Plymouth church, Brooklyn, to succeed Dr. Lyman Abbott. Dr. Hillis' acceptance, telegraphed from Chicago, was read at the morning service at Plymouth church Sunday. Dr. Abbott will take final leave of his congregation in the latter part of February.

Flood's Engagement Rumored.

KANSAS CITY, Jan. 23.—Miss Maud L. Fritz of Kansas City, according to The Star, is to become the bride of James L. Flood, only son of the late James C. Flood, the famous California bonanza king, who fell heir to one-third of his father's vast estate.

New M. P. Church Dedicated.

PITTSBURG, Jan. 23.—The new Mount Washington Methodist Episcopal church, corner of Virginia avenue and Bigham street, was dedicated Sunday. In the forenoon the Rev. George Shaffer, D. D., president of the Pittsburg conference, preached a sermon. A platform meeting, participated in by a number of ministers of other denominations, was held in the afternoon and in the evening the dedication proper took place. The Rev. J. H. Lucas of the First Methodist Protestant church of Allegheny was the preacher. The several services were under the immediate direction of the Rev. J. W. Righter, pastor of the congregation.

TWO VICTIMS DIED.

A Ferryboat Ran Down a Launch Near San Francisco.

SAN FRANCISCO, Jan. 23.—The steam ferryboat Oakland, plying between this city and Oakland, ran down the launch William D. near Goat island. The launch sank immediately. Engineer Waddles of the William D. was drowned.

E. D. Orr, a passenger, was struck by the Oakland and died of his injuries after reaching the hospital. Captain Christensen, Joe Matthews and one other passenger on the launch were picked up by the Oakland while struggling in the water.

To Try to Free Prisoners.

MADRID, Jan. 23.—The Washington government notified Spain of its intention to endeavor to secure the release of the Spanish prisoners in the Philippines.

Blanco's Story Proved.

NEW CASTLE, Pa., Jan. 23.—Postmaster John B. Brown, who has been retained by the city on the Blevins murder case, returned from Ellwood City, where he was tracing a story concerning the whereabouts of Blanco, who is being held at Franklin, on the night of the murder. Blanco claimed to have been in Ellwood City on Jan. 6, 7 and 8, leaving the latter day. Brown made a careful investigation and found Blanco's story to be true.

Crime of a Drunken Man.

MAHANAOY CITY, Pa., Jan. 23.—Dennis McCarthy of Bowman's, a small mining village near here, shot and killed his aged mother and then attempted to commit suicide by shooting himself. He was drunk.

Rev. Father McGuckin Dead.

WILKESBARRE, Pa., Jan. 23.—Rev. F. A. McGuckin, pastor of the Catholic church at Nanticoke, died of pneumonia, aged 57 years.

Weather Forecast.

Western Pennsylvania—Threatening with rain on the lake; brisk southeasterly winds.
